PART I - THE SCHEDULE

SECTION B - SUPPLIES OR SERVICES AND PRICES/COSTS

***** BEGIN DEVIATED CLAUSE TEXT *****

**B.1 LEVEL OF EFFORT--COST REIMBURSEMENT TERM CONTRACT (EPAAR 1552.211-73)
(APR 1984) DEVIATION**

(a) The Contractor shall perform all work and provide all required reports within the level of effort specified below. The Government will order 12,500 direct labor hours for the base period which represents the Government's best estimate of the level of effort required to fulfill these requirements.

(b) Direct labor includes personnel such as engineers, scientists, draftsmen, technicians, statisticians, and programmers and not support personnel such as company management, typists, and key punch operators even though such support personnel are normally treated as direct labor by the Contractor. The level of effort specified in paragraph (a) includes Contractor, subcontractor, and consultant labor hours.

(c) Under any circumstances, if the Government orders the Contractor provides less than 90 percent of the level of effort specified for the base period or any optional period exercised, an equitable downward adjustment of the fixed fee, if any, for that period will be made. The Government may require the Contractor to provide additional effort up to 110 percent of the level of effort for any period until the estimated cost for that period has been reached. However, this additional effort shall not result in any increase in the fixed fee, if any. If this is a cost-plus-incentive-fee (CPIF) contract, the term "fee" in this paragraph means "base fee and incentive fee." If this is a cost-plus-award-fee (CPAF) contract, the term "fee" in this paragraph means "base fee and award fee."

(d) If the level of effort specified to be ordered during a given base or option period is not ordered during that period, that level of effort may not be accumulated and ordered during a subsequent period.

(e) These terms and conditions do not supersede the requirements of either the "Limitation of Cost" or "Limitation of Funds" clauses.

***** END DEVIATED CLAUSE TEXT *****

***** BEGIN EXCLUDED/DEVIATED CLAUSE TEXT *****

**B.2 WORK ASSIGNMENTS (EPAAR 1552.211-74) (APR 1984) ALTERNATE I (MAY 1994)
DEVIATION**

(a) The Contractor shall perform work under this contract as specified in written work assignments issued by the Contracting Officer.

(b) Each work assignment will include (1) a numerical designation, (2) the estimate of required labor hours, (3) the period of performance and schedule of deliverables, and (4) the description of the work.

(c) The Contractor shall acknowledge receipt of each work assignment by returning to the Contracting Officer a signed copy of the work assignment within SEVEN (7) calendar days after its receipt. The Contractor shall begin work immediately upon receipt of a work assignment.

Within FIFTEEN (15) calendar days after receipt of a work assignment, the Contractor shall submit TWO (2) copies of a work plan to the PROJECT OFFICER and ONE (1) copy to the Contracting Officer. The work plan shall include a detailed technical and staffing plan and a detailed cost estimate.

Within THIRTY (30) calendar days after receipt of the work plan, the Contracting Officer will provide written approval or disapproval of it to the Contractor.

If the Contractor has not received approval on a work plan within THIRTY (30) calendar days after its submission, the Contractor shall stop work on that work assignment. Also, if the Contracting Officer disapproves a work plan, the Contractor shall stop work until the problem causing the disapproval is resolved. In either case, the Contractor shall resume work only when the Contracting Officer finally approves the work plan.

(d) This clause does not change the requirements of the "Level of Effort" clause, nor the notification requirements of either the "Limitation of Cost" or "Limitation of Funds" clauses.

(e) Work assignments shall not allow for any change to the terms or conditions of the contract. Where any language in the work assignment may suggest a change to the terms or conditions, the Contractor shall immediately notify the Contracting Officer.

(f) Within FIFTEEN (15) days after receipt of the work assignment or similar tasking document, the Contractor shall provide a conflict of interest certification.

Before submitting the conflict of interest certification, the contractor shall search its records accumulated, at a minimum, over the past three years immediately prior to the receipt of the work assignment or similar tasking document. In the COI certification, the Contractor must certify to the best of the Contractor's knowledge and belief, that all actual or potential organizational conflicts of interest have been reported to the Contracting Officer or that to the best of the Contractor's knowledge and belief, no actual or potential organizational conflicts of interest exist. In addition, the Contractor must certify that its personnel who perform work under this work assignment or relating to this work assignment have been informed of their obligation to report personal and organizational conflicts of interest to the Contractor. The certification shall also include a statement that the Contractor recognizes its continuing obligation to identify and report any actual or potential conflicts of interest arising during performance of this work assignment.

***** END EXCLUDED/DEVIATED CLAUSE TEXT *****

***** BEGIN CUSTOMIZED CLAUSE TEXT *****

B.3 ESTIMATED COST AND FIXED FEE (EP 52.216-190) (APR 1984)

(a) The estimated cost of this contract is TBD.

(b) The fixed fee is TBD.

(c) The total estimated cost and fixed fee is TBD.

***** END CUSTOMIZED CLAUSE TEXT *****

***** BEGIN EXCLUDED CLAUSE TEXT INCLUDED *****

B.4 LIMITATION OF FUNDS NOTICE (EP 52.232-100) (APR 1984)

(a) Pursuant to the Limitation of Funds clause, incremental funding in the amount of ___TBD_____ is allotted to cover estimated cost. Funds in the amount of ___TBD_____ are provided to cover the corresponding increment of fixed fee. The amount allotted for costs is estimated to cover the contractor's performance through ___TBD_____.

(b) When the contract is fully funded as specified in the Estimated Cost and Fixed Fee Clause (EP 52.216-190), the Limitation of Cost clause shall become applicable.

SECTION C - DESCRIPTION/SPECIFICATIONS/WORK STATEMENT

C.1 NOTICE REGARDING PROHIBITED CONTRACTOR ACTIVITIES ON ENVIRONMENTAL PROTECTION AGENCY (EPA) CONTRACTS (EP 52.000-000) (NOV 1994)

The Contractor shall not perform any of the following activities on behalf of EPA in connection with this contract:

1. The actual preparation of Congressional testimony.
2. The interviewing or hiring of individuals for employment at EPA.
3. Developing and/or writing of Position Descriptions and Performance Standards.
4. The actual determination of Agency policy.
5. Participating as a voting member on a Performance Evaluation Board; participating in and/or attending Award Fee meetings.
6. Preparing Award Fee Letters, even under typing services contracts.
7. The actual preparation of Award Fee Plans.
8. The preparation of documents on EPA Letterhead other than routine administrative correspondence.
9. Reviewing vouchers and invoices for the purposes of determining whether costs, hours, and work performed are reasonable.
10. The preparation of Statements of Work, Work Assignments, Technical Direction Documents, Delivery Orders, or any other work issuance document under a contract that the contractor is performing or may perform. Such a work issuance document, prepared by an EPA prime contractor under an EPA prime contract for its subcontractor, is exempt from this prohibition.
11. The actual preparation of responses to audit reports from the Inspector General, General Accounting Office, or other auditing entities.
12. Preparing responses to Congressional correspondence.
13. The actual preparation of responses to Freedom of Information Act requests, other than routine, non-judgmental correspondence.
14. Any contract which authorizes a contractor to represent itself as EPA to outside parties.
15. Conducting administrative hearings.
16. Reviewing findings concerning the eligibility of EPA employees for security clearances.

17. The actual preparation of an office's official budget request.

STATEMENT OF WORK/SPECIFICATIONS (EP 52.210-100) (APR 1984)

This clause has been excluded by user selection.

***** BEGIN EXCLUDED CLAUSE TEXT INCLUDED *****

C.2 STATEMENT OF WORK--CONTRACT WHERE WORK IS ORDERED BY WORK ASSIGNMENTS OR DELIVERY ORDERS (EP 52.210-110) (APR 1984)

The Contractor shall furnish the necessary personnel, material, equipment, services and facilities (except as otherwise specified), to perform the Statement of Work/Specifications included in Attachment 1.

The Contractor shall perform work under this contract only as directed in Work Assignments issued by the Contracting officer.

***** END EXCLUDED CLAUSE TEXT INCLUDED *****

C.3 COMPLIANCE WITH EPA POLICIES FOR INFORMATION RESOURCES MANAGEMENT (EPAAR 1552.211-75) (OC: 20 0)

(a) Definition. Information Resources Management (IRM) is defined as any planning, budgeting, organizing, directing, training, promoting, controlling, and managing activities associated with the burden, collection, creation, use and dissemination of information. IRM includes both information itself, and the management of information and related resources such as personnel, equipment, funds, and technology. Examples of these services include but are not limited to the following:

(1) The acquisition, creation, or modification of a computer program or automated data base for delivery to EPA or use by EPA or contractors operating EPA programs.

(2) The analysis of requirements for, study of the feasibility of, evaluation of alternatives for, or design and development of a computer program or automated data base for use by EPA or contractors operating EPA programs.

(3) Services that provide EPA personnel access to or use of computer or word processing equipment, software, or related services.

(4) Services that provide EPA personnel access to or use of: Data communications; electronic messaging services or capabilities; electronic bulletin boards, or other forms of electronic information dissemination; electronic record-keeping; or any other automated information services.

(b) General. The Contractor shall perform any IRM related work under this contract in accordance with the IRM policies, standards and procedures set

forth in this clause and noted below. Upon receipt of a work request (i.e. delivery order or work assignment), the Contractor shall check this listing of directives (see paragraph (d) for electronic access). The applicable directives for performance of the work request are those in effect on the date of issuance of the work request.

(1) IRM Policies, Standards and Procedures. The 2100 Series (2100-2199) of the Agency's Directive System contains the majority of the Agency's IRM policies, standards and procedures.

(2) Groundwater Program IRM Requirement. A contractor performing any work related to collecting Groundwater data; or developing or enhancing data bases containing Groundwater quality data shall comply with EPA Order 7500.1A - Minimum Set of Data Elements for Groundwater.

(3) EPA Computing and Telecommunications Services. The Enterprise Technology Services Division (ETSD) Operational Directives Manual contains procedural information about the operation of the Agency's computing and telecommunications services. Contractors performing work for the Agency's National Computer Center or those who are developing systems which will be operating on the Agency's national platforms must comply with procedures established in the Manual. (This document may be found at: <http://basin.rtpnc.epa.gov:9876/etsd/directives.nsf>.)

(c) Printed Documents. Documents listed in (b)(1) and (b)(2) may be obtained from:

U.S. Environmental Protection Agency
Office of Administration
Facilities Management and Services Division
Distribution Section
Mail Code: 3204
Ariel Rios Building
1200 Pennsylvania Avenue, N.W.
Washington, D.C. 20460
Phone: (202) 260-5797

(d) Electronic Access. Electronic access. A complete listing, including full text, of documents included in the 2100 Series of the Agency's Directive System is maintained on the EPA Public Access Server on the Internet at <http://epa.gov/docs/irmpoli8/>.

C.4 ACQUISITION AND USE OF ENVIRONMENTALLY PREFERABLE PRODUCTS AND SERVICES (EP-S 97-1) (MAY 1999)

(a) Executive Order 13101 of September 14, 1998, entitled "Greening the Government through Waste Prevention, Recycling, and Federal Acquisition" and Section 6002 of the Resource Conservation and Recovery Act (RCRA) of 1976, as amended (42 U.S.C. 6962, Pub L. 94-580, 90 Stat. 2822) require Federal agencies to procure designated items with the highest recovered materials content practicable.

(b) In the performance of this contract, the Contractor shall comply with the requirements of the following issuances:

(1) Title 40 of the Code of Federal Regulations, Part 247, Comprehensive Guideline for Procurement of Products Containing Recovered Materials (CPG), which designates items that are or can be made with recovered materials, and its companion pieces, the Recovered Materials Advisory Notices (RMANs). The CPG and RMANs provide recommended procurement practices, including recommended recovered material content levels, for purchasing products designated in the CPG. The Contractor shall comply with these recommendations, and such other CPG revisions and RMANs as the Environmental Protection Agency (EPA) may issue with respect to the procurement of products that contain recovered materials. (Copies of the CPG or RMANs, as well as information on manufacturers and vendors of designated items may be obtained by calling EPA's RCRA Hotline at (800) 424-9346, or, in the Washington, D.C., metropolitan area, at (703) 412-9810.)

(2) In complying with the requirements of paragraph (b), the Contractor shall coordinate its concerns and program guidance with EPA's Recycling Coordinator.

(c) The Contractor shall prepare and submit reports on the purchase of products containing recovered materials from time to time in accordance with written direction (e.g., in specified format) from the EPA Recycling Coordinator through the Contracting Officer. Reports shall be submitted to the EPA Recycling Coordinator, with a copy to the Contracting Officer, Mail Code 3204, Washington, D.C. 20460.

As authorized by FAR 52.246-11, the higher-level quality standard ANSI/ASQC E4 is tailored as follows:

The solicitation and contract require the offeror/contractor to demonstrate conformance to ANSI/ASQC E4 by submitting the quality documentation described below.

In addition, after award of the contract, the Contractor shall revise, when

NO OFFERS WILL BE ACCEPTED BASED IN RESPONSE TO THIS DRAFT

PR-HQ-02-11601

applicable, quality documentation submitted before award to address specific comments provided by EPA and submit the revised documentation to the Contracting Officer's Representative.

After award of the contract, the Contractor shall also implement all quality documentation approved by the Government.

A. Pre-award Documentation: The offeror must submit the following quality system documentation as a separate and identifiable part of its technical proposal: *(CO, select one or more)*

<u>Documentation</u>	<u>Specifications</u>
<input checked="" type="checkbox"/> Quality Management Plan	<u>EPA Requirements for Quality Management Plans (QA/R-2)</u> [dated 03/20/01]

***** BEGIN CO ADDED CLAUSE TEXT *****

F.2 MONTHLY PROGRESS REPORT

DRAFT

A. Monthly Progress and Financial Report/Invoice Report/Deliverables Report

The contractor shall prepare a monthly progress and financial report. The report shall state briefly the progress made and the tasks accomplished, including percent completion of the work ordered, during the reporting period. Specific discussions shall include activities and costs associated with administration (e.g., time and travel for monthly/quarterly meetings) of the contract that are not directly billable to a work assignment, difficulties encountered during the reporting period and remedial action taken, and a statement of activities to be undertaken and any problems anticipated during the subsequent reporting period. The report shall also include any changes of the work assignment manager or professional staff concerned with the project. In addition, the report shall specify contract financial status as follows:

1. Cumulative costs and direct labor hours expended from the effective date of the contract through the last day of the current reporting period.
2. Actual costs and direct labor hours expended during the reporting period.
3. Estimated costs and direct labor hours to be expended during the next reporting period.
4. Actual costs and direct labor hours incurred for each work assignment issued and estimated of costs and labor hours required to complete each work assignment. The level

of detail provided in this section must be sufficient to determine the number of hours charged by each individual person of the contractor's team to each work assignment. While this level of detail is not required on the invoice, invoices must be reconcilable on a monthly basis with the financial report on each work assignment that covers the exact same period.

5. A graph using a vertical axis for dollars and a horizontal axis for time increments that show the actual and projected rate of expenditures against the total cost of the task.

Exhibit 1 is a sample format for this report. The contractor's report may differ slightly from the sample; however, the report must contain the same level of detail as shown in the sample.

In addition, the report shall provide a complete cost breakdown for each reporting/invoice period. The level of detail specified on the attached sample is required for each individual work assignment and totaled on a cumulative summary sheet for that invoice. All costs associated with the administration of the contract must also be shown along with the methodology for calculating the administrative costs within the contract.

A table shall be included with the report showing all direct labor and consultant hours billed on the invoice. As a minimum, this table shall show professional level (PL), individual's name, company affiliation, individual hours charge, and work assignment total hours charged.

Exhibit 2 is a sample format for this report. The contractor's report may differ slightly from the sample; however, the report must contain the same level of detail as shown in the sample.

In addition, the report shall provide a complete list and status of deliverables on a monthly basis. The report shall contain a cumulative list by work assignment of all deliverables requested by the government under this contract. Each deliverable shall be listed along with the work assignment number, the due date of the deliverable, the date the deliverable was delivered (completed), and a brief comment on the status of the deliverable. The report shall include a section which breaks out those deliverables which are due in the next reporting period.

DELIVERY INFORMATION

- a. Deliver one (1) copy to the Contracting Officer
Deliver two (2) copies to the Project Officer (see SECTION G for names and addresses)
- b. Deliver this report by the 20th calendar day following the close of the monthly period being reported
- c. This report shall be submitted in final form only

B. Report of Non-Monthly or “Pipeline” Invoices

The information stated on the routine monthly invoices shall be explained in the Monthly Progress and Financial Report(s) or the Monthly Invoice Cost Report(s) mentioned previously. Any additional invoice, however designated (i.e., “pipeline invoice”), shall be accompanied by its own explanatory report. This report shall provide a complete explanation for each amount claimed on the invoice. It shall explain the purpose of each charge and describe the work and/or deliverable with which it is connected. It shall also indicate the specific time period during which each charge was incurred and shall explain the relationship of each charge to those charges incurred during the same time period which appeared on the Monthly Invoice Cost Report.

DELIVERY INFORMATION

- a. Deliver one (1) copy to the Contracting Officer
Deliver two (2) copies to the Project Officer (see SECTION G for names and addresses)
- b. Deliver this report concurrently with the invoice which it explains
- c. This report shall be submitted in final form only

C. Work Plan

The contractor shall prepare and deliver work plans pursuant to the provisions of the SECTION B clause entitled “Work Assignment. Each work plan shall provide:

1. Detailed plan for completing the work assignment
2. Statement of the methodology to be used
3. Data sources to be used
4. Level and mix of work hours needed, with names of all proposed personnel
5. A complete schedule of work and outputs
6. A complete budget, including other costs anticipated for the work assignment
7. Other items as specified in the work assignment.

DELIVERY INFORMATION

- a. Deliver one (1) copy to the Contracting Officer
Deliver two (2) copies to the Project Officer (see SECTION G for names and addresses)
- b. Deliver work plans at the times specified in the SECTION B clause entitled “Work Assignments”
- c. Work plans shall be submitted in final form only.

D. Technical Reports

Technical reports shall be delivered in accordance with the technical requirements and delivery information set forth in individual work assignments. Additionally, all technical reports shall be accompanied by a technical report abstract as specified in this contract.

G.3 SUBMISSION OF INVOICES (EPAAR 1552.232-70) (JUN 1996) DEVIATION

In order to be considered properly submitted, an invoice or request for contract financing payment must meet the following requirements in addition to the requirements of FAR 32.905:

(a) Unless otherwise specified in the contract, an invoice or request for contract financing payment shall be submitted as an original and five copies. The contractor shall submit the invoice or request for contract financing payment to the following offices/individuals in the contract: the original and two copies to the Accounting Operations office shown in Block 12 on the cover

of the contract; two copies to the Project Officer (the Project Officer may direct one of these copies to a separate address); and one copy to the Contracting Officer.

(b) The Contractor shall prepare its invoice or request for contract financing payment on the prescribed Government forms. Standard Forms Number 1034, Public Voucher for Purchases and Services other than Personal, shall be used by contractors to show the amount claimed for reimbursement. Standard Form 1035, Public Voucher for Purchases and Services other than Personal -Continuation Sheet, shall be used to furnish the necessary supporting detail or additional information required by the Contracting Officer. The Contractor may submit self-designed forms which contain the required information.

(c) (1) The Contractor shall prepare a contract level invoice or request for contract financing payment in accordance with the invoice preparation instructions identified as a separate attachment in Section J of the contract. If contract work is authorized by individual work assignments, the invoice or request for contract financing payment shall also include a summary of the current and cumulative amounts claimed by cost element for each work assignment and for the contract total, as well as any supporting data for each work assignment as identified in the instructions.

(2) The invoice or request for contract financing payment shall include current and cumulative charges by major cost element such as direct labor, overhead, travel, equipment, and other direct costs. For current costs, each major cost element shall include the appropriate supporting schedule identified in the invoice preparation instructions. Cumulative charges represent the net sum of current charges by cost element for the contract period.

(d) (1) The charges for subcontracts shall be further detailed in a supporting schedule showing the major cost elements for each subcontract.

(d) (2) On a case-by-case basis, when needed to verify the reasonableness of subcontractor costs, the Contracting Officer may require that the contractor obtain from the subcontractor cost information in the detail set forth in (c) (2). This information should be obtained through a means which maintains subcontractor confidentiality (for example, via sealed envelopes), if the subcontractor expresses CBI concerns.

(e) Invoices or requests for contract financing payment must clearly indicate the period of performance for which payment is requested. Separate invoices or requests for contract financing payment are required for charges applicable to the basic contract and each option period.

(f) (1) Notwithstanding the provisions of the clause of this contract at FAR 52.216-7, Allowable Cost and Payment, invoices or requests for contract financing payment shall be submitted once per month unless there has been a demonstrated need and Contracting Officer approval for more frequent billings. When submitted on a monthly basis, the period covered by invoices or requests for contractor financing payments shall be the same as the period for monthly progress reports required under this contract.

(2) If the Contracting Officer allows submissions more frequently than monthly, one submittal each month shall have the same ending period of performance as the monthly progress report.

(3) Where cumulative amounts on the monthly progress report differ from the aggregate amounts claimed in the invoice(s) or request(s) for contract financing payments covering the same period, the contractor shall provide a reconciliation of the difference as part of the payment request.

G.4 INDIRECT COSTS (EPAAR 1552.242-70) (APR 1984) DEVIATION

(a) In accordance with paragraph (d) of the "Allowable Cost and Payment" clause, the final indirect cost rates applicable to this contract shall be established between the Contractor and the appropriate Government representative (EPA, other Government agency, or auditor), as provided by FAR 42.703-1(a). EPA's procedures require a Contracting Officer determination of indirect cost rates for its contracts. In those cases where EPA is the cognizant agency (see FAR 42.705-1), the final rate proposal shall be submitted to the cognizant audit activity and to the following:

Environmental Protection Agency
Chief, Cost and Rate Negotiation Service Center
Office of Acquisition Management (3802R)
Ariel Rios Building
1200 Pennsylvania Avenue, N.W.
Washington, D. C. 20460

The Contractor shall also follow the notification and cost impact procedures prescribed in paragraph (b) below.

Where EPA is not the cognizant agency, the final rate proposal shall be submitted to the above-cited address, to the cognizant audit agency, and to the designated Contracting Officer of the cognizant agency. Upon establishment of the final indirect cost rates, the Contractor shall submit an executed Certificate of Current Cost or Pricing Data (see FAR 15.406-2) applicable to the data furnished in connection with the final rates to the cognizant audit agency. The final rates shall be contained in a written understanding between the Contractor and the appropriate Government representative. Pursuant to the "Allowable Cost and Payment" clause, the allowable indirect costs under this contract shall be obtained by applying the final agreed upon rate(s) to the appropriate bases.

(b) Until final annual indirect cost rates are established for any period, the Government shall reimburse the Contractor at billing rates established by the appropriate Government representative in accordance with FAR 42.704, by means of a separate indirect cost rate agreement or a contract modification subject to adjustment when the final rates are established. The established billing rates are currently as follows:

Cost Center
Period
Rate
Base

These billing rates may be prospectively or retroactively revised by mutual agreement, at the request of either the Government or the Contractor, to prevent substantial overpayment or underpayment.

(1) For any retroactive indirect cost rate adjustments (i.e., indirect costs already billed), including final indirect cost rate adjustments, the Contractor shall provide to the Cost Policy and Rate Negotiation Section, with copies to the current EPA Contracting Officers of active contracts, a cost impact statement showing the effect of the indirect cost rate changes for each contract. This statement shall compare the cost billed to the cost the Contractor proposes to bill.

(2) For prospective indirect cost rate adjustments only, the Contractor shall notify the current EPA Contracting Officers of the new proposed rates when it proposes rates to the Cost Policy and Rate Negotiation Section.

(3) For either prospective or retroactive indirect cost rate adjustments, the Contractor shall provide the Cost Policy and Rate Negotiation Section with the names of the current EPA Contracting Officers for the affected contracts.

(c) Notwithstanding the provisions of paragraphs (a) and (b) above, ceilings are hereby established on indirect costs reimbursable under this contract. The Government shall not be obligated to pay the Contractor an additional amount on account of indirect costs in excess of the ceiling rates listed below:

Cost Center
Period
Rate
Base

DRAFT

The ceiling rates specified above are applicable from the effective date of the contract through the end of the period of performance including any option periods.

G.5 CONTRACT ADMINISTRATION REPRESENTATIVES (EP 52.242-100) (AUG 1984)

Project Officer(s) for this contract:

Project Officer:

TO BE IDENTIFIED AT TIME OF CONTRACT AWARD

Contract Specialist(s) responsible for administering this contract:

G.6 SUBCONTRACT CONSENT (EP 52.244-100) (APR 1984)

The Contractor shall submit the information required by the "Subcontracts," clause to the Contracting Officer and assigned Project Officer. The Contracting Officer will provide written notice to the Contractor of his decision.

Consent is given to issue the following subcontracts:

***** BEGIN DEVIATED CLAUSE TEXT *****

G.7 GOVERNMENT PROPERTY (EPAAR 1552.245-73) (OCT 2000) DEVIATION

(a) The contractor shall not fabricate or acquire, on behalf of the Government, either directly or indirectly through a subcontract, any item of property without written approval from the Contracting officer.

(b) In accordance with paragraph (a) above, the contractor is authorized to acquire and/or fabricate the equipment listed below for use in the performance of this contract. The equipment is subject to the provisions of the "Government Property" clause.

N/A

(c) The Government will provide the following item(s) of Government property to the contractor for use in the performance of this contract. This property shall be used and maintained by the contractor in accordance with the provisions of the "Government Property" clause.

N/A

(d) The "EPA Contract Property Administration Requirements" provided below apply to this contract.

**U.S. Environmental Protection Agency
Property Administration Requirements (PAR)**

1. PURPOSE. This document sets forth the requirements for Environmental Protection Agency (EPA) contractors in the performance of their Government property management responsibilities under contracts with EPA. These requirements supplement those contained in the Government property clause(s) in this contract, and part 45 of the Federal Acquisition Regulation (FAR).

2. DELEGATION OF CONTRACT PROPERTY ADMINISTRATION. EPA has delegated much of its contract property management oversight to the Defense Contract Management Command (DCMC). Shortly after award of a contract, the EPA contracting officer (CO) delegates the functions of property administration and plant clearance (disposal) for the contract to DCMC. Upon acceptance of that delegation, DCMC will provide notification to the contractor, identifying the assigned property administrator (PA) and plant clearance officer (PLCO). If the contract is not delegated to DCMC for administration, any reference to PA and PLCO throughout this document shall be construed to mean CO. The DCMC PA is available to the contractor for assistance in all matters of property administration. Notwithstanding the delegation, as necessary, the contractor may contact their

EPA CO. In the event of disagreement between the contractor and the DCMC PA, the contractor should seek resolution from the CO. Unless otherwise directed in the contract, or this document, all originals of written information or reports, except direct correspondence between the contractor and the DCMC PA, relative to Government property, should be forwarded to the administrative CO assigned to this contract.

3. REQUESTS FOR GOVERNMENT PROPERTY.

a. In accordance with FAR 45.102, the contractor shall furnish all property required for performing Government contracts. If a contractor believes that Government facilities are required for performance of the contract, the contractor shall submit a written request to the CO. At a minimum, the request shall contain the following elements:

1. Contract number for which the facilities are required.
2. An item(s) description, quantity and estimated cost.
3. Certification that no like contractor facilities exist which could be utilized.
4. A detailed description of the task-related purpose of the facilities.
5. Explanation of negative impact if facilities are not provided by the Government.
6. If applicable, recommend the exception under FAR 45.302-1(a) or any applicable EPA class deviation (available upon request), and provide any other information which would support the furnishing of facilities, including contractor-acquired property (CAP).
7. Except when the request is for material, a lease versus purchase analysis shall be furnished with the request to acquire property on behalf of the Government.

The contractor may not proceed with acquisition of facilities on behalf of the Government until receipt of written authorization from the EPA CO.

4. TRANSFER OF GOVERNMENT PROPERTY. When the contractor receives Government-furnished property (GFP), the contractor should receive, from the transferor, (either EPA or another contractor) all of the applicable data elements (Attachment 1 of this clause) needed to maintain the required records. If this information is not provided at the time of receipt of the property, the contractor shall request it from the EPA CO. The CO will attempt to obtain the data from the previous property holder, or, if data does not exist, will assist the current property holder in estimating the elements. Prior to signing an acceptance document for the property, the receiving contractor should perform a complete inventory of the property. Responsibility, as well as accountability, passes with the signed acceptance.

When, at the written direction of the EPA CO, the contractor transfers GFP to another contractor, or another Agency, the contractor shall provide the applicable data elements (Attachment 1 of this clause). Upon return of the

property to EPA, the same data must be provided by the contractor to the EPA CO.

5. RECORDS OF GOVERNMENT PROPERTY.

a. In accordance with FAR 45.505 and 45.505-1, the contractor shall establish and maintain adequate property records for all Government property, regardless of value, including property provided to and in the possession of a subcontractor. Material (supplies) provided by the Government or acquired by the contractor and billed as a direct charge to the Government is Government property and records must be established as such.

b. The contractor shall establish and maintain the official Government property record. (If the contract contains the FAR Clause 52.245-1, the Government will maintain the official Government property records.) Such records shall contain the applicable data elements (Attachment 1 of this clause) **for all items of Government property regardless of cost.**

c. The Contractor shall identify all Superfund property and designate it as such both on the item and on the official Government property record. If it is not practicable to tag the item, the contractor shall write the ID number on a tag, card or other entity that may be kept with the item or in a file.

d. Support documentation used for posting entries to the property record shall provide complete, current and auditable data. Entries shall be posted to the record in a timely manner following an action.

e. For Government vehicles, in addition to the data elements required by EPA, the contractor shall also comply with the General Services Administration (GSA) and Department of Energy (DOE) record and report requirements supplied with all EPA provided motor vehicles. If the above requirements were not provided with the vehicle, the contractor shall notify the EPA CO.

f. When Government property is disclosed to be in the possession or control of the contractor but not provided under any contract, the contractor shall record and report the property in accordance with FAR 45.502(f) and (h).

6. INVENTORIES OF GOVERNMENT PROPERTY. The contractor shall conduct a complete physical inventory of EPA property at least once per year, unless otherwise directed by the PA. Reconciliation shall be completed within 30 calendar days of inventory completion. The contractor shall report the results of the inventory, including any discrepancies, to the DCMC PA upon completion of the reconciliation. The contractor's records shall indicate the completion date of the inventory.

See section 9 herein, Contract Closeout, for information on final inventories.

7. REPORTS OF GOVERNMENT PROPERTY. In accordance with FAR 45.505-14, EPA requires an annual summary report, for each contract, by contract number, of Government property in the contractor's possession as of September 30 each year.

a. For each classification listed in FAR 45.505-14(a), except material, the contractor shall provide the total acquisition cost and total quantity. If there are zero items in a classification, or if there is an ending balance of

zero, the classification must be listed with zeros in the quantity and acquisition cost columns.

b. For material, the contractor shall provide the total acquisition cost only.

c. Property classified as facilities, special tooling, special test equipment, and agency peculiar must be reported on two separate lines. The first line shall include the total acquisition cost and quantity of all items or systems with a unit acquisition cost of \$25,000 or more. The second line shall include the total acquisition cost and quantity of all items with a unit acquisition cost of less than \$25,000.

d. For items comprising a system, which is defined as ``a group of interacting items functioning as a complex whole,' ' the contractor may maintain the record as a system noting all components of the system under the main component or maintain individual records for each item. However, for the annual report of Government property the components must be reported as a **system** with one total dollar amount for the system, if that system total is \$25,000 or more.

e. The reports are to be **received** at EPA and DCMC no later than October 31 of each year.

f. Distribution shall be as follows:

Original to: EPA CO

1 copy: DCMC PA

DRAFT

g. EPA Contractors are required to comply with GSA's and DOE's special reporting requirements for motor vehicles. A statement of these requirements will be provided by the EPA Facility Management and Services Division (FMSD) concurrent with receipt of each vehicle.

h. The contractor shall provide detailed reports on an as-needed basis, as may be requested by the CO or the PA.

8. DISPOSITION OF GOVERNMENT PROPERTY. The disposition process is composed of three distinct phases: identification of excess property, reporting of excess property, and final disposition.

a. Identification of Excess Property. The disposition process begins with the contractor identifying Government property that is excess to its contract. **Effective contractor property control systems provide for disclosing excesses as they occur.** Once inactive Government property has been determined to be excess to the contract to which it is accountable, it must be screened against the contractor's other EPA contracts for further use. If the property may be reutilized, the contractor shall notify the CO in writing. Government property will be transferred to other contracts only when the COs on both the current contract and the receiving contract authorize such a transfer in writing.

b. Reporting Excess Government Property. Excess Government property shall be reported in accordance with FAR Subpart 45.6. Inventory schedules A-E

(SF Forms 1426-1434) provide the format for reporting of excess Government property. Instructions for completing the forms are located at FAR 45.606-5 and samples may be found in FAR 53.301-1426 thru 1434. Inventory schedules shall be forwarded to the DCMC PLCO with a copy to the EPA CO. The cover letter, which accompanies the inventory schedules, must include the EPA CO's name, address and telephone number. Inventory schedules must also contain a notification if the property is Superfund property. If the property is Superfund property, the contractor must also prominently include the following language on the inventory schedule: **"Note to PLCO: Reimbursement to the EPA Superfund is required."** When requested, by the PLCO or the CO, the contractor will provide the fair market value for those items requested.

c. Disposition Instructions.

1. If directed in writing by the EPA CO, the contractor will retain all or part of the excess Government property under the current contract for possible future requirements. The contractor shall request, from the PLCO, withdrawal from the inventory schedule of those items to be retained.

2. If directed in writing by the EPA CO, the contractor shall transfer the property to another EPA contractor. The contractor will transfer the property by shipping it in accordance with the instructions provided by the CO. The contractor shall request, from the PLCO, withdrawal from the inventory schedule of those items to be transferred. Further, the contractor shall notify the CO when the transfer is complete.

3. If directed in writing by the EPA CO, the contractor shall transfer the property to EPA. The contractor shall ship/deliver the property in accordance with the instructions provided by the CO. The contractor will request, from the PLCO, withdrawal from the inventory schedule of those items to be transferred to EPA. Further, the contractor shall notify the CO when the transfer is complete.

4. The contractor will ship the property elsewhere if directed, in writing, by the PLCO.

5. The PLCO will either conduct the sale or instruct the contractor to conduct a sale of surplus property. The contractor will allow prospective bidders access to property offered for sale.

6. Property abandoned by the PLCO on the contractor's site must be disposed of in a manner that does not endanger the health and safety of the public.

7. To effect transfer of accountability, the contractor shall provide the recipient of the property with the applicable data elements set forth in Attachment 1 of this clause. The contractor shall also obtain either a signed receipt from the recipient, or proof of shipment. The contractor shall update the official Government property record to indicate the disposition of the item and to close the record.

9. CONTRACT CLOSEOUT. The contractor shall complete a physical inventory of all Government property at contract completion and the results, including any discrepancies, shall be reported to the DCMC PA. In the case of a terminated contract, the contractor shall comply with the inventory requirements set

forth in the applicable termination clause. The results of the inventory, as well as a detailed inventory listing, must be forwarded to the CO. For terminated contracts, the contractor will conduct and report the inventory results as directed by the CO.

However, in order to expedite the disposal process, contractors may be required to, or may elect to submit to the CO, an inventory schedule for disposal purposes up to six (6) months prior to contract completion. If such an inventory schedule is prepared, the contractor must indicate the earliest date that each item may be disposed.

The contractor shall update all property records to show disposal action. The contractor shall notify the DCMC PA, in writing, when all work has been completed under the contract and all Government property accountable to the contract has been disposed.

DRAFT

Attachment 1

REQUIRED DATA ELEMENTS. Where applicable (all elements are not applicable to material) the contractor is required to maintain, at a minimum, the information related to the following data elements for EPA Government property:

Contractor Identification/Tag Number;
Description;
Manufacturer;
Model;
Serial Number;
Acquisition Date;
Date received;
Acquisition Cost*;
Acquisition Document Number;
Location;
Contract Number;
Account Number (if supplied);
Superfund (Yes/No);
Inventory Performance Date;
Disposition Date.

* Acquisition cost shall include the price of the item plus all taxes, transportation and installation charges allocable to that item.

NOTE: For items comprising a system, which is defined as, "a group of interacting items functioning as a complex whole," the contractor may maintain the record as a system noting all components of the system under the main component or maintain individual records for each item. However, for the Annual Report of Government Property, the components must be reported as a **system** with one total dollar amount for the system, if that system total is \$25,000 or more.

***** END DEVIATED CLAUSE TEXT *****

SECTION H - SPECIAL CONTRACT REQUIREMENTS

H.1 DISPLAY OF EPA OFFICE OF INSPECTOR GENERAL HOTLINE POSTER (EPAAR 1552.203-71) (AUG 2000)

(a) For EPA contracts valued at \$1,000,000 or more including all contract options, the contractor shall prominently display EPA Office of Inspector General Hotline posters in contractor facilities where the work is performed under the contract.

(b) Office of Inspector General hotline posters may be obtained from the EPA Office of Inspector General, ATTN: OIG Hotline (2443), 1200 Pennsylvania Avenue, NW, Washington, DC 20460, or by calling (202) 260-5113.

(c) The Contractor need not comply with paragraph (a) of this clause if it has established a mechanism, such as a hotline, by which employees may report suspected instances of improper conduct, and provided instructions that encourage employees to make such reports.

H.2 PRINTING (EPAAR 1552.208-70) (OCT 2000)

(a) *Definitions.*

"Printing" is the process of composition, plate making, presswork, binding and microform; of the end items produced by such processes and equipment. Printing services include newsletter production and periodicals which are prohibited under EPA contracts.

"Composition" applies to the setting of type by hot-metal casting, photo typesetting, or electronic character generating devices for the purpose of producing camera copy, negatives, a plate or image to be used in the production of printing or microform.

"Camera copy" (or "camera-ready copy") is a final document suitable for printing/duplication.

"Desktop Publishing" is a method of composition using computers with the final output or generation of camera copy done by a color inkjet or color laser printer. This is not considered "printing." However, if the output from desktop publishing is being sent to a typesetting device (i.e., Linotronic) with camera copy being produced in either paper or negative format, these services are considered "printing".

"Microform" is any product produced in a miniaturized image format, for mass or general distribution and as a substitute for conventionally printed material. Microform services are classified as printing services and includes microfiche and microfilm. The contractor may make up to two sets of microform files for archival purposes at the end of the contract period of performance.

"Duplication" means the making of copies on photocopy machines employing electrostatic, thermal, or other processes without using an intermediary such as a negative or plate.

"Requirement" means an individual photocopying task. (There may be multiple requirements under a Work Assignment or Delivery Order. Each requirement would be subject to the photocopying limitation of 5,000 copies of one page or 25,000 copies of multiple pages in the aggregate per requirement).

(b) *Prohibition.*

The contractor shall not engage in, nor subcontract for, any printing in connection with the performance of work under this contract. Duplication of more than 5,000 copies of one page or more than 25,000 copies of multiple pages in the aggregate per requirement constitutes printing. The intent of the limitation is not to allow the duplication of final documents for use by the Agency. In compliance with EPA Order 2200.4a, EPA Publication Review Procedure, the Office of Communications, Education, and Media Relations is responsible for the review of materials generated under a contract published or issued by the Agency under a contract intended for release to the public.

(c) *Affirmative Requirements.*

(1) Unless otherwise directed by the contracting officer, the contractor shall use double-sided copying to produce any progress report, draft report or final report.

(2) Unless otherwise directed by the contracting officer, the contractor shall use recycled paper for reports delivered to the Agency which meet the minimum content standards for paper and paper products as set forth in EPA's Web site for the Comprehensive Procurement Guidelines at: <http://www.epa.gov/cpg/>.

(d) *Permitted Contractor Activities.*

(1) The prohibitions contained in paragraph (b) do not preclude writing, editing, or preparing manuscript copy, or preparing related illustrative material to a final document (camera-ready copy) using desktop publishing.

(2) The contractor may perform a requirement involving the duplication of less than 5,000 copies of only one page or less than 25,000 copies of multiple pages in the aggregate, using one color (black), so long as such pages do not exceed the maximum image size of 10 $\frac{3}{4}$ by 14 $\frac{1}{4}$ inches, or 11 by 17 paper stock. Duplication services below these thresholds are not considered printing. If performance of the contract will require duplication in excess of these limits, contractors must immediately notify the contracting officer in writing. EPA may then seek a waiver from the Joint Committee on Printing, U. S. Congress. The intent of the limitation is to allow ``incidental'' duplication (drafts, proofs) under a contract. The intent of the limitation is not to allow the duplication of copies of final documents for use by the Agency or as distributed as instructed by the Agency.

(3) The contractor may perform a requirement involving the multi-color duplication of no more than 100 pages in the aggregate using color copier technology, so long as such pages do not exceed the maximum image size of 10 $\frac{3}{4}$ by 14 $\frac{1}{4}$ inches, or 11 by 17 paper stock. Duplication services below these thresholds are not considered printing. If performance of the contract will require duplication in excess of these limits, contractors must immediately notify the contracting officer in writing. EPA may then seek a waiver from the Joint Committee on Printing, U. S. Congress.

(4) The contractor may perform the duplication of no more than a total of 100 diskettes or CD-ROM's. Duplication services below these thresholds are not considered printing. If performance of the contract will require duplication in excess of these limits, contractors must immediately notify the contracting officer in writing. EPA may then seek a waiver from the Joint Committee on Printing, U. S. Congress.

(e) *Violations.*

The contractor may not engage in, nor subcontract for, any printing in connection with the performance of work under the contract. The cost of any printing services in violation of this clause will be disallowed, or not accepted by the Government.

(f) *Flowdown Provision.*

The contractor shall include in each subcontract which may involve a requirement for any printing/duplicating/copying a provision substantially the same as this clause.

***** BEGIN CO ADDED CLAUSE TEXT *****

H.3 REVISIONS TO ORGANIZATIONAL CONFLICT OF INTEREST PLAN

If the contractor's OCOI plan is revised during contract performance, the revisions shall be reported to the Contracting Officer within 45 calendar days of the revision effective date.

***** END CO ADDED CLAUSE TEXT *****

**H.4 ORGANIZATIONAL CONFLICTS OF INTEREST (EPAAR 1552.209-71) (MAY 1994)
ALTERNATE I (MAY 1994)**

(a) The Contractor warrants that, to the best of the Contractor's knowledge and belief, there are no relevant facts or circumstances which could give rise to an organizational conflict of interest, as defined in FAR Subpart 9.5, or that the Contractor has disclosed all such relevant information.

(b) Prior to commencement of any work, the Contractor agrees to notify the Contracting Officer immediately that, to the best of its knowledge and belief, no actual or potential conflict of interest exists or to identify to the Contracting Officer any actual or potential conflict of interest the firm may have. In emergency situations, however, work may begin but notification shall be made within five (5) working days.

(c) The Contractor agrees that if an actual or potential organizational conflict of interest is identified during performance, the Contractor will immediately make a full disclosure in writing to the Contracting Officer. This disclosure shall include a description of actions which the Contractor has taken or proposes to take, after consultation with the Contracting Officer, to avoid, mitigate, or neutralize the actual or potential conflict of interest. The Contractor shall continue performance until notified by the Contracting Officer of any contrary action to be taken.

(d) Remedies - The EPA may terminate this contract for convenience, in whole or in part, if it deems such termination necessary to avoid an organizational conflict of interest. If the Contractor was aware of a potential organizational conflict of interest prior to award or discovered an actual or potential conflict after award and did not disclose it or misrepresented relevant information to the Contracting Officer, the Government may terminate the contract for default, debar the Contractor from Government contracting, or pursue such other remedies as may be permitted by law or this contract.

(e) The Contractor agrees to insert in each subcontract or consultant agreement placed hereunder provisions which shall conform substantially to the

language of this clause, including this paragraph, unless otherwise authorized by the Contracting Officer.

***** BEGIN EXCLUDED CLAUSE TEXT INCLUDED *****

H.5 NOTIFICATION OF CONFLICTS OF INTEREST REGARDING PERSONNEL (EPAAR 1552.209-73) (MAY 1994)

(a) In addition to the requirements of the contract clause entitled "Organizational Conflicts of Interest," the following provisions with regard to employee personnel performing under this contract shall apply until the earlier of the following two dates: the termination date of the affected employee(s) or the expiration date of the contract.

(b) The Contractor agrees to notify immediately the EPA Project Officer and the Contracting Officer of (1) any actual or potential personal conflict of interest with regard to any of its employees working on or having access to information regarding this contract, or (2) any such conflicts concerning subcontractor employees or consultants working on or having access to information regarding this contract, when such conflicts have been reported to the Contractor. A personal conflict of interest is defined as a relationship of an employee, subcontractor employee, or consultant with an entity that may impair the objectivity of the employee, subcontractor employee, or consultant in performing the contract work.

(c) The Contractor agrees to notify each Project Officer and Contracting Officer prior to incurring costs for that employee's work when an employee may have a personal conflict of interest. In the event that the personal conflict of interest does not become known until after performance on the contract begins, the Contractor shall immediately notify the Contracting Officer of the personal conflict of interest. The Contractor shall continue performance of this contract until notified by the Contracting Officer of the appropriate action to be taken.

(d) The Contractor agrees to insert in any subcontract or consultant agreement placed hereunder, except for subcontracts or consultant agreements for well drilling, fence erecting, plumbing, utility hookups, security guard services, or electrical services, provisions which shall conform substantially to the language of this clause, including this paragraph (d), unless otherwise authorized by the Contracting Officer.

***** END EXCLUDED CLAUSE TEXT INCLUDED *****

***** BEGIN CUSTOMIZED CLAUSE TEXT *****

H.6 LIMITATION OF FUTURE CONTRACTING (HEADQUARTERS SUPPORT) (EPAAR 1552.209-74) (MAR 1997) ALTERNATE V (MAY 1994)

(a) The parties to this contract agree that the Contractor will be restricted in its future contracting in the manner described below. Except as specifically provided in this clause, the Contractor shall be free to compete for contracts on an equal basis with other companies.

(b) If the Contractor, under the terms of this contract, or through the performance of work pursuant to this contract, is required to develop specifications or statements of work and such specifications or statements of work are incorporated into an EPA solicitation, the Contractor shall be

ineligible to perform the work described in that solicitation as a prime Contractor or subcontractor under an ensuing EPA contract.

(c) During the life of this contract, a contractor shall not enter into a contract with any other party to perform work which is related to, or which is specifically controlled by municipal an/or industrial waste regulation, standards, or industry requirements for which the contractor provides regulatory support under the terms of this contract. In particular the contractor shall not enter into a contract with parties which:

(1) generate, transport, store, recycle, and/or dispose of hazardous and non-hazardous waste through manufacturing and or industrial operations;

(2) have business interest in the operations listed above, through significant or controlling investment, or ownership; or

(3) are themselves owned by a firm which performs one or more of the type of work listed above.

Note: Disposal includes landfill, incineration, chemical detoxification, and recycling.

Nor shall they perform RCRA Enforcement, Permitting and Assistance (REPA) work.

(d) The Contractor agree in advance that if any bids/proposals are submitted for any work that would require written approval of the Contracting Officer prior to entering into a contract subject to the restrictions of this clause, then the bid/proposals are submitted at the Contractor's own risk. Therefore, no claim shall be made against the Government to recover bid/proposal costs as a direct cost whether the request for authorization to enter into the contract is denied or approved.

(e) To the extent that the work under this contract requires access to proprietary or confidential business or financial data of other companies, and as long as such data remains proprietary or confidential, the Contractor shall protect such data from unauthorized use and disclosure.

(f) The Contractor agrees to insert in each subcontract or consultant agreement placed hereunder, except for subcontracts or consultant agreements for nondiscretionary technical or engineering services, including treatability studies, well drilling, fence erecting, plumbing, utility hookups, security guard services, or electrical services, provisions which shall conform substantially to the language of this clause, including this paragraph (f), unless otherwise authorized by the Contracting Officer. The Contractor may request in writing that the Contracting Officer exempt from this clause a particular subcontract or consultant agreement for nondiscretionary technical or engineering services not specifically listed above, including laboratory analysis. The Contracting Officer will review and evaluate each request on a case-by-case basis before approving or disapproving the request.

(g) If the Contractor seeks an expedited decision regarding its initial future contracting request, the Contractor may submit its request to both the Contracting Officer and the next administrative level within the Contracting Officer's organization.

(h) A review process available to the Contractor when an adverse determination is received shall consist of a request for reconsideration to the Contracting Officer or a request for review submitted to the next administrative level within the Contracting Officer's organization. An adverse determination resulting from a request for reconsideration by the Contracting Officer will not preclude the Contractor from requesting a review by the next administrative level. Either a request for review or a request for reconsideration must be submitted to the appropriate level within 30 calendar days after receipt of the initial adverse determination.

***** END CUSTOMIZED CLAUSE TEXT *****

H.7 CONTRACTOR PERFORMANCE EVALUATIONS (EPAAR 1552.209-76) (MAY 1999)

The contracting officer shall complete a Contractor Performance Report (Report) within ninety (90) business days after the end of each 12 months of contract performance (interim Report) or after the last 12 months (or less) of contract performance (final Report) in accordance with EPAAR 09.170-5. The contractor shall be evaluated based on the following ratings and performance categories:

Ratings: 0 = unsatisfactory,
1 = poor,
2 = fair,
3 = good,
4 = excellent,
5 = outstanding.

Performance Categories:

Quality: Compliance with contract requirements; accuracy of reports; effectiveness of personnel; and technical excellence.

Rating

- 0--Contractor is not in compliance and is jeopardizing achievement of contract objectives
- 1--Major problems have been encountered
- 2--Some problems have been encountered
- 3--Minor inefficiencies/errors have been identified
- 4--Contractor is in compliance with contract requirements and/or delivers quality products/services
- 5--The contractor has demonstrated an outstanding performance level that justifies adding a point to the score. It is expected that this rating will be used in those circumstances when contractor performance clearly exceeds the performance level described as "Excellent."

Cost Control: Record of forecasting and controlling target costs; current, accurate and complete billings; relationship of negotiated costs to actuals; cost efficiencies.

Rating

- 0--Contractor is unable to manage costs effectively
- 1--Contractor is having major difficulty managing costs effectively
- 2--Contractor is having some problems managing costs effectively
- 3--Contractor is usually effective in managing costs
- 4--Contractor is effective in managing costs and submits current, accurate, and complete billings
- 5--The contractor has demonstrated an outstanding performance level that justifies adding a point to the score. It is expected that this rating will be used in those circumstances when contractor performance clearly exceeds the performance level described as "Excellent."

Timeliness of Performance: Met interim milestones; reliability; responsive to technical direction; completed on time, including wrap-up and contract administration; met delivery schedules; no liquidated damages assessed.

Rating

- 0--Contractor delays are jeopardizing performance or contract objectives
- 1--Contractor is having major difficulty meeting milestones and delivery schedule
- 2--Contractor is having some problems meeting milestones and delivery schedule
- 3--Contractor is usually effective in meeting milestones and delivery schedule
- 4--Contractor is effective in meeting milestones and delivery schedule
- 5--The contractor has demonstrated an outstanding performance level that justifies adding a point to the score. It is expected that this rating will be used in those circumstances when contractor performance clearly exceeds the performance level described as "Excellent."

Business Relations: Effective management, including subcontracts; reasonable/cooperative behavior; responsive to contract requirements; notification of problems; flexibility; pro-active versus reactive; effective small/small disadvantage business subcontracting program.

Rating

- 0--Response to inquiries, technical/service/administrative issues is not effective
- 1--Response to inquiries, technical/service/administrative issues is marginally effective
- 2--Response to inquiries, technical/service/administrative issues is somewhat effective
- 3--Response to inquiries, technical/service/administrative issues is usually effective
- 4--Response to inquiries, technical/service/administrative issues is effective

5--The contractor has demonstrated an outstanding performance level that justifies adding a point to the score. It is expected that this rating will be used in those circumstances when contractor performance clearly exceeds the performance level described as "Excellent."

(a) The contracting officer shall initiate the process for completing interim Reports within five (5) business days after the end of each 12 months of contract performance by requesting the project officer to evaluate contractor performance for the interim Report. In addition, the contracting officer shall initiate the process for completing final Reports within five (5) business days after the last 12 months (or less) of contract performance by requesting the project officer to evaluate contractor performance for the final Report. The final Report shall cover the last 12 months (or less) of contract performance. Within thirty (30) business days after the project officer receives a request from the contracting officer to complete an evaluation, the project officer shall:

(1) Complete a description of the contract requirements;

(2) Evaluate contractor performance and assign a rating for quality, cost control, and timeliness of performance categories (including a narrative for each rating);

(3) Provide any information regarding subcontract, key personnel, and customer satisfaction;

(4) Assign a recommended rating for the business relations performance category (including a narrative for the rating); and

(5) Provide additional information appropriate for the evaluation or future evaluations.

(b) The contracting officer shall:

(1) Ensure the accuracy of the project officer's evaluation by verifying that the information in the contract file corresponds with the designated project officer's ratings;

(2) Assign a rating for the business relations performance category (including a narrative for the rating);

(3) Concur with or revise the project officer's ratings after consultation with the project officer;

(4) Provide any additional information concerning the quality, cost control, and timeliness of performance categories if deemed appropriate for the evaluation or future evaluations (if any), and provide any information regarding subcontracts, key personnel, and customer satisfaction; and

(5) Forward the Report to the contractor within ten (10) business days after the contracting officer receives the project officer's evaluation.

(c) The contractor shall be granted thirty (30) business days from the date of the contractor's receipt of the Report to review and provide a response to

the contracting officer regarding the contents of the Report. The contractor shall:

- (1) Review the Report;
- (2) Provide a response (if any) to the contracting officer on company letter head or electronically;
- (3) Complete contractor representation information; and
- (4) Forward the Report to the contracting officer within the designated thirty (30) business days.

(d) The contractor's response to the Report may include written comments, rebuttals (disagreements), or additional information. If the contractor does not respond to the Report within the designated thirty (30) business days, the specified ratings in the Report are deemed appropriate for the evaluation period. In this instance, the contracting officer shall complete the Agency review and sign the Report within three (3) business days after expiration of the specified 30 business days.

(e) If the contractor submits comments, rebuttals (disagreements), or additional information to the contracting officer which contests the ratings, the contracting officer, in consultation with the project officer, shall initially try to resolve the disagreement(s) with the contractor.

(f) If the disagreement(s) is (are) not resolved between the contractor and the contracting officer, the contracting officer shall provide a written recommendation to one level above the contracting officer for resolution as promptly as possible, but no later than five (5) business days after the contracting officer is made aware that the disagreement(s) has (have) not been resolved with the contractor. The individual who is one level above the contracting officer shall:

- (1) Review the contracting officer's written recommendation; and
- (2) Provide a written determination to the contracting officer for summary ratings (ultimate conclusion for ratings pertaining to the performance period being evaluated) within five (5) business days after the individual one level above the contracting officer receives the contracting officer's written recommendation.

(g) If the disagreement is resolved, the contracting officer shall complete the Agency review and sign the Report within three (3) business days after consultation.

(h) The contracting officer shall complete the Agency review and sign the Report within three (3) business days after the contracting officer receives a written determination for summary ratings from one level above the contracting officer.

(i) An interim or final Report is considered completed after the contracting officer signs the Report. The contracting officer must provide a copy of completed Reports (interim and final) to the contractor within two (2) business days after completion.

***** BEGIN EXCLUDED/DEVIATED CLAUSE TEXT *****

H.8 OPTION TO EXTEND THE TERM OF THE CONTRACT--COST-TYPE CONTRACT (EPAAR 1552.217-71) (APR 1984) DEVIATION

The Government has the option to extend the term of this contract for 4 additional period(s). If more than 60 days remain in the contract period of performance, the Government, without prior written notification, may exercise this option by issuing a contract modification. To exercise this option within the last 60 days of the period of performance, the Government must provide to the Contractor written notification prior to that last 60-day period. This preliminary notification does not commit the Government to exercising the option. Use of an option will result in the following contract modifications:

(a) The "Period of Performance" clause will be amended as follows to cover the Base and Option Periods:

Period	Start Date	End Date
Option Period I	03/01/04	02/28/05
Option Period II	03/01/05	02/28/06
Option Period III	03/01/06	02/28/07
Option Period IV	03/01/07	02/29/08

(b) Paragraph (a) of the "Level of Effort" clause will be amended to reflect a new and separate level of effort of:

Period	Level of Effort (Direct Labor hours)
Option Period I	12,500
Option Period II	12,500
Option Period III	12,500
Option Period IV	12,500

(c) The "Estimated Cost and Fixed Fee" clause will be amended to reflect increased estimated costs and fixed fees for each option period as follows:

Option Period	Estimated Cost	Fixed Fee	Total
I	-----	-----	-----
II	-----	-----	-----
III	-----	-----	-----
IV	-----	-----	-----

(d) If this contract contains "not to exceed amounts" for elements of other direct costs (ODC), those amounts will be increased as follows:

**H.9 OPTION FOR INCREASED QUANTITY--COST-TYPE CONTRACT (EPAAR 1552.217-73)
(JUN 1997) DEVIATION**

(a) By issuing a contract modification, the Government may increase the estimated level of effort by:

<u>Period</u>	<u>Level of Effort (Direct Labor Hours)</u>
Base Period	25,000
Option Period I	25,000
Option Period II	25,000
Option Period III	25,000
Option Period IV	25,000

The Government may issue a maximum of TEN (10) orders to increase the level of effort in multiples of TWO THOUSAND FIVE HUNDRED (2500) hours during any given period.

DRAFT

The estimated cost and fixed fee of each multiple of hours is as follows:

<u>Period</u>	<u>Estimated Cost</u>	<u>Fixed Fee</u>	<u>Total</u>
Base Period	_____	_____	_____
Option Period I	_____	_____	_____
Option Period II	_____	_____	_____
Option Period III	_____	_____	_____
Option Period IV	_____	_____	_____

(c) If this contract contains "not to exceed amounts" for elements of other direct costs (ODCs), those amounts will be increased as follows:

H.10 SMALL DISADVANTAGED BUSINESS TARGETS (EPAAR 1552.219-73) (OCT 2000)

(a) In accordance with FAR 19.1202-4(a) and EPAAR 52.219-72, the following small disadvantaged business (SDB) participation targets proposed by the contractor are hereby incorporated into and made part of the contract:

Contractor Targets	NAICS Major Group	Dollars	Percentage of Total Contract Value
Total Prime Contractor Targets (Including joint venture partners)			
Total Subcontractor Targets			

(b) The following specifically identified SDB(s) was (were) considered under the Section M-SDB participation evaluation factor or subfactor (continue on separate sheet if more space is needed):

(1) _____
(2) _____
(3) _____
(4) _____
(5) _____

DRAFT

The contractor shall promptly notify the contracting officer of any substitution of firms if the new firms are not SDB concerns.

(c) In accordance with FAR 52.219-25, Small Disadvantaged Business Participation Program - Disadvantaged Status and Reporting, the contractor shall report on the participation of SDB concerns in the performance of the contract no less than thirty (30) calendar days prior to each annual contractor performance evaluation [contracting officer may insert the dates for each performance evaluation (i.e., every 12 months after the effective date of contract)] or as otherwise directed by the contracting officer.

H.11 UTILIZATION OF RURAL AREA SMALL BUSINESS CONCERNS (EP 52.219-110) (APR 1990)

(a) (1) "Rural area small business concern," as used in this clause, means a small business concern that is located and conducts its principal operations in a rural geographic area (county or parish) listed in the Small Business Administration's Listing of Non-Metropolitan Rural Counties by State.

(2) "Small business concern," as used in this clause, means a concern, including its affiliates, that is independently owned and operated, not dominant in the field of operation in which it is bidding on government contracts, and qualified as a small business under the criteria and size standard in 13 CFR 121.

(b) It is the policy of the Environmental Protection Agency (EPA) that rural area small business concerns shall have the maximum practicable opportunity to participate in performing contracts awarded by EPA.

(c) The contractor shall use its best efforts to give rural area small business concerns the opportunity to participate in the subcontracts it awards to the fullest extent consistent with efficient performance of this contract.

(d) The contractor shall incorporate the substance of this clause in any subcontract that may provide for additional subcontracting opportunities.

H.12 UTILIZATION OF HISTORICALLY BLACK COLLEGES AND UNIVERSITIES (EP 52.219-115) (JUL 1991)

(a) It is the Policy of the Environmental Protection Agency that historically black colleges and universities shall have the maximum practicable opportunity to participate in performing contracts awarded by the Agency.

(b) The Contractor shall use its best efforts to give historically black colleges and universities the opportunity to participate in any subcontracts awarded to the fullest extent consistent with efficient performance of this contract.

(c) The contractor shall incorporate the substance of this clause in any subcontract which may provide for additional subcontracting opportunities.

***** BEGIN EXCLUDED CLAUSE TEXT INCLUDED *****
H.13 PROJECT EMPLOYEE CONFIDENTIALITY AGREEMENT (EPAAR 1552.227-76) (MAY 1994)

(a) The Contractor recognizes that Contractor employees in performing this contract may have access to data, either provided by the Government or first generated during contract performance, of a sensitive nature which should not be released to the public without Environmental Protection Agency (EPA) approval. Therefore, the Contractor agrees to obtain confidentiality agreements from all of its employees working on requirements under this contract.

(b) Such agreements shall contain provisions which stipulate that each employee agrees that the employee will not disclose, either in whole or in part, to any entity external to EPA, the Department of Justice, or the Contractor, any information or data (as defined in FAR Section 27.401) provided by the Government or first generated by the Contractor under this contract, any site-specific cost information, or any enforcement strategy without first obtaining the written permission of the EPA Contracting Officer. If a contractor, through an employee or otherwise, is subpoenaed to testify or produce documents, which could result in such disclosure, the Contractor must provide immediate advance notification to the EPA so that the EPA can authorize such disclosure or have the opportunity to take action to prevent such disclosure. Such agreements shall be effective for the life of the contract and for a period of five (5) years after completion of the contract.

(c) The EPA may terminate this contract for convenience, in whole or in part, if it deems such termination necessary to prevent the unauthorized disclosure of information to outside entities. If such a disclosure occurs

without the written permission of the EPA Contracting Officer, the Government may terminate the contract, for default or convenience, or pursue other remedies as may be permitted by law or this contract.

(d) The Contractor further agrees to insert in any subcontract or consultant agreement placed hereunder, except for subcontracts or consultant agreements for well drilling, fence erecting, plumbing, utility hookups, security guard services, or electrical services, provisions which shall conform substantially to the language of this clause, including this paragraph, unless otherwise authorized by the Contracting Officer.

***** END EXCLUDED CLAUSE TEXT INCLUDED *****

H.14 INSURANCE LIABILITY TO THIRD PERSONS (EPAAR 1552.228-70) (OCT 2000)

(a)(1) Except as provided in subparagraph (2) below, the Contractor shall provide and maintain workers' compensation, employer's liability, comprehensive general liability (bodily injury), and comprehensive automobile liability (bodily injury and property damage) insurance, and such other insurance as the Contracting officer may require under this contract.

(2) The Contractor may, with the approval of the Contracting officer, maintain a self-insurance program; provided that, with respect to workers' compensation, the Contractor is qualified pursuant to statutory authority.

(3) All insurance required by this paragraph shall be in a form and amount and for those periods as the Contracting officer may require or approve and with insurers approved by the Contracting officer.

(b) The Contractor agrees to submit for the Contracting officer's approval, to the extent and in the manner required by the Contracting officer, any other insurance that is maintained by the Contractor in connection with the performance of this contract and for which the Contractor seeks reimbursement.

(c) The Contractor shall be reimbursed for that portion of the reasonable cost of insurance allocable to this contract, and required or approved under this clause, in accordance with its established cost accounting practices.

H.15 STATE AND LOCAL TAXES (EPAAR 1552.229-70) (NOV 1989)

In accordance with FAR 29.303 and FAR 31.205-41, the Contractor or any subcontractor under this contract shall not be reimbursed for payment of any State and local taxes for which an exemption is available. The Contractor is responsible for determining the availability of State and local tax exemptions and obtaining such exemptions, if available. The Contractor shall include this clause, suitably modified to identify the parties, in all subcontracts at any tier. The Contractor shall notify the Contracting Officer if problems arise in obtaining a State and local tax exemption. The contractor may seek a waiver by the Contracting Officer from this requirement if the administrative burden of seeking an exemption appears to outweigh the potential savings to the Government.

H.16 SCREENING BUSINESS INFORMATION FOR CLAIMS OF CONFIDENTIALITY (EPAAR 1552.235-70) (APR 1984)

(a) Whenever collecting information under this contract, the Contractor agrees to comply with the following requirements:

(1) If the Contractor collects information from public sources, such as books, reports, journals, periodicals, public records, or other sources that are available to the public without restriction, the Contractor shall submit a list of these sources to the appropriate program office at the time the information is initially submitted to EPA. The Contractor shall identify the information according to source.

(2) If the Contractor collects information from a State or local Government or from a Federal agency, the Contractor shall submit a list of these sources to the appropriate program office at the time the information is initially submitted to EPA. The Contractor shall identify the information according to source.

(3) If the Contractor collects information directly from a business or from a source that represents a business or businesses, such as a trade association:

(i) Before asking for the information, the Contractor shall identify itself, explain that it is performing contractual work for the Environmental Protection Agency, identify the information that it is seeking to collect, explain what will be done with the information, and give the following notice:

(A) You may, if you desire, assert a business confidentiality claim covering part or all of the information. If you do assert a claim, the information will be disclosed by EPA only to the extent, and by means of the procedures, set forth in 41 CFR Part 2, Subpart B.

(B) If no such claim is made at the time this information is received by the Contractor, it may be made available to the public by the Environmental Protection Agency without further notice to you.

(C) The Contractor shall, in accordance with FAR Part 9, execute a written agreement regarding the limitations of the use of this information and forward a copy of the agreement to the Contracting Officer.

(ii) Upon receiving the information, the Contractor shall make a written notation that the notice set out above was given to the source, by whom, in what form, and on what date.

(iii) At the time the Contractor initially submits the information to the appropriate program office, the Contractor shall submit a list of these sources, identify the information according to source, and indicate whether the source made any confidentiality claim and the nature and extent of the claim.

(b) The Contractor shall keep all information collected from nonpublic sources confidential in accordance with the clause in this contract entitled "Treatment of Confidential Business Information" as if it had been furnished to the Contractor by EPA.

(c) The Contractor agrees to obtain the written consent of the Contracting Officer, after a written determination by the appropriate program office, prior to entering into any subcontract that will require the subcontractor to

collect information. The Contractor agrees to include this clause, including this paragraph (c), and the clause entitled "Treatment of Confidential Business Information" in all subcontracts awarded pursuant to this contract that require the subcontractor to collect information.

H.17 TREATMENT OF CONFIDENTIAL BUSINESS INFORMATION (EPAAR 1552.235-71) (APR 1984)

(a) The Contracting Officer, after a written determination by the appropriate program office, may disclose confidential business information (CBI) to the Contractor necessary to carry out the work required under this contract. The Contractor agrees to use the CBI only under the following conditions:

(1) The Contractor and Contractor's employees shall: (i) use the CBI only for the purposes of carrying out the work required by the contract; (ii) not disclose the information to anyone other than properly cleared EPA employees without the prior written approval of the Assistant General Counsel for Contracts and Information Law; and (iii) return to the Contracting Officer all copies of the information, and any abstracts or excerpts therefrom, upon request by the Contracting Officer, whenever the information is no longer required by the Contractor for the performance of the work required by the contract, or upon completion of the contract.

(2) The Contractor shall obtain a written agreement to honor the above limitations from each of the Contractor's employees who will have access to the information before the employee is allowed access.

(3) The Contractor agrees that these contract conditions concerning the use and disclosure of CBI are included for the benefit of, and shall be enforceable by, both EPA and any affected businesses having a proprietary interest in the information.

(4) The Contractor shall not use any CBI supplied by EPA or obtained during performance hereunder to compete with any business to which the CBI relates.

(b) The Contractor agrees to obtain the written consent of the CO, after a written determination by the appropriate program office, prior to entering into any subcontract that will involve the disclosure of CBI by the Contractor to the subcontractor. The Contractor agrees to include this clause, including this paragraph (b), in all subcontracts awarded pursuant to this contract that require the furnishing of CBI to the subcontractor.

H.18 TREATMENT OF CONFIDENTIAL BUSINESS INFORMATION (TSCA) (EPAAR 1552.235-76) (APR 1996)

(a) The Project Officer (PO) or his/her designee, after a written determination by the appropriate program office, may disclose confidential business information (CBI) to the Contractor necessary to carry out the work required under this contract. The Contractor agrees to use the CBI only under the following conditions:

(1) The Contractor and Contractor's employees shall (i) use the CBI only for the purposes of carrying out the work required by the contract; (ii) not

disclose the information to anyone other than properly cleared EPA employees without the prior written approval of the Assistant General Counsel for Information Law or his/her designee; and (iii) return the CBI to the PO or his/her designee, whenever the information is no longer required by the Contractor for performance of the work required by the contract, or upon completion of this contract.

(2) The Contractor shall obtain a written agreement to honor the above limitations from each of the Contractor's employees who will have access to the information before the employee is allowed access.

(3) The Contractor agrees that these contract conditions concerning the use and disclosure of CBI are included for the benefit of, and shall be enforceable by, both EPA and any affected businesses having a proprietary interest in the information.

(4) The Contractor shall not use any CBI supplied by EPA or obtained during performance hereunder to compete with any business to which the CBI relates.

(b) The Contractor agrees to obtain the written consent of the CO, after a written determination by the appropriate program office, prior to entering into any subcontract that will involve the disclosure of CBI by the Contractor to the subcontractor. The Contractor agrees to include this clause, including this paragraph (b), in all subcontracts awarded pursuant to this contract that require the furnishing of CBI to the subcontractor.

**H.19 DATA SECURITY FOR FEDERAL INSECTICIDE, FUNGICIDE, AND RODENTICIDE ACT
CONFIDENTIAL BUSINESS INFORMATION (EPAAR 1552.235-77) (DEC 1997)**

The Contractor shall handle Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) confidential business information (CBI) in accordance with the contract clause entitled "Treatment of Confidential Business Information" and "Screening Business Information for Claims of Confidentiality," the provisions set forth below, and the Contractor's approved detailed security plan.

(a) The Project Officer (PO) or his/her designee, after a written determination by the appropriate program office, may disclose FIFRA CBI to the contractor necessary to carryout the work required under this contract. The Contractor shall protect all FIFRA CBI to which it has access (including CBI used in its computer operations) in accordance with the following requirements:

(1) The Contractor and Contractor's employees shall follow the security procedures set forth in the FIFRA Information Security Manual. The manual may be obtained from the Project Officer (PO) or the Chief, Information Services Branch (ISB), Program Management and Support Division, Office of Pesticide Programs (OPP) (H7502C), U.S. Environmental Protection Agency, Ariel Rios Building, 1200 Pennsylvania Avenue, N.W., Washington, DC 20460.

(2) The Contractor and Contractor's employees shall follow the security procedures set forth in the Contractor's security plan(s) approved by EPA.

(3) Prior to receipt of FIFRA CBI by the Contractor, the Contractor shall ensure that all employees who will be cleared for access to FIFRA CBI have been briefed on the handling, control, and security requirements set forth in the FIFRA Information Security Manual.

(4) The Contractor Document Control Officer (DCO) shall obtain a signed copy of the FIFRA "Contractor Employee Confidentiality Agreement" from each of the Contractor's employees who will have access to the information before the employee is allowed access.

(b) The Contractor agrees that these requirements concerning protection of FIFRA CBI are included for the benefit of, and shall be enforceable by, both EPA and any affected business having a proprietary interest in the information.

(c) The Contractor understands that CBI obtained by EPA under FIFRA may not be disclosed except as authorized by the Act, and that any unauthorized disclosure by the Contractor or the Contractor's employees may subject the Contractor and the Contractor's employees to the criminal penalties specified in FIFRA (7 U.S.C. 136h(f)). For purposes of this contract, the only disclosures that EPA authorizes the Contractor to make are those set forth in the clause entitled "Treatment of Confidential Business Information."

(d) The Contractor agrees to include the provisions of this clause, including this paragraph (d), in all subcontracts awarded pursuant to this contract that require the furnishing of CBI to the subcontractor.

(e) At the request of EPA or at the end of the contract, the Contractor shall return to the EPA PO or his/her designee all documents, logs, and magnetic media which contain FIFRA CBI. In addition, each Contractor employee who has received FIFRA CBI clearance will sign a "Confidentiality Agreement for Contractor Employees Upon Relinquishing FIFRA CBI Access Authority." The Contractor DCO will also forward those agreements to the EPA PO or his/her designee, with a copy to the CO, at the end of the contract.

(f) If, subsequent to the date of this contract, the Government changes the security requirements, the CO shall equitably adjust affected provisions of this contract, in accordance with the "Changes" clause when:

(1) The Contractor submits a timely written request for an equitable adjustment; and

(2) The facts warrant an equitable adjustment.

H.20 DATA SECURITY FOR TOXIC SUBSTANCES CONTROL ACT CONFIDENTIAL BUSINESS INFORMATION (EPAAR 1552.235-78) (DEC 1997)

The Contractor shall handle Toxic Substances Control Act (TSCA) confidential business information (CBI) in accordance with the contract clause entitled "Treatment of Confidential Business Information" and "Screening Business Information for Claims of Confidentiality."

(a) The Project Officer (PO) or his/her designee, after a written determination by the appropriate program office, may disclose TSCA CBI to the contractor necessary to carry out the work required under this contract. The Contractor shall protect all TSCA CBI to which it has access (including CBI used in its computer operations) in accordance with the following requirements:

(1) The Contractor and Contractor's employees shall follow the security procedures set forth in the TSCA CBI Security Manual. The manual may be obtained from the Director, Information Management Division (IMD), Office of Pollution Prevention and Toxics (OPPT), U.S. Environmental Protection Agency (EPA), Ariel Rios Building, 1200 Pennsylvania Avenue, N.W., Washington, DC 20460. Prior to receipt of TSCA CBI by the Contractor, the Contractor shall ensure that all employees who will be cleared for access to TSCA CBI have been briefed on the handling, control, and security requirements set forth in the TSCA CBI Security Manual.

(2) The Contractor shall permit access to and inspection of the Contractor's facilities in use under this contract by representatives of EPA's Assistant Administrator for Administration and Resources Management, and the TSCA Security Staff in the OPPT, or by the EPA Project Officer.

(3) The Contractor Document Control Officer (DCO) shall obtain a signed copy of EPA Form 7740-6, "TSCA CBI Access Request, Agreement, and Approval," from each of the Contractor's employees who will have access to the information before the employee is allowed access. In addition, the Contractor shall obtain from each employee who will be cleared for TSCA CBI access all information required by EPA or the U.S. Office of Personnel Management for EPA to conduct a Minimum Background Investigation.

DRAFT

(b) The Contractor agrees that these requirements concerning protection of TSCA CBI are included for the benefit of, and shall be enforceable by, both EPA and any affected business having a proprietary interest in the information.

(c) The Contractor understands that CBI obtained by EPA under TSCA may not be disclosed except as authorized by the Act, and that any unauthorized disclosure by the Contractor or the Contractor's employees may subject the Contractor and the Contractor's employees to the criminal penalties specified in TSCA (15 U.S.C. 2613(d)). For purposes of this contract, the only disclosures that EPA authorizes the Contractor to make are those set forth in the clause entitled "Treatment of Confidential Business Information."

(d) The Contractor agrees to include the provisions of this clause, including this paragraph (d), in all subcontracts awarded pursuant to this contract that require the furnishing of CBI to the subcontractor.

(e) At the request of EPA or at the end of the contract, the Contractor shall return to the EPA PO or his/her designee, all documents, logs, and magnetic media which contain TSCA CBI. In addition, each Contractor employee who has received TSCA CBI clearance will sign EPA Form 7740-18, "Confidentiality Agreement for Contractor Employees Upon Relinquishing TSCA CBI Access Authority." The Contractor DCO will also forward those agreements to the EPA OPPT/IMD, with a copy to the CO, at the end of the contract.

(f) If, subsequent to the date of this contract, the Government changes the security requirements, the CO shall equitably adjust affected provisions of this contract, in accordance with the "Changes" clause, when:

(1) The Contractor submits a timely written request for an equitable adjustment; and,

(2) The facts warrant an equitable adjustment.

H.21 RELEASE OF CONTRACTOR CONFIDENTIAL BUSINESS INFORMATION (EPAAR 1552.235-79) (APR 1996)

(a) The Environmental Protection Agency (EPA) may find it necessary to release information submitted by the Contractor either in response to this solicitation or pursuant to the provisions of this contract, to individuals not employed by EPA. Business information that is ordinarily entitled to confidential treatment under existing Agency regulations (40 C.F.R. Part 2) may be included in the information released to these individuals. Accordingly, by submission of this proposal or signature on this contract or other contracts, the Contractor hereby consents to a limited release of its confidential business information (CBI).

(b) Possible circumstances where the Agency may release the Contractor's CBI include, but are not limited to the following:

(1) To other Agency contractors tasked with assisting the Agency in the recovery of Federal funds, pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act, 42 U.S.C. Sec. 9607, as amended, (CERCLA or Superfund);

(2) To the U.S. Department of Justice (DOJ) and contractors employed by DOJ for use in advising the Agency and representing the Agency in procedures for the recovery of Superfund expenditures;

(3) To parties liable, or potentially liable, for costs under CERCLA Sec. 107 (42 U.S.C. Sec. 9607), et al, and their insurers (Potentially Responsible Parties) for purposes of facilitating settlement or litigation of claims against such parties;

(4) To other Agency contractors who, for purposes of performing the work required under the respective contracts, require access to information the Agency obtained under the Clean Air Act (42 U.S.C. 7401 et seq.); the Federal Water Pollution Control Act (33 U.S.C.1251 et seq.); the Safe Drinking Water Act (42 U.S.C. 300f et seq.); the Federal Insecticide, Fungicide and Rodenticide Act (7 U.S.C. 136 et seq.); the Resource Conservation and Recovery Act (42 U.S.C. 6901 et seq.); the Toxic Substances Control Act (15 U.S.C. 2601 et seq.); or the Comprehensive Environmental Response, Compensation, and Liability Act (42 U.S.C. 9601 et seq.);

(5) To other Agency contractors tasked with assisting the Agency in handling and processing information and documents in the administration of Agency contracts, such as providing both preaward and post award audit support and specialized technical support to the Agency's technical evaluation panels;

(6) To employees of grantees working at EPA under the Senior Environmental Employment (SEE) Program;

(7) To Speaker of the House, President of the Senate, or Chairman of a Committee or Subcommittee;

(8) To entities such as the General Accounting Office, boards of contract appeals, and the Courts in the resolution of solicitation or contract protests and disputes;

(9) To Agency contractor employees engaged in information systems analysis, development, operation, and maintenance, including performing data processing and management functions for the Agency; and

(10) Pursuant to a court order or court-supervised agreement.

(c) The Agency recognizes an obligation to protect the contractor from competitive harm that may result from the release of such information to a competitor. (See also the clauses in this document entitled "Screening Business Information for Claims of Confidentiality" and "Treatment of Confidential Business Information.") Except where otherwise provided by law, the Agency will permit the release of CBI under subparagraphs (1), (3), (4), (5), (6), or (9) only pursuant to a confidentiality agreement.

(d) With respect to contractors, 1552.235-71 will be used as the confidentiality agreement. With respect to Potentially Responsible Parties, such confidentiality agreements may permit further disclosure to other entities where necessary to further settlement or litigation of claims under CERCLA. Such entities include, but are not limited to accounting firms and technical experts able to analyze the information, provided that they also agree to be bound by an appropriate confidentiality agreement.

(e) This clause does not authorize the Agency to release the Contractor's CBI to the public pursuant to a request filed under the Freedom of Information Act.

(f) The Contractor agrees to include this clause, including this paragraph (f), in all subcontracts at all levels awarded pursuant to this contract that require the furnishing of confidential business information by the subcontractor.

H.22 ACCESS TO CONFIDENTIAL BUSINESS INFORMATION (EPAAR 1552.235-80) (OCT 2000)

It is not anticipated that it will be necessary for the contractor to have access to confidential business information (CBI) during the performance of tasks required under this contract. However, the following applies to any and all tasks under which the contractor will or may have access to CBI:

The contractor shall not have access to CBI submitted to EPA under any authority until the contractor obtains from the Project Officer a certification that the EPA has followed all necessary procedures under 40 CFR part 2, subpart B (and any other applicable procedures), including providing,

where necessary, prior notice to the submitters of disclosure to the contractor.

H.23 CONTRACT PUBLICATION REVIEW PROCEDURES (EPAAR 1552.237-70) (APR 1984)

(a) Material generated under this contract intended for release to the public is subject to the Agency's publication review process in accordance with the EPA Order on this subject and the following.

(b) Except as indicated in paragraph (c) below, the Contractor shall not independently publish or print material generated under this contract until after completion of the EPA review process. The Project Officer will notify the Contractor of review completion within THIRTY (30) calendar days after the Contractor's transmittal to the Project Officer of material generated under this contract. If the Contractor does not receive Project Officer notification within this period, the Contractor shall immediately notify the Contracting Officer in writing.

(c) The Contractor may publish in a scientific journal, material resulting directly or indirectly from work performed under this contract, subject to the following:

(1) The Contractor shall submit to the Contracting Officer and the Project Officer, at least 30 days prior to publication, a copy of any paper, article, or other dissemination of information intended for publication.

(2) The Contractor shall include the following statement in a journal article which has not been subjected to EPA review: "Although the research described in this article has been funded wholly or in part by the United States Environmental Protection Agency contract (number) to (Name of Contractor), it has not been subject to the Agency's review and therefore does not necessarily reflect the views of the Agency, and no official endorsement should be inferred."

(3) Following publication of the journal article, the Contractor shall submit five copies of the journal article to the Project Officer, and one copy to the Contracting Officer.

(d) If the Government has completed the review process and agreed that the contract material may be attributed to EPA, the Contractor shall include the following statement in the document:

This material has been funded wholly or in part by the United States Environmental Protection Agency under contract (number) to (name). It has been subject to the Agency's review, and it has been approved for publication

as an EPA document. Mention of trade names or commercial products does not constitute endorsement or recommendation for use.

(e) If the Government has completed the review process, but decides not to publish the material, the Contractor may independently publish and distribute the material for its own use and at its own expense, and shall include the following statement in any independent publication:

Although the information described in this article has been funded wholly or in part by the United States Environmental Protection Agency under contract (number) to (name), it does not necessarily reflect the views of the Agency and no official endorsement should be inferred.

H.24 TECHNICAL DIRECTION (EPAAR 1552.237-71) (APR 1984) DEVIATION

(a) The Project Officer is the primary representative of the Contracting Officer authorized to provide technical direction on contract performance.

(b) Individuals other than the Project Officer may be authorized to provide technical direction. If individuals other than the Project Officer are authorized to provide technical direction, their names will be specified in the contract, delivery order, work assignment or technical direction document as appropriate. A Delivery Order Project Officer, Work Assignment Manager or Task Manager is authorized to provide technical direction, subject to the limitations set forth below, only on his/her delivery order, work assignment or technical direction document.

(c) Technical direction includes:

(1) Direction to the contractor which assists the contractor in accomplishing the Statement of Work.

(2) Comments on and approval of reports or other deliverables.

(d) Technical direction must be within the contract and the delivery order, work assignment or technical direction document statement of work. The Project Officer or any other technical representative of the Contracting Officer does not have the authority to issue technical direction which (1) institutes additional work outside the scope of the contract, delivery order, work assignment or technical direction document; (2) constitutes a change as defined in the "Changes" clause; (3) causes an increase or decrease in the estimated cost of the contract, delivery order, work assignment or technical direction document; (4) alters the period of performance; or (5) changes any of the other express terms or conditions of the contract, delivery order, work assignment or technical direction document.

(e) Technical direction will be issued in writing or confirmed in writing within five (5) calendar days after verbal issuance. One copy of the technical direction memorandum will be forwarded to the Contracting Officer and the Project Officer.

H.25 KEY PERSONNEL (EPAAR 1552.237-72) (APR 1984)

(a) The Contractor shall assign to this contract the following key personnel:

Program Manager

(b) During the first ninety (90) calendar days of performance, the Contractor shall make no substitutions of key personnel unless the substitution is necessitated by illness, death, or termination of employment. The Contractor shall notify the Contracting Officer within 15 calendar days after the occurrence of any of these events and provide the information required by paragraph (c) below. After the initial ninety (90) calendar day period, the Contractor shall submit the information required by paragraph (c) to the Contracting Officer at least 15 calendar days prior to making any permanent substitutions.

(c) The Contractor shall provide a detailed explanation of the circumstances necessitating the proposed substitutions, complete resumes for the proposed substitutes, and any additional information requested by the Contracting Officer. Proposed substitutes should have comparable qualifications to those of the persons being replaced. The Contracting Officer will notify the Contractor within 15 calendar days after receipt of all required information of the decision on substitutions. This clause will be modified to reflect any approved changes of key personnel.

H.26 EPA SPONSORED MEETINGS, WORKSHOPS, AND CONFERENCES

If this contract requires contractor support for any EPA-sponsored meetings, workshops, conferences, etc., the following shall apply:

EPA meetings shall be held in Federal facilities whenever available. EPA is required to notify GSA when the Agency has a short term need for meeting facilities and such facilities are not available within the Agency. The EPA Project Officer or Work Assignment Manager will determine and advise the contractor when Federal facilities are not available.

Except for contractors, experts, consultants, or subcontractors or other personnel necessary for performance of the work called for by this contract, the cost of travel, food, lodging, etc., for other participants or attendees shall not be an allowable cost under this contract. All such required personnel for which cost are being claimed must be approved by the Project Officer.

The cost of beverages, food, refreshments, etc., consumed by participants or attendees at the workshop, meetings, or conferences shall not be an allowable charge under this contract (i.e., refreshments versus per diem or subsistence costs).

Any registration fees must be approved by the Contracting Officer. If approved, fees collected must be accounted for and turned over the EPA Finance Office. They may not be used to offset any of the cost for performing the contract

H.27 PUBLIC COMMUNICATION OR IDENTIFICATION OF CONTRACTOR EMPLOYEES

All contractor, subcontractor, and consultant personnel shall wear prominently displayed identification badges at all times when performing tasks under this contract and when interacting with EPA officials, federal agencies, state, tribal and local governments, business, industry and the general public. The badge shall contain the individual's name and the company's name and logo. The office space occupied by contractor staff in any location that is also occupied by EPA employees shall be identified with appropriate signs that include the contractor's name. When participating in any event and/or discussion (e.g. answering the telephone, participating as a panel member or speaker), contractor staff shall verbally identify themselves as contractor personnel so that there is no possible appearance as EPA Officials.

In addition, in situations where the contractor is asked to provide support in policy or regulation development, the contractor shall not respond with personal opinions of the contractor as a corporate entity. The Contractor is precluded from participating in the final phases of policy development, i.e., being involved in the actual decision-making of Agency policy. Contractor staff shall be especially alert to insure that opinions concerning EPA policy and policy interpretations of regulations are not a part of any response to persons seeking assistance. Questions in this regard shall be addressed to the EPA Project Officer. In all cases, there will be a clear record that the contractor's work was reviewed and that final decisions were made by Agency personnel.

H.28 SPECIAL REPORTING REQUIREMENTS: REGULATORY ASSISTANCE

As concerns any work assignment which requires the contractor to provide services that involve or relate to the development of regulations, the contractor shall:

- a) submit reports that contain recommendations and explain and rank policy action alternatives, if any;
- b) describe what procedures were used to arrive at or which support the contractor's recommendations;
- c) summarize the substance of their deliberations;
- d) report any dissenting views;
- e) list sources relied upon; and
- f) otherwise make clear the methods and consideration upon which the contractor's recommendations are based.

The Contracting Officer will specify whether this clause is applicable to the work encompassed by any particular work assignment.

H.29 PEER REVIEWS

The Contractor shall conduct peer reviews of scientific, technical, and economic documents prepared by Agency personnel, other contractors, and other organizations. The Contractor shall submit its list of potential qualified peer reviewers to the WAM for approval before the peer reviewers are selected.

The Contractor shall exercise sole discretion in selecting the panel experts.

Panel members' services shall be paid through contractor funds either by using in-house experts or by entering into appropriate subcontracting arrangements. In addition, the contractor shall appoint the officials that will exercise control over the panel. The Contractor shall organize and summarize the comments submitted by its peer review panel(s). The Contractor shall not perform peer review of any documents for which the Contractor or its subcontractors were involved in the preparation.

H.30 PAPERWORK REDUCTION ACT (EPAAR 1552.237-75) (APR 1984)

If it is established at award or subsequently becomes a contractual requirement to collect identical information from ten (10) or more public respondents, the Paperwork Reduction Act of 1980, 44 U.S.C. 3501 et seq. applies. In that event, the Contractor shall not take any action to solicit information from any of the public respondents until notified in writing by the Contracting Officer that the required Office of Management and Budget (OMB) final clearance has been received.

DRAFT

H.31 FABRICATION OR ACQUISITION OF NONEXPENDABLE PROPERTY (EPAAR 1552.245-72) (APR 1984)

The Contractor shall not fabricate nor acquire under this contract, either directly or indirectly through a subcontract, any item of nonexpendable property without written approval from the Contracting Officer.

I.2 PRINTING/COPYING DOUBLE-SIDED ON RECYCLED PAPER (FAR 52.204-4) (JUN 1996) DEVIATION

(a) In accordance with Executive Order 12873, dated October 20, 1993, as amended by Executive Order 12995, dated March 25, 1996, the Offeror/Contractor is required to submit paper documents, such as offers, letters, or reports, that are printed/copied double-sided on recycled paper that has at least 20% postconsumer material.

(b) The 20% standard applies to high-speed copier paper, offset paper, forms bond, computer printout paper, carbonless paper, file folders, white woven envelopes, and other uncoated printed and writing paper, such as writing and office paper, book paper, cotton fiber paper, and paper stock. An alternative standard to meeting the 20% postconsumer material standard is 10% recovered material content of certain industrial by-products.

***** BE IN OLD VERSION/EXCLUDED/DEVIATED CLAUSE FROM *****

I.3 NOTICE OF PRICE EVALUATION ADJUSTMENT FOR SMALL DISADVANTAGED BUSINESS CONCERNS (FAR 52.219-23) (OCT 1998) ALTERNATE II (OCT 1998) DEVIATION

(a) *Definitions.* As used in this clause--

"Small disadvantaged business concern" means an offeror that represents, as part of its offer, that it is a small business under the size standard applicable to this acquisition; and either--

(1) It has received certification by the Small Business Administration as a small disadvantaged business concern consistent with 13 CFR 124, Subpart B; and

(i) No material change in disadvantaged ownership and control has occurred since its certification;

(ii) Where the concern is owned by one or more disadvantaged individuals, the net worth of each individual upon whom the certification is based does not exceed \$750,000 after taking into account the applicable exclusions set forth at 13 CFR 124.104(c)(2); and

(iii) It is identified, on the date of its representation, as a certified small disadvantaged business concern in the database maintained by the Small Business Administration (PRO-Net).

(2) It has submitted a completed application to the Small Business Administration or a Private Certifier to be certified as a small disadvantaged business concern in accordance with 13 CFR 124, Subpart B, and a decision on that application is pending, and that no material change in disadvantaged ownership and control has occurred since its application was submitted. In this case, in order to receive the benefit of a price evaluation adjustment, an offeror must receive certification as a small disadvantaged business concern by the Small Business Administration prior to contract award; or

(3) Is a joint venture as defined in 13 CFR 124.1002(f).

"Historically black college or university" means an institution determined by the Secretary of Education to meet the requirements of 34 CFR 608.2. For the Department of Defense (DOD), the National Aeronautics and Space Administration (NASA), and the Coast Guard, the term also includes any nonprofit research institution that was an integral part of such a college or university before November 14, 1986.

"Minority institution" means an institution of higher education meeting the requirements of Section 1046(3) of the Higher Education Act of 1965 (20 U.S.C. 1135d-5(3)) which, for purposes of this clause, includes a Hispanic-serving institution of higher education as defined in Section 316(b)(1) of the Act (20 U.S.C. 1059c(b)(1)).

"United States" means the United States, its territories and possessions, the Commonwealth of Puerto Rico, the U.S. Trust Territory of the Pacific Islands, and the District of Columbia.

(b) *Evaluation adjustment.* (1) The Contracting Officer will evaluate offers by adding a factor of TEN (10) percent to the price of all offers, except--

(i) Offers from small disadvantaged business concerns, that have not waived the adjustment, whose address is in a region for which an evaluation adjustment is authorized;

(ii) An otherwise successful offer of eligible products under the Trade Agreements Act when the dollar threshold for application of the Act is equaled or exceeded (see section 25.402 of the Federal Acquisition Regulation (FAR));

(iii) An otherwise successful offer where application of the factor would be inconsistent with a Memorandum of Understanding or other international agreement with a foreign government;

(iv) For DoD, NASA, and Coast Guard acquisitions, an otherwise successful offer from a historically black college or university or minority institution; and

(v) For DoD acquisitions, an otherwise successful offer of qualifying country end products (see sections 225.000-70 and 252.225-7001 of the Defense FAR Supplement).

(2) The Contracting Officer will apply the factor to a line item or a group of line items on which award may be made. The Contracting Officer will apply other evaluation factors described in the solicitation before application of the factor. The factor may not be applied if using the

adjustment would cause the contract award to be made at a price that exceeds the fair market price by more than the factor in paragraph (b)(1) of this clause.

(c) *Waiver of evaluation adjustment.* A small disadvantaged business concern may elect to waive the adjustment, in which case the factor will be added to its offer for evaluation purposes. The agreements in paragraph (d) of this clause do not apply to offers that waive the adjustment.

____ Offeror elects to waive the adjustment.

(d) *Agreements.* (1) A small disadvantaged business concern, that did not waive the adjustment, agrees that in performance of the contract, in the case of a contract for--

(i) Services, except construction, at least 50 percent of the cost of personnel for contract performance will be spent for employees of the concern;

(ii) Supplies (other than procurement from a non-manufacturer of such supplies), at least 50 percent of the cost of manufacturing, excluding the cost of materials, will be performed by the concern;

(iii) General construction, at least 15 percent of the cost of the contract, excluding the cost of materials, will be performed by employees of the concern; or

(iv) Construction by special trade contractors, at least 25 percent of the cost of the contract, excluding the cost of materials, will be performed by employees of the concern.

(2) A small disadvantaged business concern submitting an offer in its own name agrees to furnish in performing this contract only end items manufactured or produced by small disadvantaged business concerns in the United States. This paragraph does not apply in connection with construction or service contracts.

***** END OLD VERSION/EXCLUDED/DEVIATED CLAUSE TEXT *****

I.4 COMPETITION IN SUBCONTRACTING (FAR 52.244-5) (DEC 1996)

(a) The Contractor shall select subcontractors (including suppliers) on a competitive basis to the maximum practical extent consistent with the objectives and requirements of the contract.

(b) If the Contractor is an approved mentor under the Department of Defense Pilot Mentor-Protege Program (Pub. L. 101-510, section 831 as amended), the Contractor may award subcontracts under this contract on a noncompetitive basis to its proteges.

I.5 SUBCONTRACTS FOR COMMERCIAL ITEMS (FAR 52.244-6) (MAY 2002)

(a) *Definitions.* As used in this clause--

"Commercial item" has the meaning contained in the clause at 52.202-1, Definitions.

"Subcontract" includes a transfer of commercial items between divisions, subsidiaries, or affiliates of the Contractor or subcontractor at any tier.

(b) To the maximum extent practicable, the Contractor shall incorporate, and require its subcontractors at all tiers to incorporate, commercial items or nondevelopmental items as components of items to be supplied under this contract.

(c) (1) The Contractor shall insert the following clauses in subcontracts for commercial items:

(i) 52.21908, Utilization of Small Business Concerns (Oct 2000) (15 U.S.C. 637(d)(2)(3)), in all subcontracts that offer further subcontracting opportunities. If the subcontract (except subcontracts to small business concerns) exceed \$500,000 (\$1,000,000 for construction of any public facility), the subcontractor must include 52.219-8 in lower tier subcontracts that offer subcontracting opportunities.

(ii) 52.222-26, Equal Opportunity (Apr 2002) (E.O. 11246).

(iii) 52.222-35, Equal Opportunity for Special Disabled Veterans, Veterans of the Vietnam Era, and Other Eligible Veterans (Dec 2001) (38 U.S.C. 4212(a));

(iv) 52.222-36, Affirmative Action for Workers with Disabilities (Jun 1998) (29 U.S.C. 793).

(v) 52.247-64, Preference for Privately Owned U.S.-Flag Commercial Vessels (Jun 2000) (46 U.S.C. Appx 1241) (flow down not required for subcontracts awarded beginning May 1996).

(2) While not required, the Contractor may flow down to subcontracts for commercial items a minimal number of additional clauses necessary to satisfy its contractual obligations.

(d) The Contractor shall include the terms of this clause, including this paragraph (d), in subcontracts awarded under this contract.

I.6 GOVERNMENT PROPERTY (COST-REIMBURSEMENT, TIME-AND-MATERIAL, OR LABOR-HOUR CONTRACTS) (FAR 52.245-5) (AUG 1996) DEVIATION

(a) *Government-furnished property.* (1) The term "Contractor's managerial personnel," as used in paragraph (g) of this clause, means any of the Contractor's directors, officers, managers, superintendents, or equivalent representatives who have supervision or direction of--

(i) All or substantially all of the Contractor's business;

(ii) All or substantially all of the Contractor's operation at any one plant, or separate location at which the contract is being performed; or

(iii) A separate and complete major industrial operation connected with performing this contract.

(2) The Government shall deliver to the Contractor, for use in connection with and under the terms of this contract, the Government-furnished property

described in the Schedule or specifications, together with such related data and information as the Contractor may request and as may be reasonably required for the intended use of the property (hereinafter referred to as "Government-furnished property").

(3) The delivery or performance dates for this contract are based upon the expectation that Government-furnished property suitable for use will be delivered to the Contractor at the times stated in the Schedule or, if not so stated, in sufficient time to enable the Contractor to meet the contract's delivery or performance dates.

(4) If Government-furnished property is received by the Contractor in a condition not suitable for the intended use, the Contractor shall, upon receipt, notify the Contracting Officer, detailing the facts, and, as directed by the Contracting Officer and at Government expense, either effect repairs or modification or return or otherwise dispose of the property. After completing the directed action and upon written request of the Contractor, the Contracting Officer shall make an equitable adjustment as provided in paragraph (h) of this clause.

(5) If Government-furnished property is not delivered to the Contractor by the required time or times, the Contracting Officer shall, upon the Contractor's timely written request, make a determination of the delay, if any, caused the Contractor and shall make an equitable adjustment in accordance with paragraph (h) of this clause.

DRAFT
(b) *Changes in Government-furnished property.* (1) The Contracting Officer may, by written notice, (i) decrease the Government-furnished property provided or to be provided under this contract or (ii) substitute other Government-furnished property for the property to be provided by the Government or to be acquired by the Contractor for the Government under this contract. The Contractor shall promptly take such action as the Contracting Officer may direct regarding the removal, shipment, or disposal of the property covered by this notice.

(2) Upon the Contractor's written request, the Contracting Officer shall make an equitable adjustment to the contract in accordance with paragraph (h) of this clause, if the Government has agreed in the Schedule to make such property available for performing this contract and there is any--

(i) Decrease or substitution in this property pursuant to subparagraph (b) (1) above; or

(ii) Withdrawal of authority to use property, if provided under any other contract or lease.

(c) *Title.* (1) The Government shall retain title to all Government-furnished property.

(2) Title to all property purchased by the Contractor for which the Contractor is entitled to be reimbursed as a direct item of cost under this contract shall pass to and vest in the Government upon the vendor's delivery of such property.

(3) Title to all other property, the cost of which is reimbursable to the Contractor, shall pass to and vest in the Government upon--

- (i) Issuance of the property for use in contract performance;
- (ii) Commencement of processing of the property for use in contract performance; or
- (iii) Reimbursement of the cost of the property by the Government, whichever occurs first.

(4) All Government-furnished property and all property acquired by the Contractor, title to which vests in the Government under this paragraph (collectively referred to as "Government property"), are subject to the provisions of this clause. Title to Government property shall not be affected by its incorporation into or attachment to any property not owned by the Government, nor shall Government property become a fixture or lose its identity as personal property by being attached to any real property.

(d) *Use of Government property.* The Government property shall be used only for performing this contract, unless otherwise provided in this contract or approved by the Contracting Officer.

(e) *Property administration.* (1) The Contractor shall be responsible and accountable for all Government property provided under this contract and shall comply with Federal Acquisition Regulation Subpart 45.5, as in effect on the date of this contract, and which is hereby incorporated into this contract by reference.

(2) The Contractor shall establish and maintain a program for the use, maintenance, repair, protection, and preservation of Government property in accordance with sound business practice and the applicable provisions of FAR Subpart 45.5.

(3) If damage occurs to Government property, the risk of which has been assumed by the Government under this contract, the Government shall replace the items or the Contractor shall make such repairs as the Government directs. However, if the Contractor cannot effect such repairs within the time required, the Contractor shall dispose of the property as directed by the Contracting Officer. When any property for which the Government is responsible is replaced or repaired, the Contracting Officer shall make an equitable adjustment in accordance with paragraph (h) of this clause.

(f) *Access.* The Government and all its designees shall have access at all reasonable times to the premises in which any Government property is located for the purpose of inspecting the Government property.

(g) *Limited Risk of loss.*

(1) The Contractor shall not be liable for loss or destruction of, or damage to, the Government property provided under this contract or for expenses incidental to such loss, destruction, or damage, except as provided in subparagraphs (2) and (3) below.

(2) The Contractor shall be responsible for loss or destruction of, or damage to, the Government property provided under this contract (including expenses incidental to such loss, destruction, or damage)--

(i) That results from a risk expressly required to be insured under this contract, but only to the extent of the insurance required to be purchased and maintained or to the extent of insurance actually purchased and maintained, whichever is greater;

(ii) That results from a risk that is in fact covered by insurance or for which the Contractor is otherwise reimbursed, but only to the extent of such insurance or reimbursement;

(iii) For which the Contractor is otherwise responsible under the express terms of this contract;

(iv) That results from willful misconduct or lack of good faith on the part of the Contractor's managerial personnel; or

(v) That results from a failure on the part of the Contractor, due to willful misconduct or lack of good faith on the part of the Contractor's managerial personnel, to establish and administer a program or system for the control, use, protection, preservation, maintenance, and repair of Government property as required by paragraph (e) of this clause.

(3) (i) If the Contractor fails to act as provided by subdivision (g) (2) (v) above, after being notified (by certified mail addressed to one of the Contractor's managerial personnel) of the Government's disapproval, withdrawal of approval, or nonacceptance of the system or program, it shall be conclusively presumed that such failure was due to willful misconduct or lack of good faith on the part of the Contractor's managerial personnel.

(ii) In such event, any loss or destruction of, or damage to, the Government property shall be presumed to have resulted from such failure unless the Contractor can establish by clear and convincing evidence that such loss, destruction, or damage--

(A) Did not result from the Contractor's failure to maintain an approved program or system; or

(B) Occurred while an approved program or system was maintained by the Contractor.

(4) If the Contractor transfers Government property to the possession and control of a subcontractor, the transfer shall not affect the liability of the Contractor for loss or destruction of, or damage to, the property as set forth above. However, the Contractor shall require the subcontractor to assume the risk of, and be responsible for, any loss or destruction of, or damage to, the property while in the subcontractor's possession or control, except to the extent that the subcontract, with the advance approval of the Contracting Officer, relieves the subcontractor from such liability. In the absence of such approval, the subcontract shall contain appropriate provisions requiring the return of all Government property in as good condition as when received, except for reasonable wear and tear or for its use in accordance with the provisions of the prime contract.

(5) The contractor shall notify the contracting officer upon loss or destruction of, or damage to, Government property provided under this contract, with the exception of low value property for which loss, damage, or destruction is reported at contract termination, completion, or when needed

for continued contract performance. The Contractor shall take all reasonable action to protect the Government property from further damage, separate the damaged and undamaged Government property, put all the affected Government property in the best possible order, and furnish to the Contracting Officer a statement of--

- (i) The lost, destroyed, or damaged Government property;
- (ii) The time and origin of the loss, destruction, or damage;
- (iii) All known interests in commingled property of which the Government property is a part; and
- (iv) The insurance, if any, covering any part of or interest in such commingled property.

(6) The Contractor shall repair, renovate, and take such other action with respect to damaged Government property as the Contracting Officer directs. If the Government property is destroyed or damaged beyond practical repair, or is damaged and so commingled or combined with property of others (including the Contractor's) that separation is impractical, the Contractor may, with the approval of and subject to any conditions imposed by the Contracting Officer, sell such property for the account of the Government. Such sales may be made in order to minimize the loss to the Government, to permit the resumption of business, or to accomplish a similar purpose. The Contractor shall be entitled to an equitable adjustment in the contract price for the expenditures made in performing the obligations under this subparagraph (g) (6) in accordance with paragraph (h) of this clause. However, the Government may directly reimburse the loss and salvage organization for any of their charges. The Contracting Officer shall give no regard to the Contractor's liability under this paragraph (g) when making any such equitable adjustment.

(7) The Contractor shall not be reimbursed for, and shall not include as an item of overhead, the cost of insurance or of any reserve covering risk of loss or destruction of, or damage to, Government property, except to the extent that the Government may have expressly required the Contractor to carry such insurance under another provision of this contract.

(8) In the event the Contractor is reimbursed or otherwise compensated for any loss or destruction of, or damage to, Government property, the Contractor shall use the proceeds to repair, renovate, or replace the lost, destroyed, or damaged Government property or shall otherwise credit the proceeds to, or equitably reimburse, the Government, as directed by the Contracting Officer.

(9) The Contractor shall do nothing to prejudice the Government's rights to recover against third parties for any loss or destruction of, or damage to, Government property. Upon the request of the Contracting Officer, the Contractor shall, at the Government's expense, furnish to the Government all reasonable assistance and cooperation (including the prosecution of suit and the execution of instruments of assignment in favor of the Government) in obtaining recovery. In addition, where a subcontractor has not been relieved from liability for any loss or destruction of, or damage to, Government property, the Contractor shall enforce for the benefit of the Government the liability of the subcontractor for such loss, destruction, or damage.

(h) *Equitable adjustment.* When this clause specifies an equitable adjustment, it shall be made to any affected contract provision in accordance with the procedures of the Changes clause. When appropriate, the Contracting Officer may initiate an equitable adjustment in favor of the Government. The right to an equitable adjustment shall be the Contractor's exclusive remedy. The Government shall not be liable to suit for breach of contract for--

- (1) Any delay in delivery of Government-furnished property;
- (2) Delivery of Government-furnished property in a condition not suitable for its intended use;
- (3) A decrease in or substitution of Government-furnished property; or
- (4) Failure to repair or replace Government property for which the Government is responsible.

(i) *Final accounting and disposition of Government property.* Upon completing this contract, or at such earlier dates as may be fixed by the Contracting Officer, the Contractor shall submit, in a form acceptable to the Contracting Officer, inventory schedules covering all items of Government property not consumed in performing this contract or delivered to the Government. The Contractor shall prepare for shipment, deliver f.o.b. origin, or dispose of the Government property as may be directed or authorized by the Contracting Officer. The net proceeds of any such disposal shall be credited to the cost of the work covered by this contract or paid to the Government as directed by the Contracting Officer. The foregoing provisions shall apply to scrap from Government property; provided, however, that the Contracting Officer may authorize or direct the Contractor to omit from such inventory schedules any scrap consisting of faulty castings or forgings, or cuttings and processing waste, such as chips, cuttings, borings, turnings, short ends, circles, trimmings, clippings, and remnants, and to dispose of such scrap in accordance with the Contractor's normal practice and account for it as a part of general overhead or other reimbursable costs in accordance with the Contractor's established accounting procedures.

(j) *Abandonment and restoration of Contractor premises.* Unless otherwise provided herein, the Government--

- (1) May abandon any Government property in place, at which time all obligations of the Government regarding such abandoned property shall cease; and
- (2) Has no obligation to restore or rehabilitate the Contractor's premises under any circumstances (e.g., abandonment, disposition upon completion of need, or contract completion). However, if the Government-furnished property (listed in the Schedule or specifications) is withdrawn or is unsuitable for the intended use, or if other Government property is substituted, then the equitable adjustment under paragraph (h) of this clause may properly include restoration or rehabilitation costs.

(k) *Communications.* All communications under this clause shall be in writing.

(l) *Overseas contracts.* If this contract is to be performed outside the United States of America, its territories, or possessions, the words

"Government" and "Government-furnished" (wherever they appear in this clause) shall be construed as "United States Government" and "United States Government-furnished," respectively.

I.7 SUBMISSION OF COMMERCIAL TRANSPORTATION BILLS TO THE GENERAL SERVICES ADMINISTRATION FOR AUDIT (FAR 52.247-67) (JUN 1997)

(a)1) In accordance with paragraph (a)(2) of this clause, the Contractor shall submit to the General Services Administration (GSA) for audit, legible copies of all paid freight bills/invoices, commercial bills of lading (CBL's), passenger coupons, and other supporting documents for transportation services on which the United States will assume freight charges that were paid (i) by the Contractor under a cost-reimbursement contract, and (ii) by a first-tier subcontractor under a cost-reimbursement subcontract thereunder.

(2) Cost-reimbursement Contractors shall only submit for audit those CBL's with freight shipment charges exceeding \$50.00. Bills under \$50.00 shall be retained on-site by the Contractor and made available for GSA on-site audits. This exception only applies to freight shipment bills and is not intended to apply to bills and invoices for any other transportation services.

(b) The Contractor shall forward copies of paid freight bills/invoices, CBL's, passenger coupons, and supporting documents as soon as possible following the end of the month, in one package to the General Services Administration, ATTN: FWA, 1800 F Street, NW, Washington, DC 20405. The Contractor shall include the paid freight bills/invoice, CBL', passenger coupons, and supporting documents for first tier subcontractors under a cost-reimbursement contract. In the inclusion of the paid freight bills/invoices, CBL's, passenger coupons, and supporting documents for any subcontractor in the shipment is practicable, the documents be forwarded to GSA in a separate package.

(c) Any original transportation bills or other documents requested by GSA shall be forwarded promptly by the Contractor to GSA. The Contractor shall ensure that the name of the contracting agency is stamped or written on the face of the bill before sending it to GSA.

(d) A statement prepared in duplicate by the Contractor shall accompany each shipment of transportation documents. GSA will acknowledge receipt of the shipment by signing and returning the copy of the statement. The statement shall show --

- (1) The name and address of the Contractor;
- (2) The contract number including any alpha-numeric prefix identifying the contracting office;
- (3) The name and address of the contracting office;
- (4) The total number of bills submitted with the statement; and
- (5) A listing of the respective amounts paid or, in lieu of such listing, an adding machine tape of the amounts paid showing the Contractor's voucher or check numbers.

I.8 CLAUSES INCORPORATED BY REFERENCE (FAR 52.252-2) (FEB 1998)

This contract incorporates one or more clauses by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. Also, the full text of a clause may be accessed electronically at this/these address(es):

<http://www.arnet.gov/far/>

[Insert one or more Internet addresses]

I.9 AUTHORIZED DEVIATIONS IN CLAUSES (FAR 52.252-6) (APR 1984)

(a) The use in this solicitation or contract of any Federal Acquisition Regulation (48 CFR Chapter 1) clause with an authorized deviation is indicated by the addition of "DEVIATION" after the date of the clause.

(b) The use in this solicitation or contract of any Environmental Protection Agency (48 CFR Chapter 15) clause with an authorized deviation is indicated by the addition of "DEVIATION" after the name of the regulation.

PART IV - REPRESENTATIONS AND INSTRUCTIONS

SECTION K - REPRESENTATIONS, CERTIFICATIONS, AND OTHER STATEMENTS OF OFFERORS

**K.1 CERTIFICATION AND DISCLOSURE REGARDING PAYMENTS TO INFLUENCE CERTAIN
FEDERAL TRANSACTIONS (FAR 52.203-11) (APR 1991)**

(a) The definitions and prohibitions contained in the clause, at FAR 52.203-12, Limitation on Payments to Influence Certain Federal Transactions, included in this solicitation, are hereby incorporated by reference in paragraph (b) of this certification.

(b) The offeror, by signing its offer, hereby certifies to the best of his or her knowledge and belief that on or after December 23, 1989--

(1) No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress on his or her behalf in connection with the making of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

(2) If any funds other than Federal appropriated funds (including profit or fee received under a covered Federal transaction) have been paid, or will be paid, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress on his or her behalf in connection with this solicitation, the offeror shall complete and submit OMB standard form LLL, Disclosure of Lobbying Activities to the Contracting Officer; and

(3) He or she will include the language of this certification in all subcontract awards at any tier and require that all recipients of subcontract awards in excess of \$100,000 shall certify and disclose accordingly.

(c) Submission of this certification and disclosure is a prerequisite for making or entering into this contract imposed by section 1352, title 31, United States Code. Any person who makes an expenditure prohibited under this provision or who fails to file or amend the disclosure form to be filed or amended by this provision, shall be subject to a civil penalty of not less than \$10,000, and not more than \$100,000, for each such failure.

K.2 TAXPAYER IDENTIFICATION (FAR 52.204-3) (OCT 1998)

(a) *Definitions.*

"Common parent," as used in this provision, means that corporate entity that owns or controls an affiliated group of corporations that files its Federal

income tax returns on a consolidated basis, and of which the offeror is a member.

"Taxpayer Identification Number (TIN)," as used in this provision, means the number required by the Internal Revenue Service (IRS) to be used by the offeror in reporting income tax and other returns. The TIN may be either a Social Security Number or an Employer Identification Number.

(b) All offerors must submit the information required in paragraphs (d) through (f) of this provision to comply with debt collection requirements of 31 U.S.C. 7701(c) and 3325(d), reporting requirements of 26 U.S.C. 6041, 6041A, and 6050M, and implementing regulations issued by the IRS. If the resulting contract is subject to the payment reporting requirements described in Federal Acquisition Regulation (FAR) 4.904, the failure or refusal by the offeror to furnish the information may result in a 31 percent reduction of payments otherwise due under the contract.

(c) The TIN may be used by the Government to collect and report on any delinquent amounts arising out of the offeror's relationship with the Government (31 U.S.C. 7701(c)(3)). If the resulting contract is subject to the payment reporting requirements described in FAR 4.904, the TIN provided hereunder may be matched with IRS records to verify the accuracy of the offeror's TIN.

(d) *Taxpayer Identification Number (TIN).*

☐ TIN: _____

☐ TIN has been applied for.

☐ TIN is not required because:

☐ Offeror is a nonresident alien, foreign corporation, or foreign partnership that does not have income effectively connected with the conduct of a trade or business in the United States and does not have an office or place of business or a fiscal paying agent in the United States;

☐ Offeror is an agency or instrumentality of a foreign government;

☐ Offeror is an agency or instrumentality of the Federal Government.

(e) *Type of organization.*

☐ Sole proprietorship;

☐ Partnership;

☐ Corporate entity (not tax-exempt);

☐ Corporate entity (tax-exempt);

☐ Government entity (Federal, State, or local);

☐ Foreign government;

[] International organization per 26 CFR 1.6049-4;

[] Other _____.

(f) *Common parent.*

[] Offeror is not owned or controlled by a common parent as defined in paragraph (a) of this provision.

[] Name and TIN of common parent:

Name _____

TIN _____

K.3 WOMEN-OWNED BUSINESS (OTHER THAN SMALL BUSINESS) (FAR 52.204-5) (MAY 1999)

(a) *Definition.* "Women-owned business concern," as used in this provision, means a concern that is at least 51 percent owned by one or more women; or in the case of any publicly owned business, at least 51 percent of its stock is owned by one or more women; and whose management and daily business operations are controlled by one or more women.

(b) *Representations.* [Complete only if the offeror is a women-owned business concern and has not represented itself as a small business concern in paragraph (b)(1) of FAR 52.219-2, Small Business Program Representations, of this solicitation.] The offeror represents that it [] is, [] is not a women-owned business concern.

K.4 CERTIFICATION REGARDING DEBARMENT, SUSPENSION, PROPOSED DEBARMENT, AND OTHER RESPONSIBILITY MATTERS (FAR 52.209-5) (DEC 2001)

(a)(1) The Offeror certifies, to the best of its knowledge and belief, that -

(i) The Offeror and/or any of its Principals -

(A) Are [] are not [] presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(B) Have [] have not [], within a 3-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, state, or local) contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, or receiving stolen property; and

(C) Are [] are not [] presently indicted for, or otherwise criminally or civilly charged by a governmental entity with, commission of any of the offenses enumerated in subdivision (a)(1)(i)(B) of this provision.

(ii) The Offeror has [] has not [], within a 3-year period preceding this offer, had one or more contracts terminated for default by any Federal agency.

(2) "Principals," for the purposes of this certification, means officers; directors; owners; partners; and, persons having primary management or supervisory responsibilities within a business entity (e.g., general manager; plant manager; head of a subsidiary, division, or business segment, and similar positions).

THIS CERTIFICATION CONCERNS A MATTER WITHIN THE JURISDICTION OF AN AGENCY OF THE UNITED STATES AND THE MAKING OF A FALSE, FICTITIOUS, OR FRAUDULENT CERTIFICATION MAY RENDER THE MAKER SUBJECT TO PROSECUTION UNDER SECTION 1001, TITLE 18, UNITED STATES CODE.

(b) The Offeror shall provide immediate written notice to the Contracting Officer if, at any time prior to contract award, the Offeror learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

(c) A certification that any of the items in paragraph (a) of this provision exists will not necessarily result in withholding of an award under this solicitation. However, the certification will be considered in connection with a determination of the Offeror's responsibility. Failure of the Offeror to furnish a certification or provide such additional information as requested by the Contracting Officer may render the Offeror nonresponsible.

(d) Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render, in good faith, the certification required by paragraph (a) of this provision. The knowledge and information of an Offeror is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

(e) The certification in paragraph (a) of this provision is a material representation of fact upon which reliance was placed when making award. If it is later determined that the Offeror knowingly rendered an erroneous certification, in addition to other remedies available to the Government, the Contracting Officer may terminate the contract resulting from this solicitation for default.

K.5 SMALL BUSINESS PROGRAM REPRESENTATIONS (FAR 52.219-1) (APR 2002)

(a) (1) The North American Industry Classification System (NAICS) code for this acquisition is _____ [insert NAICS code].

(2) The small business size standard is _____ [insert size standard].

(3) The small business size standard for a concern which submits an offer in its own name, other than on a construction or service contract, but which proposes to furnish a product which it did not itself manufacture, is 500 employees.

(b) *Representations.*

(1) The offeror represents as part of its offer that it ☐ is, ☐ is not a small business concern.

(2) *[Complete only if the offeror represented itself as a small business concern in paragraph (b)(1) of this provision.]* The offeror represents, for general statistical purposes, that it ☐ is, ☐ is not, a small disadvantaged business concern as defined in 13 CFR 124.1002.

(3) *[Complete only if the offeror represented itself as a small business concern in paragraph (b)(1) of this provision.]* The offeror represents as part of its offer that it ☐ is, ☐ is not a women-owned small business concern.

(4) *[Complete only if the offeror represented itself as a small business concern in paragraph (b)(1) of this provision.]* The offeror represents as part of its offer that it ☐ is, ☐ is not a veteran-owned small business concern.

(5) *[Complete only if the offeror represented itself as a veteran-owned small business concern in paragraph (b)(4) of this provision.]* The offeror represents as part of its offer that it ☐ is, ☐ is not a service-disabled veteran-owned small business concern.

(6) *[Complete only if the offeror represented itself as a small business concern in paragraph (b)(1) of this provision.]* The offeror represents, as part of its offer, that--

(i) It ☐ is, ☐ is not a HUBZone small business concern listed, on the date of this representation, on the List of Qualified HUBZone Small Business Concerns maintained by the Small Business Administration, and no material change in ownership and control, principal office, or HUBZone employee percentage has occurred since it was certified by the Small Business Administration in accordance with 13 CFR part 126; and

(ii) It ☐ is, ☐ is not a joint venture that complies with the requirements of 13 CFR part 126, and the representation in paragraph (b)(6)(i) of this provision is accurate for the HUBZone small business concern or concerns that are participating in the joint venture. *[The offeror shall enter the name or names of the HUBZone small business concern or concerns that are participating in the joint venture:_____.]* Each HUBZone small business concern participating in the joint venture shall submit a separate signed copy of the HUBZone representation.

(c) *Definitions.* As used in this provision--

"Service-disabled veteran-owned small business concern"--

(1) Means a small business concern--

(i) Not less than 51 percent of which is owned by one or more service-disabled veterans or, in the case of any publicly owned business, not less than 51 percent of the stock of which is owned by one or more service-disabled veterans; and

(ii) The management and daily business operations of which are controlled by one or more service-disabled veterans or, in the case of a

veteran with permanent and severe disability, the spouse or permanent caregiver of such veteran.

(2) Service-disabled veteran means a veteran, as defined in 38 U.S.C. 101(2), with a disability that is service-connected, as defined in 38 U.S.C. 101(16).

"Small business concern," means a concern, including its affiliates, that is independently owned and operated, not dominant in the field of operation in which it is bidding on Government contracts, and qualified as a small business under the criteria in 13 CFR Part 121 and the size standard in paragraph (a) of this provision.

"Veteran-owned small business concern" means a small business concern-

(1) Not less than 51 percent of which is owned by one or more veterans (as defined at 38 U.S.C. 101(2)) or, in the case of any publicly owned business, not less than 51 percent of the stock of which is owned by one or more veterans; and

(2) The management and daily business operations of which are controlled by one or more veterans.

"Women-owned small business concern," means a small business concern --

(1) That is at least 51 percent owned by one or more women; or, in the case of any publicly owned business, at least 51 percent of the stock of which is owned by one or more women; and

(2) Whose management and daily business operations are controlled by one or more women.

(d) *Notice.*

(1) If this solicitation is for supplies and has been set aside, in whole or in part, for small business concerns, then the clause in this solicitation providing notice of the set-aside contains restrictions on the source of the end items to be furnished.

(2) Under 15 U.S.C. 645(d), any person who misrepresents a firm's status as a small, HUBZone small, small disadvantaged, or women-owned small business concern in order to obtain a contract to be awarded under the preference programs established pursuant to section 8(a), 8(d), 9, or 15 of the Small Business Act or any other provision of Federal law that specifically references section 8(d) for a definition of program eligibility, shall --

(i) Be punished by imposition of fine, imprisonment, or both;

(ii) Be subject to administrative remedies, including suspension and debarment; and

(iii) Be ineligible for participation in programs conducted under the authority of the Act.

K.6 SMALL DISADVANTAGED BUSINESS STATUS (FAR 52.219-22) (OCT 1999)

(a) *General.* This provision is used to assess an offeror's small disadvantaged business status for the purpose of obtaining a benefit on this solicitation. Status as a small business and status as a small disadvantaged business for general statistical purposes is covered by the provision at FAR 52.219-1, Small Business Program Representation.

(b) *Representations.* (1) *General.* The offeror represents, as part of its offer, that it is a small business under the size standard applicable to this acquisition; and either--

[] (i) It has received certification by the Small Business Administration as a small disadvantaged business concern consistent with 13 CFR 124, Subpart B; and

(A) No material change in disadvantaged ownership and control has occurred since its certification;

(B) Where the concern is owned by one or more disadvantaged individuals, the net worth of each individual upon whom the certification is based does not exceed \$750,000 after taking into account the applicable exclusions set forth at 13 CFR 124.104(c) (2); and

(C) It is identified, on the date of its representation, as a certified small disadvantaged business concern in the database maintained by the Small Business Administration (PBO-Net); and

[] (ii) It has submitted a completed application to the Small Business Administration of a Private Certified to be certified as a small disadvantaged business concern in accordance with 13 CFR 124, Subpart B, and a decision on that application is pending; and there has been no material change in disadvantaged ownership and control has occurred since its application was submitted.

(2) [] *For Joint Ventures.* The offeror represents, as part of its offer, that it is a joint venture that complies with the requirements at 13 CFR 124.1002(f) and that the representation in paragraph (b) (1) of this provision is accurate for the small disadvantaged business concern that is participating in the joint venture. [The offeror shall enter the name of the small disadvantaged business concern that is participating in the joint venture: _____.]

(c) *Penalties and Remedies.* Anyone who misrepresents any aspects of the disadvantaged status of a concern for the purposes of securing a contract or subcontract shall:

(1) Be punished by imposition of a fine, imprisonment, or both;

(2) Be subject to administrative remedies, including suspension and debarment; and

(3) Be ineligible for participation in programs conducted under the authority of the Small Business Act.

K.7 PROHIBITION OF SEGREGATED FACILITIES (FAR 52.222-21) (FEB 1999)

(a) "Segregated facilities," as used in this clause, means any waiting rooms, work areas, rest rooms and wash rooms, restaurants and other eating

areas, time clocks, locker rooms and other storage or dressing areas, parking lots, drinking fountains, recreation or entertainment areas, transportation, and housing facilities provided for employees, that are segregated by explicit directive or are in fact segregated on the basis of race, color, religion, sex, or national origin because of written or oral policies or employee custom. The term does not include separate or single-user rest rooms or necessary dressing or sleeping areas provided to assure privacy between the sexes.

(b) The Contractor agrees that it does not and will not maintain or provide for its employees any segregated facilities at any of its establishments, and that it does not and will not permit its employees to perform their services at any location under its control where segregated facilities are maintained. The Contractor agrees that a breach of this clause is a violation of the Equal Opportunity clause in this contract.

(c) The Contractor shall include this clause in every subcontract and purchase order that is subject to the Equal Opportunity clause of this contract.

K.8 PREVIOUS CONTRACTS AND COMPLIANCE REPORTS (FAR 52.222-22) (FEB 1999)

The offeror represents that--

(a) It ☐ has ☐ has not participated in a previous contract or subcontract subject to the Equal Opportunity clause of this solicitation;

(b) It ☐ has ☐ has not filed all required compliance reports; and

(c) Representations indicating submission of required compliance reports, signed by proposed subcontractors, will be obtained before subcontract awards.

K.9 AFFIRMATIVE ACTION COMPLIANCE (FAR 52.222-25) (APR 1984)

The offeror represents that--

(a) It ☐ has developed and has on file, ☐ has not developed and does not have on file, at each establishment, affirmative action programs required by the rules and regulations of the Secretary of Labor (41 CFR 60-1 and 60-2), or
(b) It ☐ has not previously had contracts subject to the written affirmative action programs requirement of the rules and regulations of the Secretary of Labor.

K.10 RECOVERED MATERIAL CERTIFICATION (FAR 52.223-4) (OCT 1997)

As required by the Resource Conservation and Recovery Act of 1976 (42 U.S.C. 6962(c)(3)(A)(i)), the offeror certifies, by signing this offer, that the percentage of recovered material to be used in the performance of the contract will be at least the amount required by the applicable contract specifications.

K.11 CERTIFICATION OF TOXIC CHEMICAL RELEASE REPORTING (FAR 52.223-13) (OCT 2000)

(a) Submission of this certification is a prerequisite for making or entering into this contract imposed by Executive Order 12969, August 8, 1995.

(b) By signing this offer, the offeror certifies that--

(1) As the owner or operator of facilities that will be used in the performance of this contract that are subject to the filing and reporting requirements described in section 313 of the Emergency Planning and Community Right-to-Know Act of 1986 (EPCRA) (42 U.S.C. 11023) and section 6607 of the Pollution Prevention Act of 1990 (PPA) (42 U.S.C. 13106), the offeror will file and continue to file for such facilities for the life of the contract the Toxic Chemical Release Inventory Form (Form R) as described in sections 313(a) and (g) of EPCRA and section 6607 of PPA; or

(2) None of its owned or operated facilities to be used in the performance of this contract is subject to the Form R filing and reporting requirements because each such facility is exempt for at least one of the following reasons: *[Check each block that is applicable.]*

☐ (i) The facility does not manufacture, process, or otherwise use any toxic chemicals listed under section 313(c) of EPCRA, 42 U.S.C. 11023(c);

☐ (ii) The facility does not have 10 or more full-time employees as specified in section 313(b)(1)(A) of EPCRA, 42 U.S.C. 11023(b)(1)(A);

☐ (iii) The facility does not meet the reporting thresholds of toxic chemicals established under section 313(f) of EPCRA, 42 U.S.C. 11023(f) (including the alternate thresholds at 40 CFR 372.27 provided an appropriate certification form has been filed with EPA)

☐ (iv) The facility does not fall within Standard Industrial Classification Code (SIC) major groups 20 through 39 or their corresponding North American Industry Classification System (NAICS) sectors 31 through 33; or

☐ (v) The facility is not located within any State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, Guam, American Samoa, the United States Virgin Islands, the Northern Mariana Islands, or any other territory or possession over which the United States has jurisdiction.

K.12 COST ACCOUNTING STANDARDS NOTICES AND CERTIFICATION (FAR 52.230-1) (JUN 2000)

Note: This notice does not apply to small businesses or foreign governments. This notice is in three parts, identified by Roman numerals I through III.

Offerors shall examine each part and provide the requested information in order to determine Cost Accounting Standards (CAS) requirements applicable to any resultant contract.

If the offeror is an educational institution, Part II does not apply unless the contemplated contract will be subject to full or modified CAS coverage pursuant to 48 CFR 9903.201-2(c)(5) or 9903.201-2(c)(6), respectively.

I. DISCLOSURE STATEMENT -- COST ACCOUNTING PRACTICES AND CERTIFICATION

(a) Any contract in excess of \$500,000 resulting from this solicitation will be subject to the requirements of the Cost Accounting Standards Board (48 CFR Chapter 99), except for those contracts which are exempt as specified in 48 CFR 9903.201-1.

(b) Any offeror submitting a proposal which, if accepted, will result in a contract subject to the requirements of 48 CFR Chapter 99 must, as a condition of contracting, submit a Disclosure Statement as required by 48 CFR 9903.202. When required, the Disclosure Statement must be submitted as a part of the offeror's proposal under this solicitation unless the offeror has already submitted a Disclosure Statement disclosing the practices used in connection with the pricing of this proposal. If an applicable Disclosure Statement has already been submitted, the offeror may satisfy the requirement for submission by providing the information requested in paragraph (c) of Part I of this provision.

CAUTION: In the absence of specific regulations or agreement, a practice disclosed in a Disclosure Statement shall not, by virtue of such disclosure, be deemed to be a proper, approved, or agreed-to practice for pricing proposals or accumulating and reporting contract performance cost data.

(c) Check the appropriate box below:

☐ (1) Certificate of Concurrent Submission of Disclosure Statement.

The offeror hereby certifies that, as a part of the offer, copies of the Disclosure Statement have been submitted as follows: (i) original and one copy to the cognizant Administrative Contracting Officer (ACO) or cognizant Federal agency official authorized to act in that capacity (Federal official), as applicable, and (ii) one copy to the cognizant Federal Auditor.

(Disclosure must be on Form No. CASB DS-1 or CASB DS-2, as applicable. Forms may be obtained from the cognizant ACO or Federal Official and/or from the looseleaf version of the Federal Acquisition Regulation.)

Date of Disclosure Statement: _____
Name and Address of Cognizant ACO or Federal Official Where Filed:

The offeror further certifies that practices used in estimating costs in pricing this proposal are consistent with the cost accounting practices disclosed in the Disclosure Statement.

☐ (2) Certificate of Previously Submitted Disclosure Statement.

The offeror hereby certifies that Disclosure Statement was filed as follows:

Date of Disclosure Statement: _____
Name and Address of Cognizant ACO or Federal Official Where Filed:

The offeror further certifies that the practices used in estimating costs in pricing this proposal are consistent with the cost accounting practices disclosed in the applicable disclosure statement.

☐ (3) Certificate of Monetary Exemption.

The offeror hereby certifies that the offeror, together with all divisions, subsidiaries, and affiliates under common control, did not receive net awards of negotiated prime contracts and subcontracts subject to CAS totaling \$50 million or more in the cost accounting period immediately preceding the period in which this proposal was submitted. The offeror further certifies that if such status changes before an award resulting from this proposal, the offeror will advise the Contracting Officer immediately.

☐ (4) Certificate of Interim Exemption.

The offeror hereby certifies that (i) the offeror first exceeded the monetary exemption for disclosure, as defined in (2) of this subsection, in the cost accounting period immediately preceding the period in which this offer was submitted and (ii) in accordance with 48 CFR 9903.202-1, the offeror is not yet required to submit a Disclosure Statement. The offeror further certifies that if an award resulting from this proposal has not been made within 90 days after the end of the period, the offeror will immediately submit a revised certificate to the Contracting Officer, in the form specified under subparagraph (c)(1) or (c)(2) of Part I of this provision, as appropriate, to verify submission of a completed Disclosure Statement.

CAUTION: Offerors currently required to disclose because they were awarded a CAS-covered prime contract or subcontract of \$50 million or more in the current cost accounting period may not claim this exemption (4). Further, the exemption applies only in connection with proposals submitted before expiration of the 90-day period following the cost accounting period in which the monetary exemption was exceeded.

II. COST ACCOUNTING STANDARDS -- ELIGIBILITY FOR MODIFIED CONTRACT COVERAGE

If the offeror is eligible to use the modified provisions of 48 CFR 9903.201-2(b) and elects to do so, the offeror shall indicate by checking the box below. Checking the box below shall mean that the resultant contract is subject to the Disclosure and Consistency of Cost Accounting Practices clause in lieu of the Cost Accounting Standards clause.

☐ The offeror hereby claims an exemption from the Cost Accounting Standards clause under the provisions of 48 CFR 9903.201-2(b) and certifies that the offeror is eligible for use of the Disclosure and Consistency of Cost Accounting Practices clause because during the cost accounting period immediately preceding the period in which this proposal was submitted, the offeror received less than \$50 million in awards of CAS-covered prime contracts and subcontracts. The offeror further certifies that if such status

changes before an award resulting from this proposal, the offeror will advise the Contracting Officer immediately.

CAUTION: An offeror may not claim the above eligibility for modified contract coverage if this proposal is expected to result in the award of a CAS-covered contract of \$50 million or more or if, during its current cost accounting period, the offeror has been awarded a single CAS-covered prime contract or subcontract of \$50 million or more.

III. ADDITIONAL COST ACCOUNTING STANDARDS APPLICABLE TO EXISTING CONTRACTS

The offeror shall indicate below whether award of the contemplated contract would, in accordance with subparagraph (a) (3) of the Cost Accounting Standards clause, require a change in established cost accounting practices affecting existing contracts and subcontracts.

☐ YES ☐ NO

K.13 BUSINESS OWNERSHIP REPRESENTATION (EPAAR 1552.204-70) (JAN 2001)

The successful awardee should check one or more of the categories below that represents its business ownership and return this information to the contracting officer within ten (10) calendar days after award. Completion of this clause by the successful awardee is voluntary.

"Ownership," as used in this clause, means: (a) At least 51 percent of the concern is owned by one or more individuals from a category listed below; or, in the case of any publicly owned business, at least 51 percent of the stock of the concern is owned by one or more such individuals; and (b) The management and daily business operations of the concern are controlled by one or more such individuals.

Ethnicity

- ☐ Hispanic or Latino.
- ☐ Not Hispanic or Latino.

Race

- ☐ American Indian, Eskimo, or Aleut.
- ☐ Asian or Pacific Islander.
- ☐ Black or African American.
- ☐ White.

K.14 ORGANIZATIONAL CONFLICT OF INTEREST CERTIFICATION (EPAAR 1552.209-72) (APR 1984)

The offeror ☐ is ☐ is not aware of any information bearing on the existence of any potential organizational conflict of interest. If the offeror is aware of information bearing on whether a potential conflict may exist, the offeror shall provide a disclosure statement describing this information. (See Section L of the solicitation for further information.)

K.15 SOCIAL SECURITY NUMBERS OF CONSULTANTS AND CERTAIN SOLE PROPRIETORS AND PRIVACY ACT STATEMENT (EPAAR 1552.224-70) (APR 1984)

(a) Section 6041 of Title 26 of the U.S. Code requires EPA to file Internal Revenue Service (IRS) Form 1099 with respect to individuals who receive payments from EPA under purchase orders or contracts. Section 6109 of Title 26 of the U.S. Code authorizes collection by EPA of the social security numbers of such individuals for the purpose of filing IRS Form 1099. Social security numbers obtained for this purpose will be used by EPA for the sole purpose of filing IRS Form 1099 in compliance with Section 6041 of Title 26 of the U.S. Code.

(b) If the offeror or quoter is an individual, consultant, or sole proprietor and has no Employer Identification Number, insert the offeror's or quoter's social security number on the following line.

SECTION L - INSTRUCTIONS, CONDITIONS, AND NOTICES TO OFFERORS

L.1 NOTICE Listing Contract Clauses Incorporated by Reference

NOTICE:

The following solicitation provisions and/or contract clauses pertinent to this section are hereby incorporated by reference:

FEDERAL ACQUISITION REGULATION (48 CFR CHAPTER 1)

NUMBER	DATE	TITLE
52.204-6	SEP 1999	DATA UNIVERSAL NUMBERING SYSTEM (DUNS) NUMBER
52.215-1	FEB 2000	INSTRUCTIONS TO OFFERORS-COMPETITIVE ACQUISITION
52.222-24	FEB 1999	PREAWARD ON-SITE EQUAL OPPORTUNITY COMPLIANCE EVALUATION

***** BEGIN CO ADDED CLAUSE TEXT *****
L.2 SUBMITTAL OF CONFLICT OF INTEREST PLAN

Offerors shall submit an Organizational Conflict of Interest (COI) Plan which identifies the procedures in place to identify and report COIs, whether actual or potential, throughout the period of performance of the contract. The plan shall address step by step the checks and balances in place to detect potential or actual COI, organizationally and with personnel, in accordance with the provision Minimum Standards for Conflicts of Interest Plans.

The Organizational Conflict of Interest Plan shall be negotiated within the time specified by the Contracting Officer and incorporated into any resulting contract. The plan shall be evaluated in accordance with the provision in Section M entitled "Evaluation of Conflict of Interest Plan". The Plan will be evaluated as acceptable or not acceptable. Notwithstanding the evaluation of an offeror with respect to the technical evaluation criteria or the evaluation of the offeror's costs, an offeror that submits a plan that ultimately is unacceptable after the completion of negotiations will not be eligible for a contract award.

Offerors shall review the provision "ORGANIZATION CONFLICT OF INTEREST NOTIFICATION" prior to the preparation of the Organizational Conflict of Interest plan.

***** END CO ADDED CLAUSE TEXT *****

***** BEGIN CO ADDED CLAUSE TEXT *****
L.3 INELIGIBILITY OF CONTRACTOR'S PERFORMING RCRA ENFORCEMENT, PERMITTING, AND APPLICATION WORK FROM BEING CONSIDERED ELIGIBLE FOR AWARD

The Agency has determined that any contractor who, at the time of contract award, would be considered a RCRA Enforcement, Permitting, and Application (REPA) prime contractor would have a significant actual or potential Conflict of Interest (COI) in performing the work required under this contract and shall not be eligible for award of this contract for the subject acquisition as an EPA Prime contractor. In addition, the Agency has determined that subcontractors to REPA could potentially have a COI and shall not automatically be ineligible for award of this contract as an EPA Prime or Subcontractor. However, if a REPA subcontractor believes it is performing non-conflicting REPA work, and submits a proposal, they do so at their own risk and expense with the express understanding that they could be deemed ineligible for award notwithstanding their submission of a proposal.

***** END CO ADDED CLAUSE TEXT *****

***** BEGIN CO ADDED CLAUSE TEXT *****

L.4 DISCLOSURE OF POTENTIAL CONFLICT OF INTEREST

a. The RFP provision entitled "Organizational Conflict of Interest Certification (EPAAR) 1552.209-72)," required the offeror to certify whether it is or is not aware of any potential organizational conflict of interest. If the offeror is aware of a conflict, then the provision entitled "Organizational Conflict of Interest Notification (EPAAR 1552.209-70)," requires the offeror to provide a disclosure statement in its proposal describing all relevant information concerning any past, present, or planned interests bearing on whether it (including its chief executive and any directors, or any proposed consultant or subcontractors) may have a potential organizational conflict of interest.

b. The Agency has determined that an actual or potential COI could exist if a firm/entity has a relationship with or interest in firms that own, operate, or otherwise have an interest in companies that perform work that generates, transports, stores, recycles and or disposes of hazardous and non-hazardous waste.

c. The Agency has determined that firms/entities that perform RCRA enforcement and permitting will have a potential conflict of interest and may be ineligible for award.

d. Firms responding to this solicitation are required to disclose such business relationships. The disclosure statement must address actual and potential organizational conflicts of interest within the offeror's entire corporate umbrella, including parent companies, sister companies, affiliates, subsidiaries, and other interests held by the offeror. In addition to identifying actual and potential organizational conflicts of interest, the disclosure statement shall describe how any such conflicts can be avoided, mitigated, or neutralized. The Contracting Officer will determine an offeror's eligibility for award based on the information provided in the disclosure statement.

e. The purpose of requiring the information covered by paragraph (d) above is to provide the Agency with an opportunity to assess its vulnerabilities relative to organizational conflicts of interest of individual offeror's prior to award. The Agency recognizes that there exists a need for

firms to gain the requisite technical experience necessary to fulfill the requirement of the proposed contract and that such experience is often gained through provision of consulting or related technical services to individual members of the regulated community. Accordingly, the fact that a firm has, is, or plans to work for entities of the regulated community will not necessarily disqualify the firm for consideration for award on the basis of actual or potential conflicts of interest. There is a concern, however, that firms which depend to a considerable extent on commercial work from the regulated industries covered by this solicitation may have an inherent bias in favor of the regulated industries. The more dependent an offeror is upon commercial work for the regulated industries, the greater concern the Agency will have. There is no set formula for determining how much business with the regulated community would result in a determination by the Contracting Officer that award to a particular offeror would not be in the best interests of the Government due to organizational conflict of interest concerns; each offeror will be evaluated individually on the basis of the information disclosed pursuant to the requirements of this provision and upon the adequacy of the offeror's plan for avoiding, mitigating, or neutralizing such conflicts. In summary, the Agency is seeking a technically qualified firm which can demonstrate that its base of activities will not impact its ability to provide unbiased work products to the Agency under the proposed contract.

***** END CO ADDED CLAUSE TEXT *****

L.5 FACILITIES CAPITAL COST OF MONEY (FAR 52.215-16) (OCT 19 77)

(a) Facilities capital cost of money will be an allowable cost under the contemplated contract, if the criteria for allowability in subparagraph 31.205-10(a)(2) of the Federal Acquisition Regulation are met. One of the allowability criteria requires the prospective contractor to propose facilities capital cost of money in its offer.

(b) If the prospective Contractor does not propose this cost, the resulting contract will include the clause Waiver of Facilities Capital Cost of Money.

L.6 TYPE OF CONTRACT (FAR 52.216-1) (APR 1984)

The Government contemplates award of a Cost-Plus-Fixed-Fee contract resulting from this solicitation.

***** BEGIN DEVIATED CLAUSE TEXT *****

L.7 SERVICE OF PROTEST (FAR 52.233-2) (AUG 1996) DEVIATION

(a) Protests, as defined in Section 33.101 of the Federal Acquisition Regulation, that are filed directly with an agency, and copies of any protests that are filed with the General Accounting Office (GAO) shall be served on the Contracting Officer (addressed as follows) by obtaining written and dated acknowledgement of receipt from:

Franklin Miles

Hand-Carried Address:

Environmental Protection Agency

1300 Pennsylvania Avenue, N.W.
Washington, DC, DC 20004

Mailing Address:

Environmental Protection Agency
1200 Pennsylvania Avenue, N.W.
Washington, DC 20460

(b) The copy of any protest shall be received in the office designated above within one day of filing a protest with the GAO.

L.8 SOLICITATION PROVISIONS INCORPORATED BY REFERENCE (FAR 52.252-1) (FEB 1998)

This solicitation incorporates one or more solicitation provisions by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. The offeror is cautioned that the listed provisions may include blocks that must be completed by the offeror and submitted with its quotation or offer. In lieu of submitting the full text of those provisions, the offeror may identify the provision by paragraph identifier and provide the appropriate information with its quotation or offer. Also, the full text of a solicitation provision may be accessed electronically at this/these address(es):

DRAFT

[Insert one or more Internet addresses]

L.9 ORGANIZATIONAL CONFLICT OF INTEREST NOTIFICATION (EPAAR 1552.209-70) (APR 1984)

(a) The prospective Contractor certifies, to the best of its knowledge and belief, that it is not aware of any information bearing on the existence of any potential organizational conflict of interest. If the prospective Contractor cannot so certify, it shall provide a disclosure statement in its proposal which describes all relevant information concerning any past, present, or planned interests bearing on whether it (including its chief executives and directors, or any proposed consultant or subcontractor) may have a potential organizational conflict of interest.

(b) Prospective Contractors should refer to FAR Subpart 9.5 and EPAAR Part 1509 for policies and procedures for avoiding, neutralizing, or mitigating organizational conflicts of interest.

(c) If the Contracting Officer determines that a potential conflict exists, the prospective Contractor shall not receive an award unless the conflict can be avoided or otherwise resolved through the inclusion of a special contract clause or other

appropriate means. The terms of any special clause are subject to negotiation.

**L.10 PROPOSED CONTRACT START DATE--LEVEL OF EFFORT CONTRACT (EP 52.212-180)
(AUG 1984)**

For proposal preparation purposes, offerors may assume a contract start date of March 1, 2003 and that the required effort will be uniformly incurred throughout each contract period.

***** BEGIN CO ADDED CLAUSE TEXT *****

L.11 INSTRUCTIONS FOR PREPARATION OF PROPOSAL

The U.S. EPA intends to award this contract without discussions based on a combination of written and oral proposals.

INSTRUCTIONS FOR PREPARATION OF WRITTEN PROPOSALS

Responses submitted for this request for proposals (RFP) should adhere to the format and content instructions set forth below. These instructions have been specifically tailored to the process and the evaluation criteria to be applied during proposal evaluation. Any inconsistencies between the various sections of an Offeror's response must be fully explained. A significant inconsistency, if unexplained, may raise a fundamental question of the Offeror's understanding of the work required, and ability to perform the contract.

The Offeror's response should demonstrate their understanding of this procurement and capability for performance in a concise, logical, manner and should not contain superfluous material which is not directly related to this procurement.

DRAFT

A. Introduction. Each Offeror should submit 7 sets (a clearly marked original plus 6 copies with each Part and Section of information under a separate tab divider) of the following information in response to this request for proposals in accordance with the below instructions.

Cover Letter/Executive Summary (Not to exceed 2 pages) - A brief summary of the Offeror's capability in regards to this specific solicitation, within the page limitation.

Part I. Offer: Executed SF 33 and appropriate RFP SECTION fill-in information, including SECTION K, signed by an authorized organizational representative(see paragraph B below for more information);

Part II. Program Management and Qualifications/ Staffing: Written information outlining the Offeror's experience, past performance, staff capability and availability, and prior corporate experience.

Part III. Cost/Business: Written information supporting the Offeror's proposed costs and Business (Financial) Status.

Proposals shall be submitted on 8½ by 11 inch paper, except for foldouts used for charts, tables, appendices or diagrams, which shall not exceed 11 by 17 inches. A page is defined as one side of a piece of paper. A

piece of paper with printing on both sides is considered 2 pages. Proposals shall not exceed 30 pages.

All offerors submitting a proposal should conform to the instructions and rules of SECTION L in this solicitation. If an Offeror does not understand these instructions, then they should write to the Contracting Officer for clarification in accordance with "EP 52.215-110" as referenced earlier to get an answer in time to meet the solicitation deadline.

B. Offer (Part I). The Offeror shall include only the following in PART I:

1. RFP Section A, Standard Form (SF) 33, "Solicitation, Offer, and Award," blocks 12 through 18;
2. RFP Section B and H, "Estimated Cost and Fixed Fee," "Option to Extend the Term of the Contract--Cost Type Contract", with the Offeror's insertions of its proposed prices in the appropriate blank spaces for each contract line item on which the Offeror is making a proposal.
3. RFP Section H, "Key Personnel," with the Offeror's insertions of its proposed key personnel (be they prime or subcontractor personnel) in the appropriate space;
4. RFP Section K, "Representations, certifications, and other statements of offerors or quarters."
5. Organizational Conflicts of Interest Certification and Disclosure Subpart. Completed certification in accordance with Section K certification and disclosure in accordance with Section L
6. Statement, Briefly (not to exceed 1 page) state your agreement to all the terms and conditions of the contract resulting from this solicitation, which consists of RFP sections A through K, including all documents, exhibits, and other attachments that are incorporated therein by reference and made a part thereof, or provide an explanation for any exceptions.

NOTE: Offerors should not reproduce the entire contents of RFP Sections B through K. Only include those items necessary to evaluate the proposal.

The submission of these items in accordance with these instructions will, if the Government accepts the offer, contractually bind the Government and the successful Offeror to the terms and conditions of the contract (i.e., RFP sections A through K).

If an Offeror intends to make an alternate proposal of terms and conditions that differ from or supplement those contained in the contract, then the Offeror must state those alternate terms and conditions in a letter attached to the offer. The same representative of the Offeror who signed SF 33, block 17, must sign the letter. The Government warns Offerors that it reserves the right to award this contract without discussions, in accordance with FAR 15.306(a)(3) and 52.215-1(f)(4). By making an alternate proposal the Offeror

may, either intentionally or inadvertently, render its proposal unacceptable, unless the RFP expressly states that the Government will entertain an alternative proposal with regard to a specific term or condition of the request for proposals. In the absence of discussions, the Government will give Offerors no opportunity to modify their proposals to eliminate deficiencies.

C. Program Management and Qualifications (Part II).

Offerors should concentrate on the specialized technical requirements outlined in the Statement of Work of SECTION C and the Evaluation Criteria of SECTION M for this solicitation in the preparation of their technical proposal. For Part II, the Offeror must prepare and submit the following:

1. Experience/Past Performance Reference Matrix. Provide a Past Performance Reference Matrix in accordance with Section L clause entitled "Past Performance Information (EP 52.215-105) (DEC 95)."
2. Resumes for Proposed Key Personnel.
 - (a) Proposed key personnel are those persons, whether employed by the Offeror or by one of the Offeror's prospective subcontractors, who will act as the Program Manager and other persons that are critical to the work as stated in the tasks of the Statement of Work (SOW).

DRAFT

Resumes for key personnel (limited to 8 pages per resume) shall include education completed, and briefly/concisely identify verifiable experience with explanation skills and experiences directly related and relevant to this solicitation that will allow them to effectively serve in technical leadership roles as the offeror performs work under this solicitation.
 - (b) Briefly state your intentions for providing staff other than key personnel.
 - (c) Include as part of the staffing proposal a matrix outlining staff availability and overall time commitment for all other projects.
3. Staffing. Provide the following:
 - (a) staffing matrix by proposed labor categories by SOW performance area;
 - (b) identify the education/experience qualifications (resumes) for each labor category being proposed and not identified as a key personnel; and
 - (c) your organization/team staffing capabilities to include depth and breadth of skills, experience and personnel.

D. Cost/Business Proposal (Part III).

As prescribed by 52.215-1(f)(4), the Government may award a contract on the basis of initial offers received, without discussion. Therefore,

each initial offer should contain the Offeror's best terms from a price and technical standpoint.

A. Cost/Price Information

Adequate price competition is expected to exist, and this action is therefore exempt from the requirement for submission of cost or pricing data. In submitting your proposal, you must include an index, appropriately referenced, of all the pricing data and information accompanying or identified in the proposal.

Any information submitted must support the price proposed. Include sufficient detail or cross-references to clearly establish the relationship of the information provided to the price proposed. Support any information provided by explanation or supporting rationale as needed to permit the Government to evaluate the documentation. Such information is not considered cost or pricing data, and will not require certification in accordance with FAR 15.403-1.

Offerors shall submit a budget summary for the entire 60 month contract period of performance, and a separate summary for each year. Budget summaries shall *clearly identify* the following information as applicable:

1. Submit your price breakdown utilizing Standard Forms (SF) 1448 and a spreadsheet. Submit your price information as follows:
 - (i) Completed and signed Form SF-1448, summarizing the base period and all option years, with backup supporting details on a spreadsheet.
 - (ii) For the base period and for each year, provide a year summary on a SF-1448, with backup supporting details on a spreadsheet.
2. Submit with your proposal any information necessary to determine the reasonableness of your price/cost, including, the nature and amount of any contingencies included in the proposed price.
3. Offeror shall, at a minimum, briefly address the following areas:
 - (i) Labor Rates: Indicating the types or categories of labor being proposed together with labor hours for each category, indicating rate of compensation. State the number of any additional direct labor (new hires) will be required during the performance period of this acquisition.
 - (ii) Productive Hours: Provide your definition of productive hours and how vacation, sick and other types of leave are accounted for and charged.

- (iii) Indirect Rates: Discuss your proposed rates and your ceiling rates for all years. Identify all the various specific indirect rates including what they are (pool and base), and what they are based on (e.g., labor overhead based on direct labor dollars) and how they are applied/calculated. Offerors must provide dollar values as well as percentages. What will the impact be to your indirect rates if awarded the contract?
- (iv) Escalation: Include escalation in your labor rates, and identify yearly increases.
- (v) Subcontracting/Consultants: If subcontractors and/or individual consultants will be used in carrying out the requirements of this project, the following information concerning the subcontractor shall be furnished:

- (1) Name and address of the subcontractor or consultant.
- (2) Identify the individuals' name, positions and the portion of work to be conducted by the subcontractor or consultant.
- (3) Cost/price proposal (use SF 1448 with supporting information as necessary).

DRAFT

NOTE: Prime Contractors/Offerors are responsible for performing a cost/price analysis on all their proposed subcontractors/consultants in accordance with FAR 15.404-3. A cost/price analysis must accompany each named subcontractor/consultant as defined at FAR 15.404-3.

- (4) A letter or other statement from each proposed consultant and/or subcontractor indicating that they have been approached on the matter of participation in this project and are willing and able to do so in the terms indicated.
- (5) A cost or price analysis of each subcontractor /consultant proposal as required under FAR 15.404-3.

Include the percentage of subcontracting in terms of direct productive hours and in dollars.

- (vi) Contingencies: In addition, submit any information reasonably required to explain your cost/price proposal including the nature and amount of any contingencies included in the proposed cost/price.
- (vii) Other Direct Costs: In your proposals, offerors are to include any other ODCs they believe necessary. Offerors are to provide a breakout of ODCs by category, task and year, based on their proposal.

(viii) Fee: The fee must not exceed the statutory limitations on fee as stated in FAR 15.404-4(c)(4)(i).

4. Other Division: If other divisions, subsidiaries, a parent or affiliated companies, will perform work or furnish materials under this proposed contract, please provide the name and location of such affiliate and your intercompany pricing policy.
5. Right of Examination: In accordance with FAR 52.215-2, "Audit and Records - Negotiation," the U.S. EPA reserves the right to perform adequate evaluations as necessary to determine reasonableness.
6. Facilities Capital and Cost of Money. If you intend to claim facilities capital and cost of money as a cost element of your proposal, you must complete and include Form CASB-CMF in your cost proposal. Form CASB-CMF is not required of Offerors who submit the form to support forward pricing rate agreements or who otherwise make annual submissions of the form to U.S. EPA or a cognizant administrative or auditing office.
7. ADP Services/Equipment. If Contractor-owned (including leased/rented) ADP services are anticipated in carrying out the requirements of the project, the information shall be documented by the Contractor on a separate sheet of paper and returned with the SF 1448. If there will be no Contractor-owned equipment/software utilized, so indicate in the proposal.
8. Subcontracting Plan. As prescribed by FAR 52.219-9, if the total contract price is expected to exceed \$500,000, the offeror shall include a statement of circumstances relative to subcontracting opportunities under the proposed contract. The offeror shall state that there will be subcontracting, or that the offeror has determined that all work will be done in-house. If there will be subcontracting opportunities, the offeror shall submit a subcontracting plan as prescribed in FAR 52.219-9. If it is determined there will not be subcontracting opportunities, the offeror shall submit a statement of circumstances supporting this determination. All subcontracting plans and statements supporting the absence of subcontracting opportunities must be acceptable to the Contracting Officer. Failure to submit and negotiate an acceptable subcontracting plan or a statement supporting the absence of subcontracting opportunities shall render the offeror ineligible for award of a contract.

Subcontracting plans must provide breakouts of percentages and dollar values associated with small businesses, small disadvantaged businesses, woman-owned businesses, historically black universities, and other minority institutions as compared to the total amount bid for this effort.

NOTE: U.S. EPA subcontracting goals are as follows: Small Businesses 50%; Small Disadvantaged Businesses 10%; Women-Owned Businesses 10%. Each proposal will be evaluated on a case-by-case basis. The participation of small businesses, small disadvantaged businesses, woman-owned businesses, historically black universities, and other minority institutions, is encouraged. The

subcontracting plan will be considered in the ultimate award decision. See Section M, Evaluation Factors for Award.

INSTRUCTIONS FOR ORAL PRESENTATIONS

E. Oral Presentation Format

Oral Presentations Transparencies. All Offerors will be required to provide 7 copies of the transparencies at the beginning of their oral presentation. Guidelines for transparency preparation are provided at paragraph E6, below. Offerors are allowed to bring their own presentation equipment

1. Purpose. The oral presentation is a test to enable the evaluation board to assess each Offeror's relative level of familiarity with, and understanding of the work that it would perform under the prospective contract. The Offeror's representatives must show by their presentation and by their answers to the Government's questions that they understand the Government's requirements; that they are familiar with the kinds of problems that may develop during performance; and that they are capable of developing practicable and effective solutions to those problems.

NOTE: Oral presentations will occur during a workweek approximately one to five weeks after proposals are due unless otherwise directed by the Government.

2. Schedule. The Contracting Officer will schedule all oral presentations as close together as possible, on a random basis, and will notify each Offeror of the scheduled date, time, and location of its presentation. The Offeror must make its oral presentation in accordance with these instructions and any additional instruction that the Contracting Officer may provide. Oral presentations are not subject to the rules for the late submission of proposals in FAR 52.215-1(c)(3). An Offeror's oral presentation may be rescheduled at the sole discretion of the Contracting Officer.

The total time scheduled for oral presentations is approximately six hours. The proposed schedule for oral presentations is:

8:30 - 9:30	Contractors present their program management and technical abilities for fulfilling the tasks of the SOW
9:30 - 9:45	Break
9:45 - 11:45	Contractors present their response to Sample Work Assignments #1 and #2 (Attachment 6)
11:45 - 1:00	Lunch Break

1:00 - 2:00 Response to Government Prepared Questions (or pop quiz).

2:00 - 2:30 Clarifying questions IAW 15.306(a)(1)(2).

The same government prepared questions will be presented to each offeror during the time allotted. At the conclusion of the offeror's response to the government prepared questions, the government has allotted time for any additional clarifications. The oral presentations, including responses to the sample work assignments, the government prepared questions and the clarifying questions will be videotaped by the Government to be used during scoring of the technical proposal. A copy of the videotape will not be provided to the offeror. The offeror may not videotape or otherwise record these events.

The Contracting Officer will tell the Offeror when to start its presentation, keep time, and stop the presentation at the end of the presentation time period whether or not the Offeror has finished.

3. Participation and Attendance. The Offeror's presenter(s) must be chosen from among the Offeror's proposed key personnel and must include the proposed Project Manager. The Offeror may not use a professional speaker or consultant to make its presentation. The Offeror may send no more than 6 representatives to the oral presentation.
4. Questions. During the presentation the Government's representative will not interrupt the Offeror to ask questions (except to request the repetition of inaudible words or statements or the explanation of terms that are unknown to them) or otherwise engage the Offeror in any dialogue.

At the conclusion of the presentation, a representative "pop quiz" question(s) will be given to the offeror to test their capability/response on the subject matter. The same "pop quiz" question(s) will be asked of all offerors. There will be a short break which will allow the offeror time to prepare a response. The session will resume, at which point the offeror will present their solution to the "pop quiz." A question and answer session will follow addressing information which may need further clarification. The time allowed for this session is above and beyond the time allotted for the Offeror's oral presentation and demonstration.

Because the oral presentation and the question and answer session are tests of the Offeror's capability and not a part of a proposal, neither the oral presentation nor the question and answer session will constitute discussions, as that term is defined and used in FAR subpart 15.306. If the Government decides that discussions are necessary notwithstanding its intention to award a contract without discussions, then the Government will not discuss the Offeror's oral presentation or the answers that it gave during the question and answer session that followed. The Government will not solicit or entertain revisions to the Offeror's oral presentation or to its answers to questions, either

as a part of any revision to an offer, including a final offer, or independently.

5. Topics. During the oral presentation, the Offeror shall address their program management and technical ability to perform the prospective contract (refer to Section M evaluation factors). As a minimum, the Offeror shall address the following:
 - (i) Introduction of the Contractor team and presenting personnel (roles within the team structure);
 - (ii) Overview of technical and management approach for performing the tasks as outlined in the Statement of Work (SOW) (Task 1.0 Technical Assistance);
 - (iii) Demonstration of the offeror's capability to perform the work as outlined in the SOW; and

6. Presentation Media. The Offeror may not present or distribute any additional documentation (such as manuals, handbooks, guides, etc.) which may or may not have been referenced during the presentation. The Government will provide an overhead projector for the Offeror's use during the oral presentation session. The Offeror is responsible for assigning one of the presenting team members to flip the view graphs. The Offeror is allowed to bring their own presentation equipment.

The Offeror may bring their own presentation materials. The offeror shall submit their overhead slides (as stated on page 11 of 20) in 7 sets (an original plus 6 copies) of 8½ inch by 11 inch, landscape orientation, with paper copies of its overhead slides. The Offeror must number the pages of the paper copies, and bind each set in a three-ring loose-leaf binder. In order to ensure the integrity of the source selection process, the Offeror shall use the overhead slides or presentation materials submitted to the Government with its proposal when making its oral presentation, without any alteration. The evaluation board may review the copies of the slides prior to the presentation. The Offeror may submit no other documentation for its oral presentation. When evaluating the Offeror's oral presentation the Government will consider only those overhead slides or presentation materials that were actually projected and addressed by the Offeror during its presentation. The Contracting Officer will not permit the Offeror to use slides or presentation materials during the clarification question and answer session that were not projected and discussed during the presentation.

If the contractor chooses to bring their own presentation equipment, the contractor will be responsible for all operations. The government will be responsible for providing a power source.

***** END CO ADDED CLAUSE TEXT *****

***** END CO ADDED CLAUSE TEXT *****

L.12 PAST PERFORMANCE INFORMATION (EPAAR 1552.215-75) (OCT 2000)

(a) Offerors shall submit the information requested below as part of their proposal for both the offeror and any proposed subcontractors for subcontracts expected to exceed \$100,000. The information may be submitted prior to other parts of the proposal in order to assist the Government in reducing the evaluation period.

(b) Offerors shall submit a list of all or at least no more than TEN (10) contracts and subcontracts completed in the last THREE (3) years, and all contracts and subcontracts currently in process, which are similar in nature to this requirement.

(1) The contracts and subcontracts listed may include those entered into with Federal, State and local governments, and commercial businesses, which are of similar scope, magnitude, relevance, and complexity to the requirement which is described in the RFP. Include the following information for each contract and subcontract listed:

- (a) Name of contracting activity.
- (b) Contract number.
- (c) Contract title.
- (d) Contract type.
- (e) Brief description of contract or subcontract and relevance to this requirement.
- (f) Total contract value.
- (g) Period of performance.
- (h) Contracting officer, telephone number, and E-mail address (if available).
- (i) Program manager/project officer, telephone number, and E-mail address (if available).
- (j) Administrative Contracting officer, if different from (h) above, telephone number, and E-mail address (if available).
- (k) List of subcontractors (if applicable).
- (l) Compliance with subcontracting plan goals for small disadvantaged business concerns, monetary targets for small disadvantaged business participation, and the notifications submitted under FAR 19.1202-4 (b), if applicable.

(c) Offerors should not provide general information on their performance on the identified contracts and subcontracts. General performance information will be obtained from the references.

(1) Offerors may provide information on problems encountered and corrective actions taken on the identified contracts and subcontracts.

(2) References that may be contacted by the Government include the contracting officer, program manager/project officer, or the administrative contracting officer identified above.

(3) If no response is received from a reference, the Government will make an attempt to contact another reference identified by the offeror, to

contact a reference not identified by the offeror, or to complete the evaluation with those references who responded. The Government shall consider the information provided by the references, and may also consider information obtained from other sources, when evaluating an offeror's past performance.

(4) Attempts to obtain responses from references will generally not go beyond two telephonic messages and/or written requests from the Government, unless otherwise stated in the solicitation. The Government is not obligated to contact all of the references identified by the offeror.

(d) If negative feedback is received from an offeror's reference, the Government will compare the negative response to the responses from the offeror's other references to note differences. A score will be assigned appropriately to the offeror based on the information. The offeror will be given the opportunity to address adverse past performance information obtained from references on which the offeror has not had a previous opportunity to comment, if that information makes a difference in the Government's decision to include the offeror in or exclude the offeror from the competitive range. Any past performance deficiency or significant weakness will be discussed with offerors in the competitive range during discussions.

(e) Offerors must send Client Authorization Letters (see Section J of the solicitation) to each reference listed in their proposal to assist in the timely processing of the past performance evaluation. Offerors are encouraged to consolidate requests whenever possible (i.e., if the same reference has several contracts, send that reference a single notice citing all applicable contracts). Offerors may send Client Authorization Letters electronically to references with copies furnished to the contracting officer.

(1) If an offeror has no relevant past performance history, an offeror must affirmatively state that it possesses no relevant past performance history.

(2) Client Authorization Letters should be mailed or E-mailed to individual references no later than five (5) working days after proposal submission. The offeror should forward a copy of the Client Authorization Letter to the contracting officer simultaneously with mailing to references.

(f) Each offeror may describe any quality awards or certifications that indicate the offeror possesses a high-quality process for developing and producing the product or service required. Such awards or certifications include, for example, the Malcolm Baldrige Quality Award, other Government quality awards, and private sector awards or certifications.

(1) Identify the segment of the company (one division or the entire company) which received the award or certification.

(2) Describe when the award or certification was bestowed. If the award or certification is over three years old, present evidence that the qualifications still apply.

(g) Past performance information will be used for both responsibility determinations and as an evaluation factor for award. The Past Performance Questionnaire identified in section J will be used to collect information on an offeror's performance under existing and prior contracts/subcontracts for products or services similar in scope, magnitude, relevance, and complexity to

this requirement in order to evaluate offerors consistent with the past performance evaluation factor set forth in section M. References other than those identified by the offeror may be contacted by the Government and used in the evaluation of the offeror's past performance.

(h) Any information collected concerning an offeror's past performance will be maintained in the official contract file.

(i) In accordance with FAR 15.305 (a) (2) (iv), offerors with no relevant past performance history, or for whom information on past performance is not available, will be evaluated neither favorably nor unfavorably on past performance.

L.13 TECHNICAL QUESTIONS (EP 52.215-110) (APR 1984)

Offerors must submit all technical questions concerning this solicitation in writing to the contract specialist. EPA must receive the questions no later than TEN (10) calendar days after the date of this solicitation. EPA will answer questions which may affect offers in an amendment to the solicitation. EPA will not reference the source of the questions.

L.14 RELEASE OF COST OR PRICING PROPOSALS OUTSIDE THE GOVERNMENT FOR AUDIT (EP 52.215-115) (MAR 1989)

Cost or pricing proposals submitted in response to this solicitation may be released outside the Government for audit purposes regardless of whether information contained in such proposals has been claimed or determined to be business confidential. If an outside audit is obtained, the non-Government auditor shall use the information only for audit purposes; shall not disclose any information from the proposals to anyone other than authorized EPA employees without the prior written approval of the Assistant General Counsel responsible for information law matters; and shall return all copies of proposals, as well as any abstracts, to the Government upon completion of the audit. The non-Government auditor shall obtain a written agreement from each of its employees with access to the proposals to honor these limitations prior to allowing the employee access.

EVALUATION OF OTHER DIRECT COSTS (EP 52.215-130) (APR 1984)

This clause has been excluded by user selection.

L.15 PROCEDURES FOR PARTICIPATION IN THE EPA MENTOR-PROTEGE PROGRAM (EPAAR 1552.219-71) (OCT 2000)

(a) This provision sets forth the procedures for participation in the EPA Mentor-Protege Program (hereafter referred to as the Program). The purpose of the Program is to increase the participation of concerns owned and/or controlled by socially and economically disadvantaged individuals as subcontractors, suppliers, and ultimately as prime contractors; to establish a mutually beneficial relationship between these concerns and EPA's large business prime contractors (although small businesses may participate as Mentors); to develop the technical and corporate administrative expertise of these concerns, which will ultimately lead to greater success in competition

for contract opportunities; to promote the economic stability of these concerns; and to aid in the achievement of goals for the use of these concerns in subcontracting activities under EPA contracts. If the successful offeror is accepted into the Program they shall serve as a Mentor to a Protege firm(s), providing developmental assistance in accordance with an agreement with the Protege firm(s).

(b) To participate as a Mentor, the offeror must receive approval in accordance with paragraph (h) of this section.

(c) A Protege must be a concern owned and/or controlled by socially and economically disadvantaged individuals within the meaning of section 8(a)(5) and (6) of the Small Business Act (15 U.S.C. 673(a)(5) and (6)), including historically black colleges and universities. Further, in accordance with Public Law 102-389 (the 1993 Appropriation Act), for EPA's contracting purposes, economically and socially disadvantaged individuals shall be deemed to include women.

(d) Where there may be a concern regarding the Protege firm's eligibility to participate in the program, the protege's eligibility will be determined by the contracting officer after the SBA has completed any formal determinations.

(e) The offeror shall submit an application in accordance with paragraph (k) of this section as part of its proposal which shall include as a minimum the following information:

(1) A statement and supporting documentation that the offeror is currently performing under at least one active Federal contract with an approved subcontracting plan and is eligible for the award of Federal contracts;

(2) A summary of the offeror's historical and recent activities and accomplishments under any disadvantaged subcontracting programs. The offeror is encouraged to include any initiatives or outreach information believed pertinent to approval as a Mentor firm;

(3) The total dollar amount (including the value of all option periods or quantities) of EPA contracts and subcontracts received by the offeror during its two preceding fiscal years. (Show prime contracts and subcontracts separately per year);

(4) The total dollar amount and percentage of subcontract awards made to all concerns owned and/or controlled by disadvantaged individuals under EPA contracts during its two preceding fiscal years. If recently required to submit a SF 295, provide copies of the two preceding year's reports;

(5) The number and total dollar amount of subcontract awards made to the identified Protege firm(s) during the two preceding fiscal years (if any).

(f) In addition to the information required by paragraph (e) of this section, the offeror shall submit as a part of the application the following information for each proposed Mentor-Protege relationship:

(1) Information on the offeror's ability to provide developmental assistance to the identified Protege firm and how the assistance will

potentially increase contracting and subcontracting opportunities for the Protege firm.

(2) A letter of intent indicating that both the Mentor firm and the Protege firm intend to enter into a contractual relationship under which the Protege will perform as a subcontractor under the contract resulting from this solicitation and that the firms will negotiate a Mentor-Protege agreement. The letter of intent must be signed by both parties and contain the following information:

(i) The name, address and phone number of both parties;

(ii) The Protege firm's business classification, based upon the NAICS code(s) which represents the contemplated supplies or services to be provided by the Protege firm to the Mentor firm;

(iii) A statement that the Protege firm meets the eligibility criteria;

(iv) A preliminary assessment of the developmental needs of the Protege firm and the proposed developmental assistance the Mentor firm envisions providing the Protege. The offeror shall address those needs and how their assistance will enhance the Protege. The offeror shall develop a schedule to assess the needs of the Protege and establish criteria to evaluate the success in the Program;

(v) A statement that if the offeror or Protege firm is suspended or debarred while performing under an approved Mentor-Protege agreement the offeror shall promptly give notice of the suspension or debarment to the EPA Office of Small Business Utilization (OSDBU) and the contracting officer. The statement shall require the Protege firm to notify the Contractor if it is suspended or debarred.

(g) The application will be evaluated on the extent to which the offeror's proposal addresses the items listed in paragraphs (e) and (f) of this section. To the maximum extent possible, the application should be limited to not more than 10 single pages, double spaced. The offeror may identify more than one Protege in its application.

(h) If the offeror is determined to be in the competitive range, or is awarded a contract without discussions, the offeror will be advised by the contracting officer whether their application is approved or rejected. The contracting officer, if necessary, may request additional information in connection with the offeror's submission of its revised or best and final offer. If the successful offeror has submitted an approved application, they shall comply with the clause titled "Mentor-Protege Program."

(i) Subcontracts of \$1,000,000 or less awarded to firms approved as Proteges under the Program are exempt from the requirements for competition set forth in FAR 44.202-2(a)(5), and 52.244-5(b). However, price reasonableness must still be determined and the requirements in FAR 44.202-2(a)(8) for cost and price analysis continue to apply.

(j) Costs incurred by the offeror in fulfilling their agreement(s) with a Protege firm(s) are not reimbursable as a direct cost under the contract. Unless EPA is the responsible audit agency under FAR 42.703-1, offerors are

encouraged to enter into an advance agreement with their responsible audit agency on the treatment of such costs when determining indirect cost rates. Where EPA is the responsible audit agency, these costs will be considered in determining indirect cost rates.

(k) Submission of Application and Questions Concerning the Program. The application for the Program for Headquarters and Regional procurements shall be submitted to the contracting officer, and to the EPA OSDBU at the following address:

Socioeconomic Business Program Officer,
Office of Small and Disadvantaged Business Utilization,
U.S. Environmental Protection Agency,
Ariel Rios Building (1230A),
1200 Pennsylvania Avenue, NW,
Washington, DC 20460,
Telephone: (202) 564-4322,
Fax: (202) 565-2473.

The application for the Program for RTP procurements shall be submitted to the contracting officer, and to the Small Business Specialist at the following address:

Small Business Program Officer,
RTP Procurement Operations Division (E105-02),
U.S. Environmental Protection Agency,
Research Triangle Park, NC 27711,
Telephone: (919) 541-2249,
Fax: (919) 541-5139.

DRAFT

The application for the Program for Cincinnati procurements shall be submitted to the contracting officer, and to the Small Business Specialist at the following address:

Small and Disadvantaged Business Utilization Officer,
Cincinnati Procurement Operations Division (CPOD-Norwood),
U.S. Environmental Protection Agency,
26 West Martin Luther King Drive,
Cincinnati, OH 45268,
Telephone: (513) 487-2024
Fax: (513) 487-2004.

**L.16 SMALL DISADVANTAGED BUSINESS PARTICIPATION PROGRAM (EPAAR 1552.219-72)
(OCT 2000)**

(a) Section M of this solicitation contains a source selection factor or subfactor related to the participation of small disadvantaged business (SDB) concerns in the performance of the contract. The nature of the evaluation of an SDB offeror under this evaluation factor or subfactor is dependent upon whether the SDB concern qualifies for the price evaluation adjustment under the clause at FAR 52.219-23, Notice of Price Evaluation Adjustment for Small Disadvantaged Business Concerns and whether the SDB concern specifically waives this price evaluation adjustment.

(b) In order to be evaluated under the source selection factor or subfactor, an offeror must provide, with its offer, the following information:

(1) The extent of participation of SDB concerns in the performance of the contract in terms of the value of the total acquisition. Specifically, offerors must provide targets, expressed as dollars and percentages of the total contract value, for SDB participation in the applicable and authorized North American Industry Classification System (NAICS) Industry Subsectors as determined by the Department of Commerce. Total dollar and percentage targets must be provided for SDB participation by the prime contractor, including team members and joint venture partners. In addition, total dollar and percentage targets for SDB participation by subcontractors must be provided and listed separately;

(2) The specific identification of SDB concerns to be involved in the performance of the contract;

(3) The extent of commitment to use SDB concerns in the performance of the contract:

(4) The complexity and variety of the work the SDB concerns are to perform; and

(5) The realism of the proposal to use SDB concerns in the performance of the contract

(c) An SDB offeror who waives the price evaluation adjustment provided in FAR 52.219-23 shall provide, with their offer, targets, expressed as dollars and percentages of the total contract value, for the work that it intends to perform as the prime contractor in the applicable and authorized North American Industry Classification System (NAICS) Industry Subsectors as determined by the Department of Commerce. All of the offeror's identified targets described in paragraphs (b) and (c) of this clause will be incorporated into and made part of any resulting contract.

***** END OPTIONAL CLAUSE TEXT INCLUDED *****

**L.17 IDENTIFICATION OF SET-ASIDE/8A PROGRAM APPLICABILITY (EP 52.219-100)
(FEB 1991)**

This new procurement is being processed as follows:

(a) Type of set-aside: No Applicable Set-Aside

Percent of the set-aside: N/A

(b) 8(a) Program: Not Applicable

**L.18 SUBCONTRACTING PROGRAM PLAN FOR UTILIZATION OF SMALL BUSINESS AND SMALL
DISADVANTAGED BUSINESS CONCERNS (EP 52.219-125) (AUG 1984)**

As part of the initial offer, offerors shall submit a subcontracting plan as called for by FAR 52.219-9.

**L.19 NOTICE OF FILING REQUIREMENTS FOR AGENCY PROTESTS (EPAAR 1552.233-70)
(JUL 1999)**

Agency protests must be filed with the Contracting Officer in accordance with the requirements of FAR 33.103(d) and (e). Within 10 calendar days after receipt of an adverse Contracting Officer decision, the protester may submit a written request for an independent review by the Head of the Contracting Activity. This independent review is available only as an appeal of a Contracting Officer decision on a protest. Accordingly, as provided in 4 CFR 21.2(a)(3), any protest to the GAO must be filed within 10 days of knowledge of the initial adverse Agency action.

**L.20 ACCESS TO FEDERAL INSECTICIDE, FUNGICIDE, AND RODENTICIDE ACT
CONFIDENTIAL BUSINESS INFORMATION (EPAAR 1552.235-73) (APR 1996)**

In order to perform duties under the contract, the Contractor will need to be authorized for access to Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) confidential business information (CBI). The Contractor and all of its employees handling CBI while working under the contract will be required to follow the procedures contained in the security manual entitled "FIFRA Information Security Manual." These procedures include applying for FIFRA CBI access authorization for each individual working under the contract who will have access to FIFRA CBI, execution of confidentiality agreements, and designation by the Contractor of an individual to serve as a Document Control Officer. The Contractor will be required to abide by those clauses contained in EPAAR 1552.235-70, 1552.235-71, and 1552.235-77 that are appropriate to the activities set forth in the contract.

Until EPA has approved the Contractor's security plan, the Contractor may not be authorized for FIFRA CBI access away from EPA facilities.

***** END EXCLUDED CLAUSE TEXT INCLUDED *****

***** BEGIN EXCLUDED CLAUSE TEXT INCLUDED *****

**L.21 ACCESS TO TOXIC SUBSTANCES CONTROL ACT CONFIDENTIAL BUSINESS INFORMATION
(EPAAR 1552.235-75) (APR 1996)**

In order to perform duties under the contract, the Contractor will need to be authorized for access to Toxic Substances Control Act (TSCA) confidential business information (CBI). The Contractor and all of its employees handling CBI while working under the contract will be required to follow the procedures contained in the security manual entitled "TSCA Confidential Business Information Security Manual." These procedures include applying for TSCA CBI access authorization for each individual working under the contract who will have access to TSCA CBI, execution of confidentiality agreements, and designation by the Contractor of an individual to serve as a Document Control Officer. The Contractor will be required to abide by those clauses contained in EPAAR 1552.235-70, 1552.235-71, and 1552.235-78 that are appropriate to the activities set forth in the contract.

Until EPA has inspected and approved the Contractor's facilities, the Contractor may not be authorized for TSCA CBI access away from EPA facilities.

***** END EXCLUDED CLAUSE TEXT INCLUDED *****

***** BEGIN OPTIONAL CLAUSE TEXT INCLUDED *****

L.22 ADDITIONAL BID/PROPOSAL SUBMISSION INSTRUCTIONS (EP-S 99-2) (MAR 1999)**a. General Instructions**

These instructions are in addition to the applicable requirements and clauses set forth in the Federal Acquisition Regulation regarding bid/proposal submission and late bid/proposals. Please note that there are distinct addresses designated for bid/proposal submission on the SF 33. Block 7 designates the location specified for delivery of hand carried/courier/overnight delivery service bids/proposals while Block 8 indicates the address specified for receipt of bid/proposals sent by U.S. Mail. Bidders/Offerors are responsible for ensuring that their bids/proposals (and any amendments, modifications, withdrawals, or revisions thereto) are submitted so as to reach the Government office designated on the SF 33 prior to the designated date and time established for receipt. Bidders and offerors are also responsible for allowing sufficient time for the bid/proposal to be processed through EPA's internal mail distribution system described below so as to reach the designated location for bid/proposal receipt on time. Failure to timely deliver a bid/proposal to the EPA Bid & Proposal Room on the 6th floor of the Ronald Reagan Building, which is the location designated for bid/proposal receipt in blocks 7 and 8 of the SF 33, will render the bid/proposal "late" in accordance with FAR 14.304 and/or 15.208 and disposition of the bid/proposal will be handled in accordance with FAR 14.304 and 52.214-7 for bids and FAR 15.208 and 52.215-1 for proposal. Bidders/Offerors are cautioned that receipt of a bid/proposal by the Agency's mail room or other central receiving facility does not constitute receipt by the office designated in the solicitation/invitation for bids.

DRAFT**b. U.S. Mail Delivery-SF 33 Block 8**

Block 8 on the SF 33 indicates that bids/proposals sent by U.S. Mail must be timely received by the Bid & Proposal Room, Mail Code 3802R. Because EPA adheres to a centralized mail delivery system, any bid/proposal submitted via U.S. Mail to the address specified in block 8 of the SF 33 is initially routed to EPA's mail handling facility at another location in S.W. Washington, DC, and then subsequently routed to EPA's Bid & Proposal Room (Mail Code 3802R) located on the 6th floor of the Ronald Reagan Building. The Bid and Proposal Room on the 6th floor of the Ronald Reagan Building is geographically distinct and is not co-located with the mail handling facility. Bids/proposals sent by U.S. Mail, therefore, will not be considered "received" until such time as they are physically delivered via EPA's mail distribution system to the EPA Bid & Proposal Room in the Ronald Reagan Building. Bidders/Offerors electing to utilize the U.S. Mail for bid/proposal delivery should therefore allow sufficient time prior to the designated time and date for bid/proposal receipt as specified in Block 9 of the SF 33 to allow for the internal routing of their bid/proposal to the EPA Bid & Proposal Room.

All bids/proposals submitted other than by U.S. Mail should utilize the Hand Carried/Courier/Overnight Delivery Service address specified in Block 7 of the SF 33.

c. Hand Carried/Courier Delivery- SF 33 Block 7

SECTION M - EVALUATION FACTORS FOR AWARD

***** BEGIN CO ADDED CLAUSE TEXT *****

M.1 EVALUATION OF CONFLICT OF INTEREST PLAN - RESPONSIBILITY DETERMINATION

The Conflict of Interest Plan described in Provision L.2, "Submittal of Conflict of interest Plan" will be evaluated as acceptable or not acceptable. Not withstanding the evaluation of an offeror with respect to the technical evaluation criteria or an offeror's cost, an offeror that submits a plan that ultimately is unacceptable after the completion of negotiations will not be eligible for award. The contractor's COI Plan will be evaluated as part of the contractor's responsibility evaluation.

***** END CO ADDED CLAUSE TEXT *****

EPA SOURCE EVALUATION AND SELECTION PROCEDURES--NEGOTIATED PROCUREMENTS (EPAAR 1552.215-70) (AUG 1999)

This clause has been excluded by user selection.

***** BEGIN EXCLUDED/CUSTOMIZED CLAUSE TEXT *****

M.2 EVALUATION FACTORS FOR AWARD (EPAAR 1552.215-71) (AUG 1999) ALTERNATE II (AUG 1999)

(a) The Government will make award to the responsible offeror(s) whose offer conforms to the solicitation and is most advantageous to the Government cost or other factors considered. For this solicitation, all evaluation factors other than cost or price when combined are approximately equal to cost or price. Additionally, the offeror will be evaluated based on the contract's cost realism. Specifically, the government will look at the cost of the contract, the proposed labor mix, the supporting rationale, and the average cost per task to evaluate the demonstrated understanding and ability to accomplish the technical requirements in this contract.

(b) Evaluation factors and significant subfactors to determine the quality of product or service:

<u>Evaluation Factors</u>	<u>Maximum</u>
<u>Points</u>	
Factor 1. Program Management and Qualifications	15 Points
The offeror will be evaluated on their prior corporate and staff experience in performing the tasks 1-7 described in the SOW.	
The offeror will also be evaluated on the basis of their	

ability to plan, organize, staff, administer, manage, coordinate, monitor, conduct quality assurance and control, and communicate the contract activities as described in the SOW.

Factor 2. Technical Ability

55 Points

A. The offeror will be evaluated on its demonstrated understanding and ability to perform tasks 1-7 described in the SOW. This will include the offerors knowledge of RCRA programs and regulations. The offeror will be evaluated on its response to the Sample Work Assignments #1 and #2. Specifically, the offeror will be evaluated on its demonstrated understanding and ability to perform SOW Tasks 1 and 3, 4, 5 for sample work assignment #1 and Tasks 1, 3, 4, 5 and 6, for work assignment #2.

B. The offeror will be evaluated on its response to the Impromptu Questions. Specifically, the offeror will be evaluated on its demonstrated understanding and ability to perform the statement of work.

Factor 3. Past Performance

25 Points

The Government will evaluate the merits of each offeror's past performance. FAR Clause L- Past Performance Info. (EPA/R 1552.21 -75)

Additionally, the relevance of the offeror's previous performance to the task areas of the Statement of Work and the contract requirements will be considered as part of the past performance evaluation.

Factor 4. Small Disadvantaged Business Participation

5 Points

Under this factor, offerors will be evaluated based on the demonstrated extent of participation of small disadvantaged business (SDB) concerns in the performance of the contract in each of the authorized and applicable North American Industry Classification System (NAICS) Industry Subsectors as determined by the Department of Commerce. As part of this evaluation, offerors will be evaluated based on:

- (1) The extent to which SDB concerns are specifically identified to participate in the performance of the contract;
- (2) The extent of the commitment to use SDB concerns in the performance of the contract (enforceable commitments will be weighed more heavily than nonenforceable commitments);
- (3) The complexity and variety of the work the SDB concerns are to perform under the contract;

(4) The realism of the proposal to use SDB concerns in the performance of the contract; and

(5) The extent of participation of SDB concerns, at the prime contractor and subcontractor level, in the performance of the contract (in the authorized and applicable NAICS Industry Subsectors in terms of dollars and percentages of the total contract value.

MINIMUM STANDARDS FOR COI PLAN

**MINIMUM STANDARDS FOR EPA CONTRACTORS'
CONFLICT OF INTEREST PLANS****1. PURPOSE**

The Environmental Protection Agency (EPA) has identified a need to avoid, neutralize, or mitigate actual and potential contractor conflicts of interest (COI). In order to avoid, neutralize, or mitigate conflicts, contractors are required to have a COI plan for identifying and reporting actual and potential COI. The purpose of this document is to set forth the minimum standards for a contractor's COI plan.

2. COI PLAN

The contractor's COI Plan is a document which describes the procedures a company uses to identify and report COI. Generally, a contractor's corporate COI plan will describe how a company, in its entirety, addresses conflicts, and will not be contract or program specific. The plan may also describe the options a company will consider proposing to avoid, neutralize, or mitigate a COI whenever a conflict is identified. The plan will be evaluated and approved* by the applicable EPA Contracting Officer (CO) if the COI Plan meets the EPA's minimum requirements for detecting and reporting conflicts of interest. Contractors' COI Plans shall be identified by version number and date, as appropriate. In addition, when applicable, please also identify the version number and date of any previously submitted COI Plans to the Agency, to whom (name, title, and phone number) the COI Plan was submitted, what the solicitation(s)/contract(s) numbers were, and if and when the COI Plan was approved.

* COs may accept another CO's prior approval of the same version of a contractor's COI Plan when appropriate. COs however, are not required to accept another CO's decision if the CO performs his/her own independent evaluation.

3. MINIMUM STANDARDS FOR CONTRACTORS' COI PLANS**A. Corporate Structure**

The COI Plan shall describe any parent relationship and list all affiliates, subsidiaries, and sister companies, etc. Generally, this need not exceed three corporate tiers, unless a relationship exists beyond three tiers that would potentially create a conflict. In such a case, relationships beyond three tiers should also be included in the COI Plan. Contractors should report changes in its' corporate structure to the Agency throughout contract performance.

Contractors are invited to include under this section, a company profile. The profile should discuss all pertinent information relevant to COI including a summary of a contractor's primary and/or environmental business functions and activities. This background information will potentially be very useful to contracting officers and the Agency when evaluating whether or not a contractor has a COI.

B. Searching and Identifying COI

The COI Plan shall include a requirement describing when a COI search must be performed by company personnel and clearly identify the procedures to be followed. The searching requirement shall encompass all work related to all clients for whom work was performed over the past three years, all current work, all sites (if applicable), and any future work reflected in marketing proposals. Contractors must search their records over the past 36 months from time of receipt of the work from EPA. However, EPA encourages contractors to search back as far as a company's records cover.

C. Data Base

The COI Plan shall require a data base that includes all necessary information for a contractor to review its past work (at a minimum over the past 36 months), work in progress, and work the company may be pursuing under any marketing proposals. This requirement does not establish any particular type or kind of retrieval system, however, the data base shall contain, at a minimum, the following information and capabilities.

- (1) a list of the company's past and public clients;
- (2) a description of the type(s) of work that was performed and any other pertinent information;
- (3) a list of the past sites (when applicable) a contractor has worked on;
- (4) a list of site name(s) (when applicable) related to any work performed; and
- (5) the ability to search and retrieve the information in the data base.

If applicable, the COI Plan shall include provisions for supplemental searches of a parents, affiliates, subsidiaries, or sister company's records. The COI Plan shall also describe any cross-checks used by the company when searching COI issues.

D. Personal Certification

At a minimum, the COI Plan shall require ALL employees of the company performing work under an EPA Superfund and/or Non-Superfund contract, including work on a site, work relating to a site, or work pertaining to a CERCLA/RCRA action or work that may endanger a CERCLA enforcement action, to sign a personal certification. It should be noted however, that it is the preference of the Agency that ALL employees of the company be required to sign such a certification rather than only those employees working under an EPA contract. The certification shall require at a minimum, that the individual agrees to report to the proper company authority any personal COI the individual may have on any work that may result in an actual or potential COI. The certification shall also state the individual has read and understands

the company's COI Plan and procedures. The employee certifications shall be retained by the company.

E. Work Assignment (WA), Technical Direction Document (TDD), or Delivery Order (DO) Notification and Certification

The COI Plan shall describe the process the company requires for notifying the Agency prior to beginning work, and for submission of its' WA/TDD/DO certification within 20 days of receipt of the work from EPA.

NOTE: WA/TDD/DO certifications are NOT required if the contract contains an annual certification requirement. Nevertheless, the contractor's COI Plan should address the procedures to be followed for WA/TDD/DO certifications.

F. Annual Certification

The COI Plan shall describe the process the company requires for submission of its annual certification.

NOTE: Annual certification is NOT required if the contract contains a WA/TDD/DO certification requirement. Nevertheless, the contractor's COI Plan should address the procedures to be followed for annual certification.

G. Notification and Documentation

The COI Plan shall clearly delineate who is the responsible official for making COI determinations within the company. Generally, this would be someone at a middle to upper level of management. The responsible official shall be free of any personal conflicts for the purpose of making COI determinations, e.g., a program manager who receives bonuses based on the total amount of sales may not be free of conflicts.

The plan shall clearly identify the process that is required when notifying the EPA of any actual or potential COI and the actions that the company has taken or will take to avoid, neutralize or mitigate the conflict. In addition, a contractor shall document all COI searches related to EPA work, whether or NOT an actual or potential COI has been identified.

H. Training

The COI Plan shall require all employees of the company to receive basic COI training, and that each employee receive COI awareness training, at least, on an annual basis. The company's COI Plan shall be available for all employees to review. Annual awareness training shall include, at a minimum, a review of the certification language and any changes that may have occurred in the company's COI Plan. In addition, companies are encouraged to routinely disseminate to their employees current COI information.

I. Subcontractor's COI Plans

The COI Plan shall describe the process and mechanism by which the company will monitor its subcontractors to ensure all subcontractors are complying with the COI provisions in their contracts. It is important that subcontractors identify and report COI as well as submit Limitation of Future Contracting (LOFC) requests for approval.

DRAFT

INVOICE PREPARATION INSTRUCTIONS

**INVOICE PREPARATION INSTRUCTIONS
SF 1034**

The information which a contractor is required to submit in its Standard Form 1034 is set forth as follows:

- (1) **U.S. Department, Bureau, or establishment and location** - insert the names and address of the servicing finance office unless the contract specifically provides otherwise.
- (2) **Date Voucher Prepared** - insert date on which the public voucher is prepared and submitted.
- (3) **Contract/Delivery Order Number and Date** - insert the number and date of the contract and delivery order, if applicable, under which reimbursement is claimed.
- (4) **Requisition Number and Date** - leave blank.
- (5) **Voucher Number** - insert the appropriate serial number of the voucher. A separate series of consecutive numbers, beginning with Number 1, shall be used by the contractor for each new contract. When an original voucher was submitted, but not paid in full because of suspended costs, submission vouchers should be submitted in a separate invoice showing the original voucher number and designated with the letter "R" as the last character of the number. If there is more than one resubmission, use the appropriate suffix (R2, R3, etc.)
- (6) **Schedule Number; Paid By; Date Invoice Received** - leave blank.
- (7) **Discount Terms** - enter terms of discount, if applicable.
- (8) **Payee's Account Number** - this space may be used by the contractor to record the account or job number(s) assigned to the contract or may be left blank.
- (9) **Payee's Name and Address** - show the name of the contractor exactly as it appears in the contract and its correct address, except when an assignment has been made by the contractor, or the right to receive payment has been restricted, as in the case of an advance account. When the right to receive payment is restricted, the type of information to be shown in this space shall be furnished by the Contracting Officer.
- (10) **Shipped From; To; Weight Government B/L Number** - insert for supply contracts.

- (11) **Date of Delivery or Service** - show the month, day and year, beginning and ending dates of incurrence of costs claimed for reimbursement. Adjustments to costs for prior periods should identify the period applicable to their incurrence, e.g., revised provisional or final indirect cost rates, award fee, etc.
- (12) **Articles and Services** - insert the following: "For detail, see Standard Form 1035 total amount claimed transferred from Page ____ of Standard Form 1035." Type "COST REIMBURSABLE-PROVISIONAL PAYMENT" or "INDEFINITE QUANTITY/INDEFINITE DELIVERY-PROVISIONAL PAYMENT" on the Interim public vouchers. Type "COST REIMBURSABLE-COMPLETION VOUCHER" or "INDEFINITE QUANTITY/INDEFINITE DELIVERY-COMPLETION VOUCHER" on the Completion public voucher. Type "COST REIMBURSABLE-FINAL VOUCHER" or "INDEFINITE QUANTITY/INDEFINITE DELIVERY-FINAL VOUCHER" on the Final public voucher. Type the following certification, signed by an authorized official, on the face of the Standard Form 1034.

"I certify that all payments requested are
for appropriate purposes and in accordance
with the agreements set forth in the
contract."

DRAFT

(Name of Official) (Title)

- (13) **Quantity; Unit Price** - insert for supply contracts.
- (14) **Amount** - insert the amount claimed for the period indicated in (11) above.

**INVOICE PREPARATION INSTRUCTIONS
SF 1035**

The information which a contractor is required to submit in its Standard Form 1035 is set forth as follows:

- (1) **U.S. Department, Bureau, or Establishment** - insert the name and address of the servicing finance office.
- (2) **Voucher Number** - insert the voucher number as shown on the Standard Form 1034.
- (3) **Schedule Number** - leave blank.
- (4) **Sheet Number** - insert the sheet number if more than one sheet is used in numerical sequence. Use as many sheets as necessary to show the information required.
- (5) **Number and Date of Order** - insert payee's name and address as in the Standard Form 1034.
- (6) **Articles or Services** - insert the contract number as in the Standard Form 1034.
- (7) **Amount** - insert the latest estimated cost, fee (fixed, base, or award, as applicable), total contract value, and amount and type of fee payable (as applicable).
- (8) **A summary of claimed current and cumulative costs and fee by major cost element.** Include the rate(s) at which indirect costs are claimed and indicate the base of each by identifying the line of costs to which each is applied. The rates invoiced should be as specified in the contract or by a rate agreement negotiated by EPA's Cost Policy and Rate Negotiation Branch.
- (9) The **fee** shall be determined in accordance with instructions appearing in the contract.

NOTE: Amounts claimed on vouchers must be based on records maintained by the contractor to show by major cost element the amounts claimed for reimbursement for each applicable contract. The records must be maintained based on the contractor's fiscal year and should include reconciliations of any differences between the costs incurred per books and amounts claimed for reimbursement. A memorandum record reconciling the total indirect cost(s) claimed should also be maintained.

SUPPORTING SCHEDULES FOR COST REIMBURSEMENT CONTRACTS

The following backup information is required as an attachment to the invoice as shown by category of cost:

Direct Labor - identify the number of hours (by contractor labor category and total) and the total direct labor dollars billed for the period in the invoice.

Indirect Cost Rates - identify by cost center, the indirect cost rate, the period, and the cost base to which it is applied.

Subcontracts - identify the major cost elements for each subcontract.

Other Direct Costs - when the cost for an individual cost (e.g., photocopying, material and supplies, telephone usage) exceeds \$1,000 per the invoice period, provide a detailed explanation for that cost category.

Contractor Acquired Equipment (if authorized by the contract) - identify by item the quantities, unit prices, and total dollars billed.

Contractor Acquired Software (if authorized by the contract) - identify by item the quantities, unit prices, and total dollars billed.

Travel - when travel cost exceed \$2,000 per invoice period, identify by trip, the number of travellers, the duration of travel, the point of origin, destination, purpose of trip, transportation by unit price, per diem rates on daily basis and total dollars billed. Detailed reporting is not required for local travel.

The manner of breakdown, e.g., work assignment/delivery order basis with/without separate program management, contract period will be specified in the contract instructions.

NOTE: Any costs requiring advance consent by the Contracting Officer will be considered improper and will be suspended, if claimed prior to receipt of Contracting Officer consent. Include the total cost claimed for the current and cumulative-to-date periods. After the total amount claimed, provide summary dollar amounts of cumulative costs: (1) suspended as of the date of the invoice; and (2) disallowed on the contract as of the date of the invoice. The amount under (2) shall include costs originally suspended and later disallowed. Also include an explanation of the changes in cumulative costs suspended or disallowed by addressing each adjustment in terms of: voucher number, date, dollar amount, source, and reason for the adjustment. Disallowed costs should be identified in unallowable accounts in the contractor's accounting system.

SUPPORTING SCHEDULES FOR FIXED-RATE CONTRACTS

The following backup information is required as an attachment to the invoice as shown by category of cost:

Direct Labor - identify by labor category the number of hours, fixed hourly rate, and the total dollars billed for the period of the invoice.

Subcontracts - identify the major cost elements for each subcontract.

Other Direct Costs - when the cost for an individual cost (e.g., photocopying, material and supplies, telephone usage) exceeds \$1,000 per the invoice period, provide a detailed explanation for that cost category.

Indirect Cost Rates - identify by cost center, the indirect cost rate, the period, and the cost base to which it is applied.

Contractor Acquired Equipment - identify by item the quantities, unit prices, and total dollars billed.

Contractor Acquired Software - identify by item the quantities, unit prices, and total dollars billed.

Travel - when travel costs exceed \$2,000 per invoice period, identify by trip, the number of travellers, the duration of travel, the point of origin, destination, purpose of trip, transportation by unit price, per diem rates on daily basis and total dollars billed. Detailed reporting is not required for local travel.

The manner of breakdown, e.g. work assignment/delivery order basis with/without separate program management, contract period will be specified in the contract instructions.

NOTE: Any costs requiring advance consent by the Contracting Officer will be considered improper and will be suspended, if claimed prior to receipt of Contracting Officer consent. Include the total cost claimed for the current and cumulative-to-date periods. After the total amount claimed, provide summary dollar amounts of cumulative costs: (1) suspended as of the date of the invoice; and (2) disallowed on the contract as of the date of the invoice. The amount under (2) shall include costs originally suspended and later disallowed. Also include an explanation of the changes in cumulative costs suspended or disallowed by addressing each adjustment in terms of: voucher number, date, dollar amount, source, and reason for the adjustment. Disallowed costs should be identified in unallowable accounts in the contractor's accounting system.

RESUBMISSIONS

When an original voucher was submitted, but not paid in full because of suspended costs and after receipt of a letter of removal of suspension, resubmissions of any previously claimed amounts which were suspended should be submitted in a separate invoice showing the original voucher number and designated with the letter "R" with the copy of the removal of suspension notice. The amounts should be shown under the appropriate cost category and include all appropriate supplemental schedules. NOTE:

All disallowances must be identified as such in the accounting system through journal entries.

Voucher resubmittals may also occur as a result of: (1) a new indirect cost rate agreement; or (2) adjustments to previously billed direct cost rates due to audit resolution. Such claims should be submitted in a separate invoice or request for contractor financing payment number. They should include supplemental schedules showing the previously adjusted amounts by contract period. If the resubmission is based on a new rate agreement, a copy of the agreement should be attached. Costs must be identified by delivery order or work assignment where appropriate. If the contract is Superfund-related, voucher resubmittals shall also identify the amount claimed against each Superfund site and non-site-specific activity.

COMPLETION VOUCHERS

Submit a completion voucher when all performance provisions of the contract are physically complete, when the final report (if required) is accepted, and when all direct costs have been incurred and booked. Indirect costs may be claimed at the provisional rates, if final rates are not yet available. Contractors must identify these vouchers by typing "Completion Voucher" next to the voucher number. For contracts separately invoiced by delivery order, provide a schedule showing total costs claimed by delivery order in total for the contract.

In addition to the completion voucher, the contractor must submit an original and two copies of EPA Form 1900-10, Contractor's Cumulative Claim and Reconciliation showing the total cumulative costs claimed under the contract.

The information which a contractor is required to submit in its EPA Form 1900-10 is set forth as follows:

- (1) **Contractor's Name and Address** - show the name of the contractor exactly as it appears in the contract and its correct address, except when an assignment has been made by the contractor, or the right to receive payment has been restricted, as in the case of an advance account. When the right to receive payment is restricted, the type of information to be shown in this space shall be furnished by the Contracting Officer.
- (2) **Contract Number** - insert the number of the contract under which reimbursement is claimed.
- (3) First voucher number and completion voucher number.
- (4) Total amount of cost claimed for each cost element category through the completion voucher.
- (5) Total Fee awarded.

- (6) Amount of indirect costs calculated using negotiated final indirect cost rate(s) and/or provisional rate(s) as specified in the contract, if final rate(s) are not yet negotiated for any fiscal period.
- (7) Fiscal year.
- (8) Indirect cost center.
- (9) Appropriate basis for allocation.
- (10) Negotiated final indirect cost rate(s) or provisional indirect cost rate(s).
- (11) Signature.
- (12) Official title.
- (13) Date.

FINAL VOUCHER AND CLOSING DOCUMENTS

DRAFT
After completion of the final audit and all suspensions and/or audit exceptions have been resolved as to the final allowable costs and fee, including establishment of final indirect cost rate(s) for all periods the contractor shall prepare a final voucher including any adjustments to vouchered costs necessitated by the final settlement of the contract price. Contractors must identify these vouchers by typing "Final Voucher" next to the voucher number. For contracts separately invoiced by delivery order, provide a schedule showing final total costs claimed by delivery order and in total for the contract. The contractor shall also provide an original and two copies of an updated EPA Form 1900-10, Contractors Cumulative Claim and Reconciliation, showing the total negotiated, cumulative costs for the contract. Indirect costs shall be included at the final negotiated rates.

In addition to the final voucher, the contractor must submit an original and two copies of the Contractor's Release; Assignee's Release, if applicable; the Contractor's Assignment of Refunds, Rebates, Credits and other Amounts; the Assignee's Assignment of Refunds, Rebates, Credits and other Amounts, if applicable; and the Contractor's Affidavit of Waiver of Lien, when required by the contract.

SOW

STATEMENT OF WORK

I. INTRODUCTION

The contractor for this contract shall provide technical support to the Office of Solid Waste (OSW) for assessing risks from chemicals that are released from hazardous and non-hazardous waste management units. These assessments are necessary to determine if practices during the management, transfer, handling, storage, treatment or disposal of hazardous & non-hazardous solid waste will result in adverse effects on human health and ecological systems due to exposure to the wastes. In addition, technical support may be necessary in determining the benefits, relative risk, and/or cost of various types of treatment and disposal alternatives. The scope of work is extensive (both in scope and duration) and includes a variety of tasks that shall require multi-disciplinary and highly specialized expertise.

Specifically, the contractor shall provide support services to the Environmental Protection Agency (“EPA” or “the Agency”) for the development and implementation of methodology and/or models to predict the release, dispersion, deposition, exposure, transport, fate, and risks of chemicals disposed of, or managed in, industrial or municipal settings. Support is also necessary for collecting, accessing, and analyzing scientific information, and, following EPA review and approval, communicating this information to the EPA regions, States, public, and regulated community. Support may also be needed for economic and benefits analyses as well. Additionally, work may be needed in having technical work products scientifically peer reviewed. OSW emphasizes the quality of its work products and consequently stresses quality assurance and quality control in all aspects of the work.

To support EPA’s assessment of risks associated with waste programs, the contractor shall provide a team of experts with risk assessment expertise in a variety of fields. The expertise needed for each task may include toxicology, microbiology, pharmacokinetics, chemistry, biochemistry, hydrology, biology, meteorology, ecology, statistics, engineering, soil science, computer programming, economics, computer modeling, hydrogeology, data-base management, and geochemistry.

II. BACKGROUND

The Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act of 1976 (RCRA) and the Hazardous Waste and Solid Waste Amendments of 1984 (HSWA), requires the EPA to oversee a program that ensures that the management of hazardous & non-hazardous solid waste does not pose a risk to human health and the environment. Within EPA, OSW is involved in a variety of activities to support and develop hazardous waste (Subtitle C) and non-hazardous waste (Subtitle D) regulatory and non-regulatory actions. Specific regulations for carrying out RCRA are set forth in the Code of Federal Regulations (40 CFR 256

to 268 and 270 to 272). Additionally, these statutes may also require special reports to Congress.

In order to determine if management practices used in the control of hazardous and non-hazardous waste are protective of human health and the environment, EPA uses various techniques and analytic methodologies. Consequently, EPA is responsible for: method development and evaluation; field sampling; data gathering and analysis; assessment of potential exposures and risk; quality assurance and quality control; feasibility studies for regulatory development; development of permits for hazardous waste facilities, and other aspects (such as cost benefit and economic development) of implementing Subtitle C and D of RCRA.

III. SPECIFIC WORK AREAS

The contractor shall, during the period of performance of the contract, provide the necessary Level-of-Effort (LOE) and all other related services to carry out the specific work assignments issued by the Contracting Officer in accordance with clause B.2 of the Schedule entitled "Work Assignments."

The contractor shall provide up-to-date experience, knowledge and expertise in waste management techniques and analytic methodologies. This expertise may be used to develop new or modify existing models and methods which identify potential risk or benefits resulting from treatment, storage and disposal of hazardous or non-hazardous waste. The contractor shall possess the capability of running new and existing data on models recommended by EPA. The contractor may be asked to perform tasks in the following general categories:

1. Risk Assessment Implementation;
2. Toxicological Summary Development;
3. Model/Method Development;
4. Information Gathering and Data Analysis;
5. Document Preparation;
6. Assessment of Cost, Benefits, and Other Impacts; and
7. Other Technical Support

The contractor shall provide recommendations and options to EPA on technical issues that are supported and documented by its underlying analysis. EPA will, however, make the final decisions with regard to the implementation of the recommendations. EPA will make all the decisions with regard to policy issues that may arise. All materials prepared under this contract by the contractor will be reviewed, revised and finalized, and approved by EPA prior to their use or distribution.

All contractor deliverables under this contract shall be accompanied by a disclosure statement describing the deliverable and affirmatively stating that the information contained in the deliverable is of contractor's origin and should not be construed as Agency policy, position or decision. In addition, all contractor data will be reviewed, revised or approved by the Agency

prior to use in Agency documents. All contractor final documents shall include a bibliography identifying data sources used and publications relied upon in creating the document. Copies of all bibliographic items shall be provided to EPA when requested.

The contractor shall assist EPA in performance of the following types of tasks:

Task 1: Risk Assessment Implementation

The contractor shall conduct environmental and human health analyses of waste management practices and problems relevant to RCRA managed wastes and other related environmental programs. The contractor shall provide qualitative and quantitative assessments of the potential environmental and human health impacts associated with actual to hypothetical waste management practices using methods and models ranging in complexity from site-specific to national, screening-level to detailed, and single medium to multi-media. These analyses may target plant, industry, local, regional, state, or national sectors. The contractor may be required to review assessments that have been conducted by others. The contractor may also be required to conduct validation and verification studies on risk analysis.

To support this task, the contractor may be required to use or update existing risk methods or models, or to develop new methods or models that:

- calculate or simulate the release of the contaminant from various waste management operations to different media (e.g., air, soil, surface water, groundwater);
- calculate or simulate the fate of the contaminants in various media (e.g., partitioning, hydrolysis, degradation, etc.);
- calculate or simulate transport of contaminants in groundwater, including one-dimensional, two-dimensional, and three-dimensional models for aqueous and/or non-aqueous phase contaminants;
- calculate or simulate the contaminants' atmospheric fate and transport of gaseous, vapor-bound, and particulate-bound, air emissions from waste management operations;
- calculate or simulate the fate and transport of contaminants across land through erosion and run-off;
- calculate or simulate the fate and transport of contaminants in surface water;
- calculate or simulate the fate of contaminants in biological systems (i.e., plants and animals) including the uptake from soil, water, air, and diet;
- calculate or simulate exposures to human receptors and/or ecological receptors;
- estimate risks/hazards to human and/or ecological receptors;
- calculate or simulate multi-media (e.g., groundwater, surface water, air, and soil) fate and transport; and
- speciate metals for fate and transport simulations or calculations.

When the contractor is asked to use, develop, evaluate models, or modify for risk analysis, the contractor shall develop a Quality Assurance Project Plan.

The contractor shall also provide technical and regulatory support that includes the following:

- support for human and ecological risk characterization that covers a variety of constituents and mixtures, exposure durations and pathways. The support may include direct and indirect exposure pathways, which include ground water ingestion; soil ingestion; dermal exposure; inhalation exposure; and food consumption (e.g., fish ingestion, beef and dairy products, and agricultural crops). The support shall describe the scope of the assessment, express the results clearly, identify the major assumptions and uncertainties, identify the reasonable alternative interpretations, and separate scientific conclusions from policy judgments;
- support in developing relative risk estimates (e.g., compare the risks of various treatment and disposal options) related to hazardous waste regulations and non-regulatory alternatives;
- support in developing benefit analyses (e.g., pollutant loading reductions, energy savings) related to hazardous waste regulations and non-regulatory alternatives;
- support in areas related to identification of waste management practices and operating procedures, and in modification of these practices and procedures as related to changes in hazardous waste regulations; and,
- support in areas of waste characterization, generation, minimization, treatment, reclamation, disposal, and releases resulting from waste management practices.

Task 2: Toxicological Summary Development

In some cases, constituents or chemicals of concern do not have a current toxicity value that has been agreed upon by the Agency. Consequently, the contractor may be required to develop provisional toxicity benchmarks. In some cases, these provisional numbers will become part of the Agency Integrated Risk Information System (IRIS) process. To accomplish this task, the contractor shall review, analyze, and prepare summary reports on human health and ecological toxicological studies that are comprised of tests and supporting documentation for specific chemicals or classes of chemicals. Examples of these are acute, chronic, subchronic, oral, inhalation and ecological toxicity tests. In addition, the contractor shall review, analyze, and prepare summary reports on pharmacokinetics and metabolic studies to determine the body burden of the substance, the duration of the toxicant in the body following exposure, the time course of its elimination from the body, and the relationship between the various routes of

exposure. In some cases, the contractor shall be required to use structure activity relationships to estimate potential hazard of the chemical.

The toxicological summaries shall focus on:

- determining the quality and quantity of the toxicological tests conducted, and the quality of the data generated compared to Agency guidelines;
- supporting the adequacy of the technical findings and interpretations for hazard identification and dose-response;
- identifying the appropriateness of the studies for use in estimating reference doses, carcinogenic slope factors and ecological toxicity reference values; and
- identifying the strengths, weaknesses and uncertainties of the recommended approach.

The contractor shall recommend, where appropriate, interim or provisional chemical-specific reference values (e.g., reference doses, slope factors, ecological toxicity reference values). In certain instances, the contractor shall be required to put the provisional toxicity benchmark into format for inclusion in the IRIS process.

Task 3: Model/Method Development

The contractor shall undertake the necessary conceptual development, literature review, technical evaluation, and data assembly to develop and/or modify risk assessment and economic analysis models and/or methods. These models/methods will be used to conduct human health and/or ecological risk assessments or economic impact analyses. Additionally, the contractor shall assist EPA in developing and maintaining information systems for human health and ecological effects for chemicals of concern, as well as economic impact analyses. The contractor shall conduct the appropriate testing to ensure the accuracy of the model, method, database or code. The contractor may be required to validate and verify models and methods used in risk assessments or economic analyses. Validation efforts may include: (1) collect field data to compare to modeled or calculated results; (2) identify, collect; review, and summarize field data on contaminants in various media to compare to calculated results; or (3) benchmark models with new or existing models or methods. When the contractor is asked to use, develop, evaluate or modify models or methods for risk analysis and economic analyses, the contractor shall develop a Quality Assurance Project Plan.

Task 4: Information Gathering and Data Analysis

The contractor shall collect data relevant to the technical analyses from available sources and identify areas where additional data are needed. Information to be collected shall support analyses for chemical hazard identification; waste characterization; toxicity benchmarks; fate and transport of chemicals or waste constituents; facility site assessments; waste management practices; economic and regulatory impact evaluations; benefits identification; and evaluating health and ecological hazards and exposures.

The contractor shall provide support through the following activities:

- conducting literature searches;
- developing and conducting surveys;
- compiling, analyzing, and summarizing questionnaire data;
- acquiring and adapting fate, transport, and risk assessment models and methods;
- developing and evaluating protocols for sampling, testing and analyzing data;
- designing and reviewing sampling plans;
- reviewing and assessing data quality;
- identifying and evaluating waste management practices and operating procedures;
- characterizing waste;
- identifying waste minimization options;
- developing case studies and documenting damage incidents; and
- collecting, analyzing, reviewing, and summarizing field data on contaminants in various media.

The contractor shall also provide technical and/or regulatory analysis support. This support may include statistical analyses of input and output data; variability and uncertainty in probabilistic results; statistical basis for probabilistic approaches; development of correlations of parameters used; and development of national and regional distributions of environmental, waste management, cost, and economic parameters.

In the course of collecting data from an individual facility, the contractor shall inform the business that the facility may assert RCRA Confidential Business Information (CBI) claims. The contractor will execute an agreement on the use of any RCRA CBI obtained. Before receiving any CBI, the contractor must: (1) be cleared for RCRA CBI through the RCRA CBI document control officer; and (2) have their site approved during an on-site inspection conducted by EPA. The contractor shall maintain a logging system and physical security system for all RCRA CBI received. The contractor will follow established procedures for transmitting and receiving RCRA CBI.

Task 5: Document Preparation

The contractor shall provide technical support for document preparation and revision and ensure that the products are responsive, timely, and of high quality to meet the requirements of the Agency. All documents prepared under this task shall respond to the issues identified by EPA, and include supporting references and rationale for the recommendations and conclusions given. The contractor shall ensure that all documents prepared under this contract are technically accurate, defensible, free of errors (e.g., data entry, methodology), and editorially correct (e.g., free of typographic and grammatical errors). All supporting information shall be referenced and made available if requested. The types of documents that shall be prepared include:

- background documents to support OSW's rulemaking decisions;

- reports, white papers, or special studies regarding waste or related environmental programs;
- technical guidance documents to assist in the implementation of hazardous and non-hazardous waste programs;
- issue papers on human and ecological effects;
- reports or methods preparation on specialized testing for selected chemicals;
- technical appendices that specify detailed information upon which analyses are based;
- peer review summary documents that specify recommendations from independent peer reviewers;
- technical materials and information reports which, following EPA editing and approval, will be distributed to interested parties (e.g., industry, state agencies, environmental groups);
- user guides or manuals accompanying software products developed; and
- technical information in EPA specified report format in the areas mentioned in Tasks 1 through 4 above, and 6 below.

An important part of OSW's notice and comment process is the review and analysis of public and peer review comments and the subsequent response to those comments. Thus, the contractor may be required to compile, review, characterize, and recommend possible responses to these comments for EPA consideration, according to specific guidance in work assignments. EPA will make the final decision regarding recommendations to include in its final response to comments.

Task 6: Assessment of Cost, Benefits, and Other Impacts

The contractor shall provide technical support to OSW in assessing the impacts of waste-related regulations, non-regulatory programs, initiatives and policies. These impacts include:

- a) benefits, including human health risk reduction, ecological risk reduction, resource conservation, non-use benefits, and cost savings;
- b) costs, including engineering compliance costs and social costs, as well as increased risks from policy changes;
- c) economic impacts on specific industries or areas.

Analyses for each of these areas may also include an characterization of the distribution of effects among populations, states, industries, or time periods.

The contractor shall provide assistance in developing methodologies and conducting the analyses themselves. Data analysis shall address uncertainties, and yield results that are representative of the regulated universe. All economic analyses shall be conducted in accordance with EPA's *Guidelines for Economic Analyses*.

The contractor may also conduct methodology scoping studies, screening analyses, and literature reviews in order to:

- clarify major issues;
- characterize potential benefits or impacts of a rulemaking or policy (prior to undertaking a comprehensive analysis);
- identify sensitive parameters;
- identify data needs;
- Conduct cost effectiveness analysis;
- identify cross-media (or cross-programmatic) impacts; and
- facilitate the development of methodologies for comprehensive analyses.

The contractor shall provide support in developing reports based on these analyses, including Regulatory Impact Analysis, Economic Impact Analysis, Regulatory Flexibility Analysis, Unfunded Mandates Analysis and other relevant Executive Orders; as well as assessments of impacts on environmental justice, children's health, and local and tribal governments, and other economic or impact analyses.

Task 7: Other Technical Support

Other technical support the contractor shall provide includes:

- coordination and facilitation of roundtables, public meetings, and dialogue sessions with the regulated community, environmental groups, and state regulators;
- training support services on the use of any software developed under this contract;
- training support services including the development of training modules for risk or economic related methodologies or models;
- technical review of regional site-specific risk assessments;
- technical review of scientific papers, assessments and documents;
- technical and scientific editing of prepared documents;
- technical support for the OSW Quality Assurance (QA) program, particularly in the area of QA sampling and analysis plans and QA methods review;
- statistical analysis and review of assessments conducted;
- technical analyses of survey results;
- capability to produce high quality graphics and audio-visual support for EPA reports, briefings, workshops, and presentations related to this Statement of Work;
- capability to produce web pages for information related to this Statement of Work;
- capability to produce electronic deliverables for information related to this Statement of Work;
- response to peer review and public comments on proposed regulations and technical documents; and
- identification, selection, and coordination of independent peer reviews for technical analyse and scientific work products.

PERFORMANCE REQUIREMENTS

The contractor shall abide by the following performance requirements for each task unless stated otherwise in the work assignment. In all cases, the documents prepared for use by the public shall follow the Plain English style.

Task 1: Risk Assessment Implementation

- Literature searches, analyses, and technical/benefits evaluations shall be clear, concise, complete, and delivered according to EPA-specified delivery schedules;
- Studies, reviews, evaluations, options, and other reports resulting from this task shall respond to the appropriate issues identified by EPA, including supporting rationale for recommendations and conclusions;
- Quality assurance, quality control measures should be taken to ensure that data used in the analysis is appropriate for the issue being investigated;
- All analyses prepared under this task shall be provided to the RCRA docket according to EPA's directions;
- A copy of all reference materials used in this task shall be submitted to the RCRA docket according to EPA's directions;
- All electronic models/methods prepared under this task shall include copies of code in both compiled and native (i.e., uncompiled) formats;
- All computer code for electronic models/methods prepared under this task shall be internally documented;
- All Quality Assurance (QA) Project Plans developed for data collection shall follow the details described in the document "EPA Requirements for Quality Assurance Project Plans (QA/R-5);"¹
- All methodologies developed under this task shall be thoroughly tested before submission to EPA to ensure accuracy and functionality of code; and
- Documents, analysis and other reporting instruments of communication prepared under this task shall be technically accurate, defensible, free of errors (e.g., data entry, methodology), and editorially correct (e.g., free of typographic and grammatical errors).

Task 2: Toxicological Summary Development

- Literature searches, analyses, and technical evaluations shall be clear, concise, complete, and delivered according to EPA-specified delivery schedules;
- All toxicological summaries prepared under this task shall be clearly and completely documented and meet EPA-specified direction;

¹ Further details on developing QA Project Plans are described in "EPA Guidance for Quality Assurance Project Plans, QA/G-5)" and "Peer Review Draft- Guidance for Quality Assurance Project Plans for Modeling, QA/G-5M)." These documents can be accessed at http://www.epa.gov/quality/qa_docs.html.

- All toxicological summaries prepared under this task shall be provided to the RCRA docket according to directions given by EPA;
- A copy of all reference materials used in this task shall be submitted to the RCRA docket according to EPA's directions; and
- Documents prepared under this task shall be technically accurate, defensible, free of errors (e.g., data entry, methodology), and editorially correct (e.g., free of typographic and grammatical errors).

Task 3: Model/Method Development

- All methodologies developed under this task shall be thoroughly tested before submission to EPA to ensure accuracy and functionality of code;
- Revisions to existing models shall be clearly and completely documented including testing and version-control procedures;
- All methodologies developed under this task shall be delivered according to EPA-specified delivery schedules;
- All data/methodologies used in this task shall be clearly and completely documented, and the basis for assumptions clearly stated;
- A copy of all documents and/or materials prepared under this task shall be submitted to the RCRA docket according to EPA's directions;
- A copy of all reference materials used in this task shall be submitted to the RCRA docket according to EPA's directions;
- All electronic models/methods prepared under this task shall include copies of code in both compiled and native (i.e., uncompiled) formats;
- All computer code for electronic models/methods prepared under this task shall be internally documented;
- Background documents, brochures, and other written materials resulting from this task shall be clear, concise, correct and complete, and shall meet stakeholder (i.e., state and Federal agency personnel) needs, and be delivered according to EPA-specified delivery schedules;
- All Quality Assurance (QA) Project Plans that have been developed for this task must follow the details described in the document "EPA Requirements for Quality Assurance Project Plans (QA/R-5);"²
- Background documents, brochures, and other written materials resulting from this task shall meet the criteria specified in the most current guidelines for electronic data deliverables and the latest design standards and metadata requirements; and
- All models/methods/documents prepared under this task shall be technically accurate, defensible, free of errors (e.g., data entry, methodology), and editorially correct (e.g., free of typographic and grammatical errors).

² Further details on developing QA Project Plans are described in "EPA Guidance for Quality Assurance Project Plans, QA/G-5)" and "Peer Review Draft- Guidance for Quality Assurance Project Plans for Modeling, QA/G-5M)." These documents can be accessed at http://www.epa.gov/quality/qa_docs.html.

Task 4: Information Gathering and Data Analysis

- All materials describing the methodologies used to collect data, including sources of data (published and electronic), shall be clear, concise, complete, and delivered according to EPA-specified delivery schedules;
- All deliverable documents shall clearly demonstrate that the data collected by a particular method are consistent with the scope and application of the method;
- All data used in this task shall be clearly and completely documented, and the basis for assumptions clearly stated;
- All electronic databases prepared under this task shall include copies of code in both compiled and native (i.e., uncompiled) formats;
- All computer code for electronic databases prepared under this task shall be internally documented;
- Measures to ensure quality control and quality assurance shall be completely described and implemented in accordance with EPA-established guidelines;
- A copy of all data gathered and materials prepared under this task shall be submitted to the RCRA docket according to direction given by EPA;
- All analyses, and technical evaluations prepared under this task shall be clear, concise, and complete and delivered according to EPA-specified delivery schedules;
- All materials prepared under this task shall respond to the appropriate issues identified by EPA, including supporting rationale for recommendations and conclusions; and
- All analyses prepared under this task shall be technically accurate, defensible, free of errors (e.g., data entry, methodology), and editorially correct (e.g., free of typographic and grammatical errors).

Task 5: Documentation Preparation

- All deliverable documents describing reviews, modifications, improvements, and development of methodologies resulting from this task shall be clear, concise, complete, and delivered according to EPA-specified delivery schedules;
- Studies, reviews, evaluations, options, and other written materials resulting from this task shall respond to the appropriate issues identified by EPA, including supporting rationale for recommendations and conclusions;
- All reports and graphic material shall be clear, concise, well-organized, and complete;
- All documents prepared under this task shall be clearly and completely documented;
- A copy of all documents and/or materials prepared under this task shall be submitted to the RCRA docket according to EPA's directions;
- A copy of all reference materials used in this task shall submitted to the RCRA docket according to EPA's directions;
- Documents, brochures, and other written materials resulting from this task shall meet the criteria specified in the most current guidelines for electronic data deliverables and the latest design standards and metadata requirements;
- All written materials prepared for use by the public shall follow the "Plain English" style unless specifically stated otherwise in the task order;

- All methodologies developed under this task shall be thoroughly tested before submission to EPA to ensure functionality;
- Peer review deliverables shall describe the procedure used for reviewer selection and detail how appropriate skills and impartiality were ensured; and
- All analyses prepared under this task shall be technically accurate, defensible, free of errors (e.g., data entry, methodology), and editorially correct (e.g., free of typographic and grammatical errors).

Task 6: Assessment of Cost, Benefits, and Other Impacts

- All deliverable documents describing reviews, modifications, improvements, and development of methodologies resulting from this task shall be clear, concise, complete, and delivered according to EPA-specified delivery schedules;
- Studies, reviews, evaluations, options, and other written materials resulting from this task shall respond to the appropriate issues identified by EPA, including supporting rationale for recommendations and conclusions;
- A copy of all documents and/or materials prepared under this task shall be submitted to the RCRA docket according to EPA's directions;
- A copy of all reference materials used in this task shall submitted to the RCRA docket according to EPA's directions;
- All electronic models/methods prepared under this task shall include copies of code in both compiled and native (i.e., uncompiled) formats;
- All computer code for electronic models/methods prepared under this task shall be internally documented;
- All methodologies developed under this task shall be thoroughly tested before submission to EPA to ensure functionality; and
- All analyses prepared under this task shall be technically accurate, defensible, free of errors (e.g., data entry, methodology), and editorially correct (e.g., free of typographic and grammatical errors).

Task 7: Other Technical Support

- All meetings facilitated or planned by the contractor shall be clear, concise and organized in a way to achieve the objectives of the meeting;
- All meeting materials shall be clear, concise and complete;
- All training course materials shall be clear, concise and complete to meet the objectives of the training required;
- The contractor shall obtain an assessment/evaluation of and comments on the training sessions through post-training evaluation forms;
- All Internet-based information (i.e., web pages) prepared under this task shall be clear, concise, complete, and functional;
- The contractor shall deliver the electronic source files used to create all Internet-based deliverables. All files shall be scanned for viruses prior to delivery to EPA;

- All HTML and web-based files and applications shall comply with the accessibility standards developed under Section 508 of the Americans with Disabilities Act (<http://www.section508.gov>);
- Studies, reviews, evaluations, and other written materials resulting from this task shall respond to the appropriate issues identified by EPA, including supporting rationale for recommendations and conclusions;
- All methodologies developed under this task shall be thoroughly tested before submission to EPA to ensure functionality;
- All analyses prepared under this task shall be technically accurate, defensible, free of errors (e.g., data entry, methodology), and editorially correct (e.g., free of typographic and grammatical errors); and
- Peer reviewers shall be recognized experts in their field and qualified to review the materials submitted for peer review.

SAMPLE WORK ASSIGNMENTS

Sample Work Assignment #1:

Computers and televisions are in almost every household and business in the United States. Several hundred million computers and televisions are in use and many more millions are believed to be in storage. Both computer monitors and televisions typically contain a cathode ray tube (CRT), which creates the images seen on the television or computer monitor. The glass in CRTs from color computer monitors and color televisions can contain enough lead to qualify these devices as hazardous waste when they are discarded.

Currently, there are two main management recycling practices for recycling CRTs: (1) glass to glass recycling; and (2) lead smelting. As recycling of electronic products becomes more prevalent in today's world, being able to compare the potential environmental consequences from these practices may become more of a priority for the Office of Solid Waste. Consequently, the contractor is asked to propose a screening-level methodology which can be used for evaluating the human health and environmental risks from both of these recycling technologies. The results from the proposed methodology should allow a user to determine which recycling practice would result in the least amount of risk to either human health or the environment.

To accomplish this task, the contractor shall undertake the necessary steps to develop the conceptual plan, identify the data needs, develop the model and/or method necessary to evaluate, compare and contrast the risks from these processes. In addition, the contractor shall conduct an evaluation of the proposed screening methodology to determine where the greatest areas of uncertainty are, and make recommendations to reduce the uncertainties identified.

Sample Work Assignment #2

Because there are many treatment options that may be applicable for specific waste streams, the Office of Solid Waste often needs to characterize a waste stream, identify potential treatment and disposal options, and assess the risks and economic impacts of each of the treatment options. For this analysis, the contractor shall provide technical support to OSW in the development of a methodology to analyze the human health and ecological risks, costs, benefits, and economic impacts associated with a treatment train for a wastewater.

The contractor shall identify and characterize at least three treatment trains (for example, aerated tanks with land disposal of sludges, incineration with land disposal of ashes) and assess the risks, costs, benefits and economic impacts from generation to ultimate disposal (for example, sludges or incineration ash in a landfill). The contractor shall develop a methodology to assess risks to human health and the environment that tracks constituents through various media and integrates exposures from appropriate exposure pathways. In addition, the contractor shall develop a methodology that estimates the costs, benefits, and impacts for each treatment train. The methodologies should address uncertainty and variability in the results and identify areas for further data collection. The contractor shall then compare and contrast the alternatives

treatment trains based on the magnitude of risks from each train and the relative costs and benefits associated with each treatment technology.
